NONPOPULATION CENSUS SCHEDULES FOR THE DISTRICT OF COLUMBIA, 1850-1870:
AGRICULTURE, INDUSTRY, MORTALITY, AND SOCIAL STATISTICS; AND
NONPOPULATION CENSUS SCHEDULES FOR WORCESTER COUNTY, MARYLAND, 1850:
AGRICULTURE

Introduction

On the single roll of this microfilm publication, M1793, are reproduced the 1850, 1860, and 1870 census schedules of agriculture, industry, mortality, and social statistics for the District of Columbia, and the 1850 census schedules of agriculture for Worcester County, Maryland. The mortality schedules for the 1850 census are limited to one page of data for Georgetown.

About 1972 the original schedules reproduced on this roll were in the custody of the Duke University Library, Durham, North Carolina, and were filmed by that institution. One positive and one negative copy of this microfilm were deposited in the National Archives. In 1994 this microfilm was assigned a number, M1793, in order to issue it as an official National Archives Microfilm Publication.

Due to operator error at the time these records were filmed, about three pages are unreadable; researchers interested in those pages should contact Duke University Library for further information.

The 1850 schedules contain "consecutive" pagination noted in the Contents section that follows this introduction. However, that section also reflects the fact that the filming of various categories of schedules (i.e., agriculture and social statistics) did not entirely follow the original pagination. Since pagination of the 1860 and 1870 schedules begins again for each political subdivision, page numbers for these sections have not been included.
