

Greg Sadler, CISSP, CISM
Senior Director, Security

GDIT

Greg Sadler has over 25 years of industrial security experience associated with managing and directing Government contracts. He is currently employed by General Dynamics Information Technology, a leading provider of information technologies and related services within agencies of the Department of Defense, the Intelligence Community, the U.S. Department of State, the U.S. Department of Homeland Security, the U.S. Department of Justice, and other agencies.

As a direct report to the Vice President of Security, Mr. Sadler provides security support to all GDIT Defense business entities worldwide, emphasizing integration of security with core business process. Mr. Sadler has been working for GDIT for over two years with previous engagements with PAE, USIS, TASC, Northrop Grumman, Sprint Nextel and Lockheed Martin.

As a Senior Director of Security, Mr. Sadler oversees security of the 10,000+ employees as well as company assets around the globe. He manages a security staff of over 50 and administers an annual budget in excess of \$6 million. Mr. Sadler is responsible for security programs that ensure the safeguarding of classified material and directs a team of professionals that support the security aspects of SCI, Special Access, and DOD security issues.

Mr. Sadler is experienced in all elements of industrial security under the cognizance of Intelligence Community and Department of Defense clients. His expertise includes a history of information systems, physical and personnel security operations as an industry partner. Mr. Sadler has served as a consultant to other companies in development of security programs, security information management, and incident management. Mr. Sadler is a Marine Corps veteran, former Co-Chairman of CAISSWG's DC Chapter, served on the Industrial Security Working Group (ISWG) Board of Directors, holds a BS in Business Administration from Strayer University and is completing an MBA through the Jack Welch Management Institute. He has maintained Certified Information Systems Security Professional (CISSP) and Certified Information Security Manager (CISM) certifications since 1999 and 2003 respectively.
