Ms. Horska. The Michigan Attorney General is reviewing the facts and circumstances surrounding the false Certificate of Votes submitted to the Archivist of the United States by the unsuccessful Republican Party candidates for elector of the president and vice president of the United States. It is my understanding that this false certification was received by the National Archives and Records Administration.

I would appreciate your efforts if you would contact me to briefly discuss the matter. As I indicated in my voicemail message, I can best be reached at 517-881-4509.

Richard L. Cunningham
