

5 ADDIE Process

ReMIS is in alignment with the ADDIE model, which represents phases typical of training development within organizations and includes the Analysis, Design, Development, Implementation, and Evaluation phases.

1

Analysis

What is the problem to solve, purpose of training, audience, tasks, steps, conditions, standards...

Design

what are we accomplishing, measurable goals, key & enabling objectives, instructional strategy, blueprint, methods...

3

Develop

identify methods and tools to develop training, create a storyboard, build training material and resources, review and edit with stakeholders, test...

4

Implement

schedule resources, conduct pilot training with material, modify for efficiency and effectiveness, observe...

5

Evaluate

solicit feedback from students, analyze effectiveness, improve...
