<CONR_DCO> 21:14:48 <CONR_DCO> AEW-T: we are relooking our tanker cap locations to service our fighter caps by moving Salt Lake City one over Colorado and the Offutt location to Houston area for SEADS. would leave 2 tankers TACON to WADS, 3 tankers TACON to NEADS, and 1 tanker TACON to SEADS. It looks like we also need one to cover Miami area. Is it possible to have 7 tankers 24/7 vice 6? If not, we'll need tankers on RPI at Robins and MacDill//repeat for AEW-T//
