Jay,

I'm not sure quite what kind of people you're thinking of involving in the review, but there are quite a few NARA people who are deeply imbued with professional archival culture, for example through involvement in SAA, and might be helpful in bringing the overall archival perspective into it. This list is biased in favor of people I know and there may be lots more that I just happen not to know as well.

-(b) (6), (b) (5)

If I have any more thoughts or if you were hoping for something different, let me know.

Are you considering including any external people in the review process? (b) (5)
[Redacted] It would probably be possible to think of people from Library of Congress or Smithsonian who would already understand a lot about the Federal context and have experience related to exhibits. I'm sure there are also outside archivists and historians who could be included. (b) (6), (b) (5)

Jay,

Let me think about this for a bit and get back to you later today. Sorry I didn't catch this sooner.

Meg,

Things might change, but I am starting to put pen to paper on a review process. You will clearly have a role. The purpose of my note this morning is to ask you for names of internal people that you think would be good for me to consider.

Thanks,

Jay
