

3 July 1972

MEMORANDUM FOR THE RECORD

SUBJECT: Everette Howard Hunt, Jr.

1. On 30 June 1972, Mr. Arnold L. Parham, Federal Bureau of Investigation, inquired of the Acting Deputy Director of Security (PS), Mr. Leo Dunn, as to documents issued by the Agency to Everette Howard Hunt, Jr., in the alias Edward Joseph Hamilton or any other alias. He mentioned specifically, a Florida Drivers License; Massachusetts Auto Registration Form; Social Security Card, and Insurance Policy. 24

2. I telephoned Ed Duffy, TSD Security Officer, but he wasn't in. I ended up talking with Wesley M. Parcels, x2531, who checked TSD files on documentation issued in the alias "Hamilton." This is the only way the name is now listed on TSD's records. They have no first name or middle initial. Their records simply reflect that on two occasions sometime between 1957 and 1964, alias documentation was issued to someone in the name of "Hamilton." The requests are numbered 1005 and 2134 on the TSD Control Card. They do not cross-reference alias names to true names, and could not say whether or not Subject was issued any other alias.

24 3. Office of Security records show that Subject was to have been issued, among the other items, a Massachusetts Drivers License with a Providence, Rhode Island, address. Mr. Parcels said it is possible that this was issued, and also possible that he would have been issued a Social Security Card and insurance policy. None of these would have been backstopped. Mr. Parcels said it would have been difficult or impossible to renew the Massachusetts Drivers License because one would have to show up for a test. (It has been the writer's experience that this was not necessarily true in past years.) The Massachusetts Drivers License would have expired in two years. The Social Security Card, while fake, would be "valid" indefinitely. The insurance policy would presumably expire at whatever date it bore. 10 24

71BR

4. I telephoned Mr. Lawrence Sternfield, Chief, WH/COG, asking him for information in WH Division files as to what documentation Subject might ever have been issued. Mr. Sternfield said that WH Division files would not reflect information relating to any of Subject's aliases.

5. I next spoke to Mr. Willard Burke, Central Cover Staff x5122, who advised that a Massachusetts Drivers License and a Massachusetts Auto Registration Form are two different items. He checked his records on Subject, and found, after pulling them from Retired Files, that there was nothing relative to Cover documentation there. I then checked the file myself, just to be sure. He is correct; there is nothing usable in the file as regards Cover documents or cover documentation of any kind, with the exception of references to Subject's State Department status on various overseas tours and trips.
