Good-morning. I heard from Gary this morning. (b) (5)  
[REDACTED]

I need to know the scale of the potential issue as soon as possible. Please feel free to involve other staff. One option is to do a quick screening - check the tops/bottoms for marked classified - and then later do a more detailed review. I just need to beagle to determine next steps based on some initial information.

Thanks,

Jay

Good morning.

I should be able to complete the quick screening for classification markings by 2:00 today if not earlier. If I focus on looking for markings, I will not have additional information about the record status of the unclassified material today.

I am screening the records in a SCIF. Please call (b) (6), (b) (7)(C) if you need to reach me.

Thanks! My key concern today is re the classified. Depending on your findings, we might need to pull in more materials, coordinate with others, etc. We can do the record status review on a second pass.

I have completed the screening of the boxes to identify any documents with national security classification markings. I located nine documents (totaling 44 pages) with classification markings. The classification markings include Confidential, Secret, Top Secret, and Top Secret/SCI.

I am closing up the SCIF and heading to my desk. You can give me a call at my desk (b) (6), (b) (7)(C) if you would like to talk about what I found.

Hi. The next step is to go through the now four boxes to look for any materials that should have come to us under the PRA. We need to create an item-level inventory of any such material. To the extent we can differentiate between originals and courtesy or reference copies, we should note that as well.

In addition, please create a classified inventory for the classified items.

We will not conduct a true item-level inventory for the remainder of the four boxes at this time. We are only seeking to define the scope of the issue.

We will not do anything with the other 28 until the above work with the four boxes is complete. At that time, we need to do some checking to confirm our understanding of the 28, but let's discuss that later.

Well done on this and thank you.

The "fourth" or the "twenty-ninth" box was examined and it does not contain any classified information. There was a single cover sheet in the back of a three-ring binder. The binder had been repurposed to hold speeches, and while the front cover sheet was removed through this process the rear was missed. The binder does not contain any classified information.

We are going to create item-level inventories of any of the classified and any materials we feel should have been transferred to us under the PRA next (for the four boxes). That will allow us to more quickly define any issues.

More as that work is accomplished.

In short, today we brought back all of the boxes from the Penn Biden Center that contained textual materials (a total of 29 boxes), and will begin the process of reviewing them to see if they contain any classified or PRA records.

As early as tomorrow, Kennedy Library staff will pick up the boxes that are in the Boston office of Pat Moore, so we can go through them as well.

Hi Jay and Gary,

Thanks again for working with us last week to arrange the interviews of Gary and (b) (6), (b) (7)(C)

We'd like to try to set up some times this week to interview:

1. Jay Bosanko
2. (b) (6), (b) (7)(C)
3. (b) (6), (b) (7)(C)

Could you help us find some times that would work for that?

Thanks,

Yes - access will be coordinated with (b) (6), (b) (7)(C) I do not believe that (b) (6), (b) (7)(C) has started on the 28 - (b) (6), (b) (7)(C) is focusing on the 3, now 4.

We will need a POC with whom they can work to facilitate access and copying in the SCIF. (b) (6), (b) (7)(C) did it last time. Should it be (b) (6), (b) (7)(C) this time?

Also, do you know if anyone has started going through any of the 28 condolence boxes?

Gary:

In the attached email from Bob Bauer, I have received concurrence from the President (b) (6), (b) (7)(C) to DOJ and the FBI getting access to all records NARA has retrieved from the Penn Biden Center. The FBI would like to make arrangements to review the records as soon as possible. With respect to the nine boxes that were brought last week to NARA's facility at the JFK Library in Boston, would it be possible to have them sent to NARA in D.C.?

Please let me know if you have any questions. Thanks.

Hey (b) (6), (b) (7)(C)

I thought it might help if I sent you some times that would work for me and you could see if these blocks work for (b) (6), (b) (7)(C). I could do anytime from 9 AM to Noon this Wednesday; 9:00 AM to 11:30 AM this Thursday, or Friday from 10:30 to Noon. I hope this helps and that (b) (6), (b) (7)(C) has some time alongside this that could work. Let me know if you need me to look for different times.

Thanks,

(b) (6), (b) (7)(C)

Hey, (b) (6), (b) (7)(C).

The FBI will be here to interview you and (b) (6), (b) (7)(C) Wednesday morning at 9:00. (b) (6), (b) (7)(C) will meet them in the lobby and will be interviewed first. (b) (6), (b) (7)(C) will then call you for your interview. You can use my office or John's office for the interview. (John's would be roomier.)

I believe he was clarifying that the team coming tomorrow are doing interviews only.

When I said you were the point of contact, I think he thought I misunderstood that this was about document review and not the interviews.

This is just an interview of (b) (6), (b) (7)(C) and (b) (6), (b) (7)(C). Access to the documents has not yet been finalized. Gary will clear that and alert me and then I will coordinate between the FBI and (b) (6), (b) (7)(C). Someone should meet the FBI in the Lobby at 9. I will clear them with security now.

Jay,

Have we heard anything from the FBI regarding when they want to come in to look at the Biden-Penn boxes? (b) (6), (b) (7)(C) only has two staff available for this work (b) (6), (b) (7)(C) and (b) (6), (b) (7)(C) so the more lead time we can get the better.

Also, I believe (b) (5) Let me know when we can plan that shipment.

Thanks,  
Susan

Hi. I will check, but I can't make any promises. There are only a couple of people with access, and if they are already out of town, etc., nobody else can access the pertinent storage area, etc. Whether it is tomorrow or another day, how many would be coming and is it just to review, or do you want to copy, etc.? This will help me determine what might be possible.

Thanks,

Jay

Good afternoon Jay and Gary,

We were hoping to do at least an initial review of the documents NARA recovered from the Penn Biden Center. That's great! Let's start tomorrow, around 10am if that works for your team. We are mainly concerned with getting eyes on the documents, not scanning everything yet. We can pick back up next week depending on NARA's availability, likely starting next Tuesday, 11/29.

Thanks,

Hi. I will check, but I can't make any promises. There are only a couple of people with access, and if they are already out of town, etc., nobody else can access the pertinent storage area, etc. Whether it is tomorrow or another day, how many would be coming and is it just to review, or do you want to copy, etc.? This will help me determine what might be possible.

Thanks,

If they are bringing a camera, I think there is some paperwork that must be completed. I was not involved in previous access situations involving the Bureau and bringing in cameras into the SCIF so I do not know the protocol.

Ok, (b) (7)(E) . We will try to get the clearances passed ASAP. Who should we list as NARA's security POC?

(b) (6), (b) (7)(C) can you ensure your clearance gets passed to NARA?

We may have to push back our start time until the clearances go through, or at least avoid reviewing the classified information. We will have a camera to take photos of documents. We are not bringing in a scanner on this visit so things should go relatively quickly.

We are going to need to get security clearances passed in order to grant access to the small amount of classified information.

Thanks,

That's great! Let's start tomorrow, around 10am if that works for your team. We are mainly concerned with getting eyes on the documents, not scanning everything yet. We can pick back up next week depending on NARA's availability, likely starting next Tuesday, 11/29.

Hi. I will check, but I can't make any promises. There are only a couple of people with access, and if they are already out of town, etc., nobody else can access the pertinent storage area, etc. Whether it is tomorrow or another day, how many would be coming and is it just to review, or do you want to copy, etc.? This will help me determine what might be possible.

Thanks,

Rob,

We need to support a law enforcement investigation by allowing the FBI to have access to some recovered materials at A1. A very small portion of the materials are classified. The FBI intends to visit next Thursday. We will serve the records to them in the Classified Research Room at A1, following all of the normal rules, except they will need to bring and use cameras, etc. They have informed us that all of the hardware and media is cleared for use in a SCIF, but we wanted to alert you to this nonetheless and see if you wanted us to take any specific actions.

## REQUIREMENTS FOR USE OF EQUIPMENT AND MEDIA INSIDE SECURE AREAS OR RESEARCH ROOMS

If an exception to NARA 202 PED policy is sought to allow any equipment or media to be brought into a secure area or research room by individuals who will be given access to classified national security information, the following information must be provided in advance to Information Security (b) (7)(E) [@nara.gov](mailto:(b) (7)(E)@nara.gov) to approve the request:

- A memo from a SCIF accreditation authority certifying equipment/media is approved for use in SCI facilities. Upon verification, this is acceptable reciprocally; otherwise, without such memo, the following must be provided:
  - Name of individual(s) who will be using the equipment or media
  - Name of individual(s)' agency/agencies
  - Date(s) and hours (timeframe) equipment/media will be used (must be done when area is occupied by NARA staff)
  - Event or purpose for using the equipment/media
  - Location (which SCIF/TSF/Research Room) where equipment/media will be used
  - Make(s) and model(s) of equipment/media (any cameras must be "still cameras" with no video or streaming capabilities)
  - Description of any peripheral attachments to be used, if any

Please direct any questions to the NARA Security Management Division, Information Security office at (b) (7)(E) or (b) (7)(E), or to (b) (7)(E) [@nara.gov](mailto:(b) (7)(E)@nara.gov).

John, the printers and copiers are okay to bring in, but yes, as you said, they need to be cleared of memory before removing them.

There are specific requirements for cameras being used in a SCIF. I've attached the requirements, but basically this is the minimum info needed (send to (b) (7)(E)@nara.gov):

- Name of individual(s) taking pictures
- Date(s) cameras used
- Purpose for the cameras
- SCIF(s) where camera used
- Make and model of camera(s) - must be still camera with no video or streaming recording abilities
- Serial number of camera(s)

We received the visit certs in a classified email, which we could not upload into SCTS as we normally would, so we don't have a list of all the names. They were entered into SCTS individually, so (b) (6), (b) (7)(C) should be able to look them up as they report to Archives 1, but recommend contacting the person who sent the clearances and ask her for the full list of names: (b) (6), (b) (7)(C), (b) (7)(E)

When taking copies of the classified records out of the building, they need to be escorted to the exit by a NARA employee who has a courier badge. The NARA employee will show their courier badge to the security officer and accompany the agents to the door/garage.

Good luck with this visit,

We need your assistance/approval on several items related to a visit by Federal government officials to review certain classified and unclassified records housed at AI. While we have known they were coming, we were only informed this morning that they have some requirements on which they cannot compromise. Additionally, they have been told to accelerate the start of their work, which will very likely begin tomorrow.

First, they need to bring printers/copiers into the SCIF to copy a large amount of material. These copiers will be stand-alone and do not require any connection other than to an electrical outlet. Also, they need to bring digital cameras into the SCIF. (b) (6), (b) (7)(C), and company, is it permissible for them to bring this equipment in now as long as they agree that none of it can be removed from our SCIF until we are comfortable that any memory has been appropriately cleared?

(b) (6), (b) (7)(C) it is my understanding from your conversation with Gary that clearances were passed for the individuals who will be working in the SCIF. (b) (6), (b) (7)(C) has access to the database, but we do not yet know the names of every person on the team. As some portion of the group will be onsite tomorrow, can you provide the names of the individuals to (b) (6), (b) (7)(C).

(b) (6), (b) (7)(C) and company, these individuals will be carrying their service weapons. What are the procedures they will need to follow? They will also be taking copies of records out of the building each day. Is a holding steward badge enough if one of us escorts them out, or do we need to take additional steps? These are not boxes of matermail that the guards can go through.

(b) (6), (b) (7)(C) they want to bring a box truck everyday when they are on premises, and they have requested that we allow them to park it in our loading dock. They will be deliver equipment and supplies and will be taking copies of material back with them each day. They have also requested parking for one car. Please let me know as soon as you can if this will be possible.

Thanks in advance for your assistance. You can reach out to me or Gary if you have any questions.

Jay,

We have changed our plan slightly which allows an agent to travel as early as this week to Boston. Could the agent review the documents either Friday 12/2 or Monday 12/5? Also, can you please let me know what information you will need for him to access the space in Boston. Thanks again for the help

Good morning.

I am hosting classified researchers from the FBI/DOJ tomorrow and need to verify that they have passed their clearance. I attempted to log into the visitor access log but I keep receiving an error message. I'm not sure if it's an issue with the VPN or if the system is not accessible remotely. Would it be possible for someone to confirm that NARA has received the TS/SCI clearances for the following individuals:

Hi. I will check, but I can't make any promises. There are only a couple of people with access, and if they are already out of town, etc., nobody else can access the pertinent storage area, etc. Whether it is tomorrow or another day, how many would be coming and is it just to review, or do you want to copy, etc.? This will help me determine what might be possible.

Thanks,

Hi. We actually can support this, but we can't support a team on Friday. Would you still like to start tomorrow, or start on Monday?

Thanks,

Jay

Hi. I will check, but I can't make any promises. There are only a couple of people with access, and if they are already out of town, etc., nobody else can access the pertinent storage area, etc. Whether it is tomorrow or another day, how many would be coming and is it just to review, or do you want to copy, etc.? This will help me determine what might be possible.

Thanks,

Jay

Good afternoon Jay and Gary,

We were hoping to do at least an initial review of the documents NARA recovered from the Penn Biden Center. Would it be possible for three or four of us to view the documents at some point tomorrow, 11/23/2022? We understand that you may be short-staffed in light of the holiday, but if we could view the documents tomorrow we would appreciate it.

We will be driving there. Is there a place we may park our vehicle? Is there a loading dock as we will need to unload the printer?

Thank you!

If that day is preferable for everyone, (b) (6), (b) (7)(C) will be there that day and can escort, etc. We will need to coordinate with USSS. I think we will just need a name and title for now. Hi All,

I think we have a plan to address the boxes in Boston. FBI WFO will need to conduct an interview in Boston next week (exact date TBD). While in Boston, the Agents can review the materials in the 9 boxes. If they identify any

NARA-BBRR-000273

marked classified documents they can take possession and transport back to FBI WFO. Once in DC we will facilitate review by NARA who can determine if they are records that should be maintained by them. The remaining files in the boxes can then be transported by NARA from Boston to DC via their preferred method. This has the advantage of keeping the boxes in NARAs control if they are presidential records. As soon as we finalize the interview date I will let this group know so we can plan accordingly. Please let me know if this makes sense and if you have any questions. Also happy to discuss if that will be useful. Thank you for your patience while we figure out the details.

Good evening,

NARA OIG seeks your guidance on a sensitive matter involving classified records related to President Biden's time as Vice President.

NARA OIG was notified that on November 2nd, NARA's Office of General Counsel (NGC) received information from President Biden's White House Counsel concerning boxes of records and other items related to President Biden's tenure as Vice President dating to approximately 2013-2019. Specifically, NGC reported the following information to NARA OIG:

- Approximately 50 to 60 boxes of records were located in an office previously used by President Biden at the Penn Biden Center office in Washington, DC. It was reported that during a precursory inspection of those boxes, some records containing classified markings were identified.
- 3 boxes that were identified as containing these classified materials and other potential PRA records were retrieved by NARA on November 3rd. NARA completed a review of the documents in those boxes and identified 9 classified records totaling 44 pages (Confidential and TSCI classifications). These records are currently maintained in a NARA SCIF.
- 8 to 10 boxes of records were identified as containing personal effects and were retrieved by an attorney working with President Biden for additional review (not in NARA custody).
- 15 boxes contained materials related to Beau Biden's death (not in NARA custody).
- 10 boxes contained materials related to the DNC Campaign (from President Biden's previous campaign efforts - not in NARA custody).
- Approximately 30 additional boxes remain at the Penn Biden Center office in Washington, DC, awaiting further review. NARA anticipates retrieval of these boxes as early as Monday, and the exact contents of these boxes is not yet known. (b) (5)

Given the sensitive nature of this matter we seek guidance from DOJ and DNI, and would appreciate coming together to discuss further.

Please feel free to respond and let us know when would be a good time to schedule a meeting (preferably by Monday).

Thank you,

I just wanted to close the loop on this from our side. I understand that the FBI completed interviews related to this matter and that NARA continues to work through the entire inventory of records, and that at this time there do not appear to be immediate concerns. Given the information available to the OIG, we do not plan any further action. Please let me know if there is anything you need from NARA OIG.

Good evening,

NARA OIG seeks your guidance on a sensitive matter involving classified records related to President Biden's time as Vice President.

NARA OIG was notified that on November 2nd, NARA's Office of General Counsel (NGC) received information from President Biden's White House Counsel concerning boxes of records and other items related to President Biden's tenure as Vice President dating to approximately 2013-2019. Specifically, NGC reported the following information to NARA OIG:

- Approximately 50 to 60 boxes of records were located in an office previously used by President Biden at the Penn Biden Center office in Washington, DC. It was reported that during a precursory inspection of those boxes, some records containing classified markings were identified.
- 3 boxes that were identified as containing these classified materials and other potential PRA records were retrieved by NARA on November 3rd. NARA completed a review of the documents in those boxes and identified 9 classified records totaling 44 pages (Confidential and TSCI classifications). These records are currently maintained in a NARA SCIF.
- 8 to 10 boxes of records were identified as containing personal effects and were retrieved by an attorney working with President Biden for additional review (not in NARA custody).
- 15 boxes contained materials related to Beau Biden's death (not in NARA custody).
- 10 boxes contained materials related to the DNC Campaign (from President Biden's previous campaign efforts - not in NARA custody).
- Approximately 30 additional boxes remain at the Penn Biden Center office in Washington, DC, awaiting further review. NARA anticipates retrieval of these boxes as early as Monday, and the exact contents of these boxes is not yet known. (b) (5)

Given the sensitive nature of this matter we seek guidance from DOJ and DNI, and would appreciate coming together to discuss further.

Please feel free to respond and let us know when would be a good time to schedule a meeting (preferably by Monday).

Thank you,

(b) (6), (b) (7)(C)

Please let Gary and I know if you need anything as this develops and will likewise alert you if anything out of the ordinary arises.

The one question that remains unanswered is whether or not the materials in Boston can/should be moved to DC so that we can review for potential PRA materials. We would like to resolve that in the near future. In the meantime, we believe we have finished our review of the materials in DC with regard to PRA status and we are glad to share that with you to the extent it might be helpful.

Boston boxes are still at LP-JFK waiting for a green light to ship to DC. Once we get them here, we will need to assess re PRA. Key question is when can we return boxes we have determined are not PRA and that do not contain classified?

Hi (b) (6), (b) (7)(C),

Thank you for the update. I've removed Jay and added John Lausch to the thread, along with (b) (6), (b) (7)(C) and (b) (6), (b) (7)(C) from the Northern District of Illinois. I've also added Jay Bosanko and Gary Stern to the CC line.

We do not have anything further from NARA OIG at this time, but we do need to ensure that NARA maintains the boxes recovered from the Penn Biden center in their original condition, given that they are relevant to our ongoing investigation.

Thanks,

Good morning,

I just wanted to close the loop on this from our side. I understand that the FBI completed interviews related to this matter and that NARA continues to work through the entire inventory of records, and that at this time there do not appear to be immediate concerns. Given the information available to the OIG, we do not plan any further action. Please let me know if there is anything you need from NARA OIG.

Respectfully,

I just wanted to follow up on the below referral from NARA IG to let you know that DOJ and the FBI have begun taking steps in response to the information reported to us below and in follow-on conversations with NARA. **Subject:** [EXTERNAL] Sensitive NARA Matter

Good evening,

NARA OIG seeks your guidance on a sensitive matter involving classified records related to President Biden's time as Vice President.

NARA OIG was notified that on November 2nd, NARA's Office of General Counsel (NGC) received information from President Biden's White House Counsel concerning boxes of records and other items related to President Biden's tenure as Vice President dating to approximately 2013-2019. Specifically, NGC reported the following information to NARA OIG:

- Approximately 50 to 60 boxes of records were located in an office previously used by President Biden at the Penn Biden Center office in Washington, DC. It was reported that during a precursory inspection of those boxes, some records containing classified markings were identified.
- 3 boxes that were identified as containing these classified materials and other potential PRA records were retrieved by NARA on November 3rd. NARA completed a review of the documents in those boxes and identified 9 classified records totaling 44 pages (Confidential and TSCI

classifications). These records are currently maintained in a NARA SCIF.

- 8 to 10 boxes of records were identified as containing personal effects and were retrieved by an attorney working with President Biden for additional review (not in NARA custody).
- 15 boxes contained materials related to Beau Biden's death (not in NARA custody).
- 10 boxes contained materials related to the DNC Campaign (from President Biden's previous campaign efforts - not in NARA custody).
- Approximately 30 additional boxes remain at the Penn Biden Center office in Washington, DC, awaiting further review. NARA anticipates retrieval of these boxes as early as Monday, and the exact contents of these boxes is not yet known. (b) (5)

Given the sensitive nature of this matter we seek guidance from DOJ and DNI, and would appreciate coming together to discuss further.

Please feel free to respond and let us know when would be a good time to schedule a meeting (preferably by Monday).

Thank you,

(b) (6), (b) (7)(C)
