A. Medical Determination Bills.

When a miner files a black lung claim, one of our first actions is to schedule the miner for a battery of tests to determine if the miner has black lung disease and is totally disabled by it. Medical providers submit the bills for these tests, along with the test results, to the district offices. Approved bills are forwarded for payment to DCMWC's contractor-run medical bill payment operation, which is supervised by its National Office. Bills are batched (complete with batch control sheet), copied electronically and the batch is placed in a folder.
