AGENCY RECORDS CONTROL SCHEDULE NO. 3

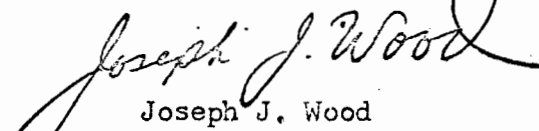

RECORDS OF THE OFFICE OF THE FINANCIAL VICE PRESIDENT

Agency Records Control Schedule No. 3 authorizes disposal of the records described in it that are dated on or after January 1, 1921. For records dated before January 1, 1921, special authority for disposal must be secured from the Chief, Records Management Branch, Administrative Services Division.

Records Authorized for destruction under this schedule shall be burned, shredded, or sold for scrap at the end of the prescribed period. To facilitate disposal of records that are kept in a continuous series, annual or biennial cut-offs are recommended. The records within the cut-off period may then be disposed of as a group, based on the date of the last paper in the series.

Noncurrent records should be shipped to the Agency Records Center for lowcost storage if they (1) are seldom referred to, (2) must be retained for at least one year, and (3) occupy needed file space. Documents and instructions for such shipments are furnished by the Center on request. Containers are available in the Panama Canal Company Division of Storehouses. Records stored at the Center are available for reference during the storage period. They will be disposed of in accordance with the provisions of the schedule only after concurrence of the responsible official has been obtained.

Records holdings should be reviewed for disposition under the schedule at least once a year, preferably shortly after the beginning of the fiscal year. Unscheduled records, records that have changed in nature or purpose, and records that are scheduled but no longer produced should be reported to the Chief, Records Management Branch, Administrative Services Division, for review and appropriate action.

Joseph J. Wood
Chief, Administrative Services Division
Agency Records Officer

Rates and Analysis Branch

~~84. PCC/GZC Official Tariffs and related correspondence. All studies are originals and center around marine and longshore services, transportation and utilities, health services, education, ocean transportation, public licenses and fees, etc. These records are necessary for the development of rate-making policies and the reviewing and revising of existing rates of the Company/Government.~~

~~Records to be kept indefinitely as they are vitally important from a rate making policy and procedural standpoint for the entire Panama Canal organization. Frequent referrals must be made to them during nearly all rate reviews. The older files are of historical value and are examined from time to time for background and statistical data, as studies are carried out in accordance with requests from the Governor, members of the Board of Directors, and other officials of the Company/Government.~~
