

# LaToya Coleman

Executive Director, Enterprise Security

LaToya is a seasoned professional with over 20 years of experience in Industrial Security, dedicated to protecting organizations from evolving threats. She holds a degree from Purdue University Global and currently serves as the Executive Director of Enterprise Security at ManTech International Corporation, where she oversees multiple operational functions and plays a key role in developing and implementing comprehensive security strategies to safeguard sensitive data, assets, and operations.

A Certified Agile Leader, LaToya excels in guiding cross-functional teams and collaborating with stakeholders to effectively identify, manage, and mitigate vulnerabilities and risks. She has a proven track record of establishing robust security policies and ensuring compliance with regulatory standards and industry best practices. Her leadership in managing complex security projects and driving continuous improvement initiatives has significantly enhanced her organization's security posture.

LaToya's commitment to staying ahead of emerging security trends and her passion for protecting the warfighter is evident through her active involvement with the National Industrial Security Program Policy Advisory Committee (NISPPAC) and in industry associations such as the Industrial Security Working Group (ISWG), NCMS, the National Defense Industrial Association (NDIA), and various other industry working groups. She is deeply invested in fostering a culture of security awareness and resilience, empowering teams to proactively address threats and safeguard critical assets.

LaToya's motivation stems from her dedication to the mission, her pursuit of continuous education, and her desire to collaborate with industry professionals, always seeking new ways to challenge herself and contribute to the field of industrial security.
