1. USA - See Minutes of 21 June 1965

Mr. Brady stated that the disparate views on Cuba had not yet been reported to higher authority.

4. CFEA - Proposed Reactivation of Support to Artimo for Further (Legal) Activities

a. Considerable discussion on the pros and cons of dealing with Artimo took place. It was pointed out that the item of providing pay for pensions to dependents of killed or captured MRR members was actually a separate obligation. There were no objections to the budget amounts for publications and broadcasting but the allotment of travel stuck in the craw of most of the principals. Mr. Fitzgerald explained that the maintenance of MRR offices did serve a useful purpose.

b. Ambassador Thompson said that the Department preferred a controlled operation rather than a hand-out program.

c. Questions as to whether Artimo carried a Made-in-USA label were answered affirmatively; in fact, it was pointed out that with such a label, his influence among many Cubans was enhanced since this made him appear to be a potential chosen instrument.

d. A compromise was reached in that all travel funds would be eliminated, reducing the budget by \$29,000. Thus, the sum approved was \$134,000, of which \$60,000 was for the indispensable pension program.

MEMORANDUM FOR THE RECORD

SUBJECT: Activities of AMBIDDY-1, 1-10 July 1968

1. I talked to AMBIDDY-1 by telephone on 2, 8 and 10 July with the gist of the conversations outlined below:

a. AMBIDDY-1 had two long conversations with Bishop McGrath of Panama on 30 June and 2 July. They discussed the center for studies of rural cooperatives at San Francisco village in Veraguas Province, Panama, that is being developed under the Bishop's auspices with support from Harvard University and which has two men there at present. Prof. George Lodge is the Harvard representative and has been visiting the center. A-1 received a letter from Prof. Lodge asking for assignment of an experienced man to the staff of the center. Bishop McGrath repeated the request, saying he would like to have two men as soon as possible, with a total of six by January when he plans to increase the program. The two men selected were Silvano FOSO Carrillo (301-739773) and Nestor LEQUIERDO Diaz (301-281933) both negroes from Oriente Province and former Comandos Rurales. A-1 asked the Bishop what part the Panama Government played and was told they approved, although they were not directly involved. A-1 understands that the center will train students from all over Latin America and has already graduated more than twenty students from several countries.

b. The five man security force left by A-1 at Monkey Point, Nicaragua, in addition to guarding a weapons cache, continues to teach the local Indians in reading, writing, basic operation and maintenance of machinery, and rice planting.

c. The community development/civic action training program for MRE members which A-1 has been running in the evenings in Miami is about half finished. He has about twenty men attending regularly after work with several others attending whenever they can get away from their jobs. The

SECRET

SECRET

-2-

class is now studying organization of rural cooperatives. Silvano POZO is chief instructor for this phase and will be sent to Panama as soon as the classes in Miami are completed.

d. A-1 has bought a small farm (22 acres) near West Palm Beach to develop as a model farm for his training program. He is installing generators, water pumps, and starting to raise chickens, etc. He hopes eventually to bring a few students at a time from Latin America as his program progresses to show them what can be done with small plots if proper farming techniques are used.

e. A-1 received another message from Bolivia saying in effect that the situation was still about the same and again asking if he were able to visit there. He stalled them again (at our request) and agreed to be out of town or otherwise scheduled until the matter dies a natural death.

2. The West German Government has issued scholarships paying all tuition plus \$100 per month subsistence in German universities to three of A-1's people who have been living in Spain. They will go to Germany in August to study the language for six months then begin their studies. They are Angel LAVANDERA, economics; Carlos MAYO, engineering; and Luis CAVADA, engineering. This is follow-up to the meeting A-1 had in Rome with the German Ambassador that was arranged for him by the Vatican Secretary of State last December.

3. A-1 is leaving 13 or 14 July for about 10 to 15 days visiting Central America. He will go to Nicaragua first to talk with President Schick and General Somoza, then to Monkey Point to check on the condition of the base, security of the arms he has cached there, and to observe the civic action training his men there are conducting for the local Indians. He will then go to Costa Rica to talk with President Orlich and Foreign Minister Oduber who have sent word they would like to meet with him as soon as convenient for him. From there he will go to Panama to see President Marcos Robles, who has been expecting him for several weeks. A-1 will describe the project he is about to enter with Bishop McGrath and Professor Lodge and confirm President Robles' attitude toward it. A-1 will also visit Veraguas Province and look over the training center.

4. I also informed A-1 that his proposal to maintain U. S. support for the MRR to pay for support to dependents and

survivors of MRR people, for delegates, the Tridents, and radio broadcasting had been approved for \$12,000 monthly. He was gratified to receive continued support for the movement. I told him we would try to get the July payment into the bank through the old ANWORLD funding mechanism pending development of a new funding system.

DECLASSIFIED

3 June 1965

MEMORANDUM FOR: The 303 Committee

SUBJECT : Proposed Reactivation of Support to Manuel Artimo's Autonomous Paramilitary Group

1. This paper requests approval for CIA's recommendation as outlined in paragraph 7 below.

2. As of 1 May 1965, CIA terminated its support of Manuel Artimo's paramilitary activities. CIA is now proposing that support to Artimo and his movement be resumed on a smaller scale and for a totally distinct, psychological warfare purpose.

3. Artimo's cooperation with CIA in the liquidation of his paramilitary organization was exemplary, indicating his recognition that his long range interests are best served by cooperation with the United States Government even though, as has sometimes happened, our objectives and those of his movement may conflict in the short run. His cooperative attitude as exemplified in this case points up the potential long range usefulness to our government of him and his organization, the Movimiento de Recuperacion Revolucionaria (MRR), both now and in the post-Castro period.

4. Several factors are important in assaying Artimo's usefulness. Of particular significance at present is the prestige which Artimo continues to enjoy, both among his own co-participants and among a number of Latin American leaders. This prestige is due to several factors. Not the least of these of course is that, thanks to the covert support given by CIA, the paramilitary activity of his movement, even

DECLASSIFIED
SECRET

GROUP 1

DOWNGRADING AND

though inadequate, was nonetheless the most aggressive and large scale effort conducted by any exile organization. Of even more long range importance, perhaps, is the fact that Artime and the MRR have represented since 1958 an effort at democratic, Catholic-oriented reform within Cuba--one which originally allied itself with Castro as long as he appeared anti-communist, but broke with him as soon as his communist connections became evident. Artime himself was an important leader in the field of agricultural reform in the early days of the Castro regime, when he was de facto chief of the agricultural reform program in Oriente Province. Here he invented the system of "rural commandos", i.e., groups of students who worked in the rural areas with the less privileged youth, teaching reading and writing, public health and sanitation, organization of cooperatives, improved agricultural methods, and similar subjects. (Information on his efforts does not, by the way, stem only from Artime; a large number of members of his movement were debriefed by CIA in 1960 when they left Cuba. Many of them were later trained as part of Brigade 2506 and fought in the Bay of Pigs landing.) Thus, Artime has more of a claim to a reputation as a practical and idealistic reformer than do many of his fellow exiles. Finally, it should be noted that he is a natural leader. He is able to instill enthusiasm for his ideas in others, and has shown considerable ability to hold his followers together under adverse circumstances. Although deficient as an

EYES ONLY
SECRET

organizer, he has the virtue of being willing to delegate authority to those more competent in this respect than he.

5. Because Artime is a born politician and propagandist who can be useful now, and because he has potential as a leader in post-Castro Cuba, CIA proposes to continue supporting him to the extent necessary to preserve the MRR. This organization, which has representatives in half a dozen Latin American countries as well as in the United States and Spain, claims approximately 5000 members and sympathizers. It makes radio broadcasts to Cuba from the Miami area and publishes a well-conceived monthly magazine, Tridente, with circulation of about 6000. Finally, it supports a number of dependents and families of killed and captured MRR members. Total CIA expenditures under the proposed program would be about \$15,000 monthly, broken down as follows:

| | |
|---|--------------|
| Support of MRR offices in U.S., Spain, Honduras, Guatemala, Colombia, Costa Rica, Venezuela . . . | \$ 3,200 |
| Publication of <u>Tridente</u> | 3,000 |
| Radio broadcasts to Cuba | 1,800 |
| Artime's travel in Central and South America . . | 2,000 |
| Support of dependents of killed and captured MRR members | 5,000 |
| | <u>5,000</u> |
| TOTAL | \$15,000 |

6. If the above basic elements of his movement receive covert U.S. support, Artime intends to turn his own main effort to the development of the rural commando concept in certain particularly underdeveloped areas of Latin America.

EYES ONLY

To this end, he has had discussions with the presidents of Colombia, Panama, Costa Rica, Guatemala, and Nicaragua, all of whom he claims have evinced varying degrees of interest. Most recently, he has received an invitation to visit President Barrientos of Bolivia, an invitation stimulated by one of Barrientos' representatives in the U.S. having heard an MRR broadcast about countering subversion through civic action. Artime plans to accept this invitation, going to Bolivia after a visit with President Robles of Panama. CIA does not at this time have any plans to support Artime's civic action efforts, preferring to leave them to the initiative of Artime and the countries supposedly interested. It is conceivable, however, that if these efforts appear to catch on by themselves, there might be some virtue in covertly supporting them later.

7. It is recommended that CIA be authorized to support Artime and the MRR along the lines indicated in paragraph 5 above.

**SUBJECT: Proposed Reactivation of Support to Manuel Artime's
Autonomous Paramilitary Group**

The organization headed by Manuel Artime, the Movimiento de Recuperación Revolucionaria (MRR) is regarded by CIA to have an important potential long range value. For a number of years CIA has maintained a close clandestine relationship with this group. The main activities of the Artime group have been harassment, sabotage, and psychological warfare. Artime's importance, from CIA's viewpoint, was not so much in conducting high "noise value" hazardous hit-and-run actions, but in his survival as a continuing psychological threat to the Castro regime.

The 303 Committee has not shared CIA's enthusiasm for Artime. A year ago (18 June 1964) Mr. Alexis Johnson, then a member of the Committee, stated that the Artime raids could conceivably provoke Castro into using SAM sites and emphasized that this possibility should not be discounted. In November 1964 the 303 Committee authorized CIA to support Artime for a period of from 60 to 90 days in order to enable him to develop his relationships with an internal dissident group, but to discourage him from continuing his raids on the Cuban coast. These were only "pin pricks" the 303 Committee believed and of little value.

The difficulties involved in trying to control Artime and his group led to the final decision by the 303 Committee on 7 January 1965 that a subsidy to Artime be paid through the month of February and possibly for two or three months thereafter. Artime was to be encouraged to concentrate on development of internal operations and curtail his "grandstand operations." By 1 May, however, CIA terminated its support of Artime's paramilitary activities by direction of the 303 Committee although covert relationship with him has continued.

The paper on the opposite page encourages the 303 Committee to approve once more CIA's desire, for very valid operational reasons as mentioned in paragraph 5, to reactivate Artime and preserve the MRR.

Querido Jim:

Pase a informarte lo siguientes:

1-Segun informes recibidos de Guillermo Vargas, en San Jose ,Costa Rica, el cual tiene amigos infiltrados en el grupo comunista de Marcial Aguiluz. Desde hace aproximadamente 5 meses ,en la finca que por Rio Claro (Costa Rica)(Sur), tiene Marcial Aguiluz, se estan entrenando nicaraguenses y costarricenses. Este entrenamiento se hace en pequenos grupos (de 5 a 10), para que si el Gobierno Costarricense hace una inspeccion de sorpresa, los hombres se puedan internar y esconder en la jungla del lugar. Ellos piensan que Somoza esta esperando una infiltracion de guerrillas de Cuba por el Atlantico y esperan sorprender al Gobierno nicaraguense , infiltrando este grupo por el Pacifico en Nicaragua. Una vez que el Gobierno nicaraguense moviliza las tropas hacia el Pacifico; Fidel mandara otro grupo por el Atlantico.

Ellos esperan hacer esto antes de las elecciones. Esperan que hombres que ya estan en Nicaragua les preparen la llegada creando el caos con sabotajes y terrorismo.

Han metido incendiarios y equipos de sabotaje en Nicaragua y parece que tienen un gran cargamento de armas en LEON (Nicaragua).

2-Segun informes de Alejandro Montero, costarricense casado con una cubana: En los apartamentos "DONINELLY" San Jose ,Costa Rica, donde vive Alejandro Montero, vive un tal Luis Campos, que se reune semanalmente en su apartamento (creo que es el # 8 de "Doninelly"), con los lideres comunistas Manuel Mora, Dr. Durstin, Dr. Morera, un tal Cerdas y Rafael Castillo. El ha oido hablar (Alejandro Montero) de ciertos planes para Nicaragua, para los cuales Marcial Aguiluz fue a consultar a Cuba. Esperaban la llegada de Marcial, oye se suponía traeria el nombre del individuo que habia de llegar de Cuba despues que Marcial regresara, para hacer cargo del asunto Nicaraguense. Ellos exponian (los reunidos) que el hombre podia ser Max Santo Pastor, que actualmente esta en Cuba (costarricense). Montero oyo hablar de una entrevista que tuvieron Mora Valverde, Marcial Aguiluz y Aguerro (candidato opositor nicaraguense a la Presidencia en las proximas elecciones), la ultima vez que Aguerro estuvo en Costa Rica.

Alejandro Montero opina que Agüero, si no está en la conspiración, por lo menos está enterado de todo.

3-Buscando informes de los individuos que se reunían en los apartamentos Donnelly, investigue a Rafael Castillo, alias "CHITO". Es comunista que ha estado en Rusia y en Cuba. Obtiene dinero sacando familiares de Cuba de cubanos exilados. Amigo personal de Fidel Castro. Es hermano de uno de los "hombres de confianza" de Daniel Oduber (el hermano es el dueño del Night club "Caracas"). Este hermano estuvo siempre junto a Daniel en la campaña presidencial pasada.

Rafael Castillo piensa ir a Cuba pronto. (creo que salía el 17 de Enero)

Rafael Castillo tiene en su casa, que es al mismo tiempo taller, situado 100 varas al norte y 75 al este de la Sucursal del Banco de Costa Rica, en San José, un equipo de:

3 metralletas "Maxim"

3 metralletas M-3

5 carabinas M-1

10 rifles M-1 (garand)

1 fusil con mirilla telescópica

Este señor, Mario Castillo, tiene el teléfono 252296, y tiene un pick up, placa C-7981.

Todos estos informes me fueron dados por nuestros agentes cubanos: Mario Moya y Sergio Cabrera que viven en San José, Costa Rica.

4- Como fui como comisionista de la casa "Scopitone Inc." de Chicago, tuve dos entrevistas comerciales con Frank Marshall, en la última me dijo que quería hablar conmigo a solas (en las dos habían estado presentes los otros representantes de la casa Scopitone). Lo cite para el Hotel "Costa Rica" donde Scopitone tenía una suite.

Allí hablé con él a solas el día 12 de Diciembre a las 12 del día, en el cuarto 204 del hotel. Me dijo que quería comprarme armas, que sabía que yo tenía.

Yo le dije que las que yo tenía en Nicaragua las había entregado al Gobierno (es falso), y que solo me quedaban algunas en otros lugares de Centro-América. Pero que yo tenía que saber en qué causa iban a ser utilizadas esas armas, ya que yo tenía el deber moral de velar porque el Comunismo no las utilizara. Que yo no era un "mercedero de armas", sino un revolucionario.

(Todo esto lo hablaba tratando de sacarle informacion, porque por supuesto, esas armas mis son solo para Cuba y contra Castro).

Me dijo que las necesitaba para el mismo, ya que esperaba de un momento a otro un estallido revolucionario en Costa Rica y que no queria que su "arsenal privado" fuera mas pequeno que el que tenian los Calderon Guardia, los Pepe Figueres, los Oduber y los Comunistas (segun el, cada uno de los grupos antes citados tiene su arsenal privado).

Les dije que para cuando necesitaba esas armas y me respondio: YA.

Le dije que yo tendria que pensarlo unas 3 semanas y entonces le daria la respuesta: el me respondio, despues de pensar un rato, bueno, hasta un mes puedo esperar por la respuesta, pero no mas.

Mi opinion es que el esta en un complot para derrocar al Gobierno.

La situacion en Costa Rica es muy mala, pues el infeliz presidente no tiene un grupo politico definido que lo respalde, esta en las manos de los diversos grupos que lo apoyaron: Calderon Guardia, Ulate, Echandi, Frank Marshall, etc. Personas que cada una tiene un grupo que responde a los intereses sectaristas y no a Costa Rica, y por supuesto, menos al Presidente.

Liberacion Nacional espera el "Golpe de Estado para dar ellos un contra-golpe y quedarse con el poder.

5- El dia 7 de Diciembre, a las 4 de la tarde, me entreviste con Daniel Oduber en su oficina de abogado. (a unas 3 cuadras del hotel Costa Rica).

Me hablo muy mal de Don Pepe Figueres y del "Chico Orlich", me dijo que querian eliminar su aspiracion presidencial para la proxima campana y postular de nuevo a Don Pepe. Me dijo que ellos (Don Pepe y Orlich) eran los Jhonson de Costa Rica, y que el era el Kennedy.

La suerte que tengo, me dijo es que son torpes, no se dan cuenta de que se esta engendrando un Golpe de Esta y no estan preparados para esa contingencia. Yo si lo estoy, me dijo.

Volvio a decirme que ya tenia un "airfield" suficiente para un C-46 en su finca, cerca de la frontera con Nicaragua, por el lado del Pacifico, y que en un momento determinado, el podia recibir armas por ese lugar. Me volvio a pedir colaboracion en el caso de una revuelta en Costa Rica y me pidio concretamente, que en ese momento lo ayudara con tecnicos y con armas.

6- Con respecto al Dr. Alvarez Tormos Ha seguido en contacto con la gente de la Embajada cubana en Mejico. Esta muy apurado pues esta gente le pide informes y el no sabe que decir, pues el contacto de la Compania que hablo con el en Mejico, hablo una sola vez y no ha vuelto a hablar con el. El no puede localizarlo, pues no le dejaron las senales necesarias. La gente de la Embajada cubana en Mejico le pago el viaje para que el viniera al homenaje que en el Centro Vasco le dieron a los profesores de la Facultad de Medicina de la Habana (el Dr. Alvarez Tormo fue profesor). El Dr. Alvarez Tormo fue uno de los oradores del acto. Esto sucedio los dias 3 y 4 de Diciembre en Miami.

El Dr. Alvarez Tormo les dio un informe detallado de todo lo que se hablo en el acto (por indicacion de Don Manuel Guillot.).

Ya le trajeron de Cuba al Dr. Alvarez Tormo fotografias y cartas de sus familiares (la gente de la Embajada Cubana en Mejico).

El Dr. Alvarez Tormo opina que todos los exilados cubanos que tengan familiares presos deben de ser chequeados con cuidados, pues la gente de la Embajada Cubana en Mejico tiene una red magnifica de estos tipos de agentes que por chantaje estan dando informes. Suplico que se atienda al Dr. Alvarez Tormo como merece, pues se esta jugando la vida de su hermano preso. Creo que su labor puede ser muy util.

Para comunicarme con el Dr. Alvarez Tormo, hemos establecido un codigo nuevo:

La base del codigo es el pequeno libro "MI PRIMER DICCIONARIO ESCOLAR" de Jose Ardanuy Olegue, del Editorial Vasco-Americana, en Bilbao, Espana. La clave es la siguiente:

Primer numero es la pagina del libro

Despues de este primer numero se pone un signo de quebrado.

Segundo numero es el numero del renglon donde esta la palabra que se quiere decir.

Solo se usaran las palabras del diccionario que esten en mayuscula, es decir, la primera de cada renglon, la palabra cuya definicion se pone despues en letra pequena.

Las palabras en la clave, estaran separadas por un guion (-)

Si no consiguen el libro, yo se los puede adquirir.

7- Hace poco llego a Miami de paso el seoz Zulueta, que reside en Espana.

(5)

Este señor, hablando con Antonio Sanz, le dijo que se traía un recado de alguien que estaba en España.

Le dijo que el señor Domingo Aizpurua, que reside en San Sebastián, es íntimo amigo de un español comunista que está en Cuba, en el Estado Mayor de Lister, en Oriente.

Que este comunista vasco, todos los años va a Francia, al pueblo de Hendaya, cerca de la frontera, y desde ahí llama a Domingo Aizpurua, y Domingo se reúne con él en Francia. (El comunista no puede entrar a España, por eso Domingo va a Hendaya, que está cerca de la frontera con España, pero en Francia. Hendaya está cerca de San Sebastián.

En la última reunión que tuvieron, este comunista le dijo a Domingo, que él estaba cansado del comunismo y que si pudiera "LIMPIARSE" con el OCCIDENTE, él se iba de las filas del comunismo. Domingo, que no es comunista, le dijo que la única forma de "LIMPIARSE" con Occidente era sirviendo un tiempo en las filas del comunismo para Occidente. Me envió entonces este recado con Zulueta.

Ya mande a averiguar el nombre y ubicación exacta del comunista, pues puede ser muy útil en Cuba, junto a Lister, para nosotros.

Sin más por el momento, se despide de ti tu amigo

Ignacio

Dear Jim:

I am informing you of the following:
XXXXXXXXXXXXXXXXXXXXXXXXXXXX

1. Parties Discard
2 - Field sent up similar report based on conversation with Source.

1. According to information received from Guillermo Vargas, in San Jose, Costa Rica, who has friends who have infiltrated the Communist group of Marcial Aguiluz, the following is reported: It has been approximately five months that Nicaraguans and Costa Ricans have been trained in the farm that Marcial Aguiluz owns by Rio Claro (in ~~XXXXXXXXXX~~ the south of Costa Rica). This training is given in small groups of 5 - 10, in order to be able to hide and go into the interior of the jungle that is there in case the government of Costa Rica makes a surprise inspection. They (Communists) think that Somoza is expecting an infiltration of guerrillas from Cuba through the Atlantic and they plan to surprise the Nicaraguan government by infiltrating this group through the Pacific in Nicaragua. Then as soon as the Government of Nicaragua mobilizes ~~the~~ troops towards the Pacific; Fidel will send another group through the Atlantic. They hope to do this before the elections. They hope that men who are already in Nicaragua will prepare their arrival by creating chaos, sabotaging, and terrorism. They have brought incendiaries and equipment for sabotage into Nicaragua and it appears that they have a great cargo of arms in LEON (Nicaragua).

2. According to information from Alejandro Montero, a Costa Rican who is married to a Cuban, the following is reported: In the "DONINELLY" apartments in San Jose, Costa Rica, where Alejandro Montero lives, there also lives one Luis Campos who reunites weekly in his apartment (I think it is #8 in "DONINELLY") with the ~~XXXXXXXXXX~~ Communist leaders: Manuel Mora, Dr. Durstin, Dr. Morera, and one Cerdas ^{and} Rafael Castillo. Alejandro Montero has heard talk about

File: ANNODY-A

certain plans in store for Nicaragua, plans for which Marcial Aguiluz went to consult about in Cuba. They ~~(Communists)~~ ^{at the meeting} were waiting for the arrival of Marcial, whom they supposed would bring the name of the individual who was supposed to arrive from Cuba, after Marcial had returned, to take charge of the Nicaraguan business. They ~~XXXXXXXX~~ (the Communists at the meeting) assumed that the man who would take charge could be Max Santos Pastor, a Costa Rican, who is now in Cuba. Montero also heard them speaking about an interview that Mora Valverde, Marcial Aguiluz and Aguero (an obstructionist Nicaraguan candidate in the coming presidential elections) had, the last time that Aguero was in Costa Rica. It is Alejandro Monteros' opinion that if Aguero is not in on the conspiracy then he is at least he is informed about all of it.

3. Upon looking for information about the individuals who meet in the apartments Donnelly, I investigated Rafael Castillo, alias "CHITO." He is a Communist who has been in Russia and Cuba. He gets money by taking the relatives of exiled Cubans out of Cuba. He is a personal friend of Fidel Castro. He is a brother of "one of the men who is a confident friend" of Daniel Oduber ~~XXXXXXXXXXXX~~ (his, Rafael Castillos', brother is owner of the Night Club "Caracas"). This (Rafael Castillos') brother always stood by Daniel in the past presidential campaign.

Rafael Castillo plans to go to Cuba soon. (I think he was scheduled to leave the 17th of January).

Rafael Castillo has in his house, which is at the same time an office, and is situated 100 varas (280 ft.) to the north and 75 varas (218.4 ft) to the east of the branch of the Banco de Costa Rica in San Jose, an

accountment of: 3 grapeshot "maxim"
3 M-3 grapeshot
5 M-1 Carbines
10 M-1 (garand) rifles
1 rifle with a telescopic target hole

This man, Mario Castillo, has a telephone number 252296, and ~~XXXXXX~~ he has a pick up, license plate C-7981. All this information was given to me by our Cuban agents: Mario Moya and Sergio Cabrera who live in San Jose, Costa Rica.

4. As I was almost like a commission~~EE~~ agent for the "Scopitone, Inc." of Chicago, I had two ~~XXXXXXXXXX~~ commercial interviews with Frank Marshall, at the last interview he told me he wanted to speak alone with me (at both meetings there had been present two representatives from the Scopitone co.). I made an appointment with him at the Hotel "Costa Rica" ~~XXXXXX~~ where Scopitons had a suite.

There I spoke alone with him on 12 December at 12:00 in the afternoon, in hotel room #204.

He told me that he wanted to buy arms from me, that he knew I had. I told him that the ones I had had in Nicaragua I had turned in to the government (that is false), and that there were only some left in other places in Central America. I told him I had to know for what cause these arms were going to be utilized, I also told him that I had the moral obligation to ~~XXXX~~ be vigilant and see that the Communists would not utilize them. I told him that I was not a vendor of arms, but a revolutionary. (I talked to him about this trying to get information out of him, because these arms of mine are only for Cuba and against Castro.)

He told me that he needed them for himself, that he expected a revolutionary outburst from one moment to the next in Costa Rica and that he didn't want his "private arsenal" to be smaller than the ones that Calderon Guardia,^{not} Pepe Figueres,^{not} Oduber,^{not} and the Communists had (according to him each of the aforementioned groups had their own arsenals).

I asked him when he needed these arms and he answered: NOW.

I told him I would have to take three weeks to think about and then I would give him an answer: he answered after thinking for a while: okay, I can give you one month to give me an answer but no more.

My opinion is that he is in a plot to overthrow the government.

The situation in Costa Rica is very bad, for the unhappy president does not have a definite political group to support him, and therefore he is in the hands of the diverse groups to advocated him: Calderon Guardia, Ulate, Echandi, Frank Marshall, etc. these are persons who each have a group who respond to their own sectarian interests and not to Costa Rica, and who respond much less to the President.

Liberacion Nacional ~~XXXXXXXXXXXXXXXXXXXXXXXXXXXX~~ is expecting "an ^{a coup d'etat} ~~attack from the state~~ in order for them to give a counter-attack and stay in power."

5. On 7 December at 4:00 p.m. I had an interview with ~~XXXXXXXX~~ Daniel Oduber ~~XXXXXXXX~~ (lawyer) in his office. (about three blocks from the Hotel Costa Rica).

He ~~XX~~ spoke badly to me about Don Pepe Figueres and "Chico Orlich", he told that they wanted to eliminate his presidential aspirations for the coming campaign and postulate Don Pepe again. He said that they (Don Pepe and Orlich) were the Johnsons of Costa Rica and he was the Kennedy.

I'm lucky, he said, that they are stupid and that they are not aware of the fact that an attack is being created and they are not prepared for that emergency. I am prepared, he told me. Then he told me that he had an airfield big enough for a C-46 on his farm, close to the border with Nicaragua, ~~NYXXXXXXXXXX~~ on the Pacific side, and that at the determined moment he could receive arms at that place. He again asked for my collaboration in the case of a revolt in Costa Rica and he concretely asked me that if at the time of a revolt I would help with technicians and arms.

6. About Dr. Alvarez Tormo: He has stayed in contact with the people of the Cuban Embassy in Mexico. He is very worried because these people ask for information and he does not know what to say for the contact from the Company that spoke with him in Mexico, spoke with him just one time and he has not returned to speak with him again. He cannot find him because they did not leave him the necessary signals. The people from the Cuban Embassy in Mexico paid for his trip to the homage which was at the Basque Center that they gave the professors of the medical faculty of Havana (Dr. Alvarez Tormo was a professor). Dr. Alvarez Tormo was one of the speakers. This took place the 3rd and 4th of December in Miami.

Dr. Alvarez Tormo gave them detailed information on everything that was said at the function (by suggestion of Don Manuel Guillot). They have brought Dr. Alvarez Tormo from Cuba, photographs and letters from his relatives. (They were brought by the people from the Cuban Embassy in Mexico).

Dr. Alvarez Tormo suggests that all the Cuban exiles who have relatives living in prison in Cuba should be checked very cautiously because the people in the Cuban Embassy in Mexico have a magnificent network

of these types of agents who, because of blackmail, are giving information. I ask you that you treat Dr. Alvarez Tormo justly because he is playing with his brothers life. I think that his work can be very useful.

In order to communicate with Dr. Alvarez Tormo we ~~MMX~~ have established a new code:

The base of the code is in the small book: "MI PRIMER DICCIONARIO ESCOLAR" written by Jose Ardanuy Olague, from the publisher Vasco-Americana, in Bilbao, Spain. The key is the following:
the first number is the page of the book.

After this first number is placed a broken sign.

The second number is the number of the line where the word that you want to say is.

Only words in the dictionary that are Capitalized are used, that is to say the first word in each line, the ~~MMX~~ word whose definition is put after the small letter.

The words in the key are separated by a dash (-).

If you do not obtain the book I will obtain it for you.

7. A short time ago Mr. Zulueta , who resides in Spain, arrived in Miami for a short stay. This man, who spoke with Antonio Sanz, told him that he had brought me a message from someone who was in Spain. He told him that Mr. Domingo Aizpurua, who resides in San Sebastian, is a very close friend of a Communist Spaniard who is in Cuba, in the state of Lister, in Oriente Province. He told him that this Basque Communist every year goes to France to the town of Hendeya, that is close to the Spanish border, and from there he calls Domingo Aizpurua, and Domingo meets with him in France. (the Communist cannot enter Spain that's why Domingo goes to Hendeya a town which is close to the border with Spain, but in France.) Hendeya is close to

San Sebastian.

At the last meeting ~~XXXX~~ that they had, this Communist told Domingo that he was tired of Communism and that if he could cleanse himself with the west he would leave the ranks of Communism. Domingo, who is not a Communist, told him that the only way of cleansing himself with the West was to serve for a while in the ranks of Communism for the west. He then sent me this message with Zulueta.

I have already started to investigate the name and exact place of residence of the Communist, for he can be of great help in Cuba, being close to Lister, for us.

With nothing else for the moment, I, YOUR friend, bid you goodbye

Ignacio

Bay City
Castro Arsonists
 OCT 2 1966
In Indiantown Fire

By ED GLUCKLER

(STUART BUREAU CHIEF)

A fire which destroyed three buildings of an Indiantown chicken ranch, may have been set by Castro partisans as charged here Sunday by Manuel Artime, about 40, of Miami.

Artime is believed to have been one of the leaders of the anti-Castro forces defeated in the April 17, 1961, Bay of Pigs invasion.

Sheriff Roy C. Baker of Martin County said this morning that State Deputy Fire Marshal H. A. Geiger of West Palm Beach would be called to investigate a blaze that Deputy Sheriff Frank Prevatt said "positively was set," a claim made also by Artime.

A \$7,500 loss was estimated when a trailer, attached frame building and part of a chicken house on the ranch went up in flames on SR 710 about 12 miles northwest of Indiantown early Sunday.

LOST in the blaze, were nine small motors and an unspecified number of chickens.

Artime, whose address was given as 1770 N. E. 85th St., Miami, reported the fire which was discovered by Artime and two other men, Jose A. Gonzales and Eugenio Claude, both also of Miami.

Artime told Prevatt the men arrived at the scene to find the trailer burned, the attached building destroyed and the chicken house ablaze.

The chicken ranch is located on Sunrise Groves; Artime owned the trailer, the frame building attached to the trailer was owned by Gonzales, and chicken coop was owned by St. Francis Inc., which has the same address as Artime in Miami.

PREVATT SAID Artime and Gonzales, both of whom spoke fluent English, told him that they visited the ranch about every three days to collect and refrigerate the eggs produced by some 400 hens.

"Artime told me he felt sure Castro agents were responsible

MANUEL ARTIME

who said he had not recognized the anti-Castro leader.

A large pile of logs beside one of the buildings apparently had been fired to start one part of the blaze, Prevatt said, and

(Turn To ARTIME, Pg. 3)

ARTIME

In ... a pile of logs ... was found ...

logs inside the front door of the chicken house.

There were no electric wires near the logs, which had not burned in the open flames because of the damp weather, Prevatt said.

Artime was once described as one of the "Golden Boys" of the CIA-sponsored Cuban invasion. One of the early supporters of the Cuban revolution, he fought it when it became obvious that it was being led down a communist trail.

ARTIME WAS captured in the invasion and in recent months has been believed interested in training activities of counter-revolutionists in this country.

Along with the fire investigation, it was indicated here by the sheriff that possible activities concerning the training of soldiers at the 22-acre chicken ranch may be investigated as well.

Martin County was among the locations listed for establishment of anti-Castro training camps in recent months, along with Fellsmere in Indian River County, and the Belle Glades area of Palm Beach County.

A training camp reported west of Palm City, about six months ago, disappeared over night when an investigation was started.

26 OCT 1966

MEMORANDUM FOR: Chief, Western Hemisphere Division

**SUBJECT: Termination of Subsidy to
Manuel ARTIME Bu. sa**

1. A request for your approval is contained in paragraph 8.

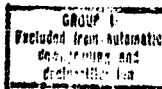

2. As you are aware the Agency financially supported the AMWORLD "unattributable operations" through ARTIME from June 1963 through April 1965 at a cost of approximately seven million dollars. As of 1 May 1965 CIA with the concurrence of the 303 Committee terminated this support.

3. On 8 June 1965, CIA sent a proposal to the 303 Committee for restoration of support to Manuel ARTIME's autonomous paramilitary group on a smaller scale for a totally distinct psychological warfare purpose. This proposal recommended expenditure of approximately \$15,000 monthly distributed as follows:

| | |
|---|-----------------|
| Support of MRR offices in U.S., Spain, Honduras, Guatemala, Colombia, Costa Rica, Venezuela | \$ 3,200 |
| Publication of TRIDENTE | 3,000 |
| Radio Broadcasts to Cuba | 1,800 |
| ARTIME's travel in Central and South America | 2,000 |
| Support of dependents of killed, wounded and captured MRR members | <u>5,000</u> |
| TOTAL | \$15,000 |

The 303 Committee approved the above proposal.

4. In September 1965, DC/WH/Cuba agreed to the decision to cut ARTIME's subsidy to \$5,000 monthly (ostensibly for support of dependents and survivors of MRR dead, wounded and imprisoned), as of 1 October 1965. Of the \$5,000 monthly aid, \$2,000 according to ARTIME was delivered to Father Llorento who in turn transferred the funds through the official Spanish pouch to Madrid to a member of the Embassy of Spain in Havana (QUANTUM-51). This official was later declared PNG in Cuba and returned to Spain.

5. On 4 May 1966, ARTIME was told by his Headquarters case officer that effective 1 June 1966 the "stipends" to persons inside Cuba, who were allegedly receiving it through the Spanish Embassy, would be terminated. Therefore, effective 1 June 1966, ARTIME's payments from CIA would be cut to \$3,000. At this time ARTIME was also advised that strict budgetary limitations were now being imposed on all government spending because of Viet Nam and other commitments and that it was quite likely that further cuts or the elimination of the remaining \$3,000 monthly subsidy would occur in the not too distant future. At that time ARTIME was also encouraged to seek gainful employment and to encourage anyone who was receiving money from him to do likewise. He was also told that the Agency would be willing to assist him in obtaining legitimate employment or to help him in any necessary training to obtain it.

6. Since this date ARTIME has continued to receive the \$3,000 monthly subsidy the majority of which he must spend for his own personal expenses as he continues to travel rather frequently in Central America and maintains his home in Miami without any other income.

7. ARTIME's contribution to the Agency's operational effort against Cuba in the past year has been negligible. WH/Cuba feels that continued payment of the \$3,000 subsidy is not warranted and can no longer be justified. In view of the present budgetary limitation on Cuban operations it can well be utilized for more significant and hopefully more productive activities.

8. It is not believed that termination of the remaining subsidy would require 303 Committee concurrence but you may wish to discuss this verbally with the DDP who is familiar with the AMWORLD operation. If approval

SECRET

-3-

is granted to terminate the subsidy without 303 Committee approval, we would plan to advise the Coordinator of Cuban Affairs for Department of State, Mr. Robert Stevenson, and Mr. William Bowdler, Staff Member, National Security Council (White House assistant), before notifying ARTIME. This is considered necessary since ARTIME is likely to try to use Mr. Bowdler or the CCA to press CIA not to terminate the subsidy. Your approval is requested to terminate the \$3,000 monthly subsidy to ARTIME effective 31 December 1966.

Miami
22 October 1966

Dear Jim:

Just a few lines to inform you of my trip through Latin America:

1. The meeting with SOMOZA was at "Las Minas", where a public celebration of the Liberal Party was being held. It was on 4 October 1966. We talked about the possibility that he would go down in history by forming a revolutionary government, honest, with an indisputable social planning. I told him that he did not need money nor power, only international prestige, that he would only acquire that international prestige by giving a moral slap in the face to those in the international field who were trying to insinuate that he was just one more dictator. He commented favorably on everything that I told him. We talked about the meeting of Presidents and of the possibility that the subject of CUBA would be discussed in private, in secret conference.

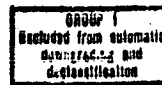

In Nicaragua I also received Amado ALVAREZ Tormo, whose report I sent with Carl. Since returning to Miami I have received a message from ALVAREZ Tormo, in code, using a booklet that he gave me as key to the code. But honestly, I have not been able to unscramble or decode what he says. At any rate, I already wrote to him telling him to explain the code to me clearly. I am sending you the message received, with the booklet that serves as a key, to see if you understand it.

I also made contact with the "Chess Player" who is going to Cuba and whom you can use.

2. I arrived in Costa Rica on 7 October 1966 in the early morning, by automobile. I stayed at the home of Juan NUÑEZ Madriz, present Secretary for Organization of the National Liberation Party. In that house I obtained the papers that I am sending you, on the table of organization of the Party.

On 9 October, Pepe FIGUEROA came to Juan's house to visit me at 12 noon (Costa Rica time). We had lunch together. He analyzed for me the situation in Costa Rica in the following manner: The Government is not able to govern and will fall into anarchy. Frank MARSHALL is conspiring to overthrow the Government. They (National Liberation) should wait for the coup d'etat to occur so that they can then come to the rescue of Constitutionality and squelch the rebels. They should not

1

help the Government.

He spoke to me very critically of Daniel ODURER and told me that presidential ambition had blinded him. He told me that, unfortunately, ODURER paid too much attention to his sweet-heart (mistress), whose name was Alcira, and that that little one was the one who had advised him to be "soft" with Communism during ODURER's electoral campaign. He told me that his opinion was that the little girl was a Communist. (I found out later about this little girl: Alcira SCHLOTTERHAUSEN Lobo, 20 years of age, speaks Spanish and understands English, works in Sears Roebuck, telephone 1915 extension 93; she is the mistress of Daniel ODURER.) (It seems to be that this girl, in effect, has other "Communist friends".)

Pepe told me that he was very saddened by the misunderstandings that there had been between us and he assured me that he had realized that he had been a victim of the same intrigues that I had been. He told me that Adolph BERLE happened to be visiting in San José, that he was a very good friend of his, and that he had a high opinion of me.

He told me that he wanted to keep in touch with me and that he would appreciate it if I would write to him frequently and that I should not pass through San José without seeing him. He invited me to go the following day to the Commemoration Celebration of the Party, that he wanted everyone to see his affection for me.

At 4 in the afternoon of the same day, I received Daniel ODURER in the same place (Juan NUÑEZ' house). He was very courteous to me. His analysis of the Costa Rican situation was the same as Pepe's, with one exception: he is in favor of helping Frank MARSHALL to effect the coup d'état and then in turn, having a rift with Frank, overthrowing him and seizing power. He asked me if I had arms that I could offer him. I told him that I did not have any, but I could obtain some at any given moment. I asked him what he wanted the arms for. He told me, "It's that several Liberation groups have private arsenals, and my arsenal is the sparsest." We laughed (surely he was talking about Pepe). He told me that he had just finished a landing strip on his finca located on the border with Nicaragua, that "one of these days" a C-46 would make a forced landing on the landing strip to test it.

I told him that it was very dangerous to help Frank, because he could see through the aid and would incapacitate him morally to take over later. He answered me that in that there was no problem, "The United States would be the only ones

2

SECRET

SECRET

who could create a scandal, and our Party can easily convince TELLEZ that we had nothing to do with the coup. Besides, we are not going to give Frank MARSHALL time to react after he effects the coup d'état."

He also invited me to attend the Party's commemoration celebration the following day.

He did not speak to me unfavorably of FIGUEROA, although by his conversation he indicated that FIGUEROA does not figure in his plans.

I accidentally asked Juan NUÑEZ Madriz the reason why Daniel was so sure of convincing TELLEZ; Juan told me that it was because of the strong rumors that there were that the wife of TELLEZ, the American ambassador, "lived" with the ex-Minister of the Treasury (Hacienda) in the Government of ORLICH, who was a very important member of the National Liberation Party.

The following day I was at the Party's inaugural celebration. OUBER referred to the "group of Cubans" who were present and who knew that the National Liberation Party was a "haven" for anti-Communist fighters. At the end Daniel came to give me his greetings and Pepe gave me an embrace in front of everybody.

The same afternoon of the celebration (4:30 p. m. on 10 October) as I was entering the offices of Juan NUÑEZ Madriz to greet his nephew Roberto MADRIZ, I saw Daniel OUBER (he has his offices in the same building), Frank MARSHALL, and Deputy GARRON of the National Liberation Party leave together. They had been having a conference in Daniel's offices.

Through Guillermo VARGAS I was able to find out that there are arms caches in Costa Rica which are in the possession of Marcial AGUILUZ, which were going to be sold to Arnulfo ARIAS' people in Panama, but that the man who was bringing the money from Panama (Luis NAVAS) had been arrested in Panama when he was en route to Costa Rica. The arms that were in Costa Rica had been bought in Honduras from VILLEDA Morales' people.

On 11 October in the evening, I had a farewell party at the home of Roberto MADRIZ. It was in my honor from the National Liberation people. Those attending were:

Andrés LIPPA, Colonel CALDERON, Roberto MADRIZ, Gilda de MADRIZ, Guillermo VARGAS, Eduardo ZURIGA, Juan NUÑEZ

3

Marcin, Guillermo MIFAO (Communist sympathizer), CHAR-
PENTIER (translator's note: this name is spelled CAR-
PENTIER in next paragraph).

At this party they presented me with the Party Document which named me an Honorary Member and Special Executive Adviser to the Organization Commission of the Party, given by order of Pepe FIGUERES. There I was able to find out that Pepe was going back to reviving his contacts with the lower echelons of the Party, because everyone spoke very well of Pepe, and in a very hostile manner to Daniel ODULIER, including CARPENTIER (translator's note: this name is spelled CHARPENTIER in paragraph above), who was a trusted friend of Daniel's. I spoke well of both of them.

3. I arrived in Panama on 12 October 1966.

On 13 October in the afternoon I was able to see Marcos ROBLES.

He told me that he had spoken with Luis CONTE Aguero and that CONTE had asked him what would be the position of Panama if they were to take continent-wide steps in regard to Cuba, and Marcos had answered that Panama's position was the most aggressive against CASTRO.

I gave Marcos the report I had on Arnulfo ARIAS and the arms in Costa Rica and commented on the necessity that the Presidents of America discuss, in private and secretly, the Cuban question. Marcos ROBLES appears to be in an openly aggressive position and told me that he would speak with the Presidents of El Salvador and Guatemala to see if they were presenting a thesis in common on Cuba. He told me that the situation in Guatemala, if CASTRO survived, would be terrible, since she wavered between a military coup and a Communist coup.

Marcos told me that the only possible stabilization of Latin America included the assassination of CASTRO.

He thanked me for the reports received and asked me to let him know anything I might find out.

4. I arrived in Venezuela on 15 October 1966.

Edgar LEONI, nephew of the President, was waiting for me at the Airport. He told me that he would leave the following Sunday for Santo Domingo and then for Miami (he is here now).

He commented to me regarding the Party: There were two clearly marked tendencies:

SECRET

- a) That of PAZ Galarraga, strongly socialist, anti-American, and radical. He receives the support of his uncle, President LECHE.
- b) That of Rómulo BETANCOURT, personified in Carlos Andrés PÉREZ (translator's note: this name is PEREZ), who was more moderate and was not anti-American.

The Party will be almost divided if Gonzalo BARRIOS is not put up as an interim candidate, but they fear the arrival of the next elections.

On 18 October I met at 2 in the afternoon with Rafael CALDERA.

We commented on the position of Chile and of FREI on Fidel CASTRO and he promised me that in December, when he goes to Chile to talk with FREI, he would try to convince him to take a more aggressive position against CASTRO, so that he will be on a level with the Christian Democratic Parties of the Caribbean, like his: COPEY. He is very optimistic about the next elections. I told him what I knew about the position of Chile, that she had been very soft against CASTRO in spite of CASTRO's attacks.

He told me that he was convinced that FREI had spoken with the Cuban regime about a possible including of Cuba in the OAS again, but that afterwards FREI had repented; and it was for that reason that Fidel attacked him so much.

He told me that Enrique HUERTAS had been to visit him in the name of "all the exile movement", to invite him to a celebration in Miami. That the only thing that he was surprised at was the "extraordinarily anti-American" position of that boy. I told him that Enrique HUERTAS was a great guy, but was very embittered and of course he represented only the doctors in Miami.

That same day, at 4 in the afternoon, I met with GROSKO, Under-Secretary General of the Presidency, in Miraflores.

He spoke to me very bitterly of the U. S. and of what they had done in Santo Domingo. He told me that he had been in the Dominican Republic all during the time of the "intervention".

He told me that Venezuela would adopt a strong position against CASTRO in the conference of Presidents. That now CASTRO only benefited the "gorillas" of Argentina and Brazil and for that reason nothing was being done against him. CASTRO was the

SECRET

justification for the existence of the gorillas.

I told him that Vietnam had distracted the forces of Democracy and he told me: "That's what they say; the truth is that they don't want to do anything."

I stated that the initiative against CASTRO corresponds to Latin America. He told me that that was in theory, but that in practice the U. S. was needed.

(As can be seen, he is of the same opinion as PAZ Galarraga.)

I departed congratulating President LEONI on his position with respect to the Japanese Government in its trade with Cuba, and I asked him to make our desire of being strongly against CASTRO become a reality.

He told me that that same day he would see the President; he closed the meeting by saying, "Don't worry, we are now very tired of Fidel, the other day we had to sink a boat loaded with munitions and Castroites."

That same night I was having drinks with Danilo SANSON, new Nicaraguan Ambassador to Venezuela. Through him I found out some very curious things: there are three ambassadors in Caracas who receive \$5,000.00 a month to notify the Venezuelan DIGEPOL of all communications in code. One of them is the one from Chile, who passes all the secret correspondence between CALDERA and FREI into the hands of the Venezuelan DIGEPOL.

On the following day I had a meeting with the "Jose Marti" Civic Club.

5. Upon my arrival in Miami, on 20 October, I had a telephone call from SOPO, in which he told me that his friend Osiel GONZALEZ, of the Second Front of Rolando MANSFERRER and that he had heard the rumor that they were going to rob me of the arms that I had near West Palm Beach. That they were trying to find out the exact location. That night Eugenio CLAUDE arrived from there (it is he who watches over the silent motors and the rubber rafts that we have on the farm, because we don't have any arms), since he had a trial the 21st.

Yesterday, the 22nd, I went there (near Indiantown), to the farm, to study security measures with respect to the motors and the rafts and I found that on the only day CLAUDE had been away, they had stolen everything and they had set fire to the mobile home and to the wood house where the motors

6

SECRET

SECRET

and rafts were. I notified the police in the area and, on arriving here, the local police and the FBI. I didn't say anything about the fact that the rotors were special. Anyway, you already know what happened. I am trying to hold the boys back and to find out where everything is now. I only know that "ANSFERSEP" is in Miami. If these men continue acting in this way, this could end in a gang war. It's time someone put an end to the daring of that gangster, who, I believe, deals also in the prostitution and drugs business.

Embraces,

Ignacio

Miami 22 de Octubre de 1966

Querido Jim:

Solo dos letras para informarte de mi viaje por Hispano-America:

1-La reunion con Somoza fue en "Las Minas", donde se celebraba un acto publico del Partido Liberal. Fue el dia 4 de Octubre de 1966. Hablamos de la posibilidad de que pasara a la Historia haciendo un gobierno revolucionario, honesto, con una proyeccion social indiscutible. Le dije que el no necesitaba ni dinero, ni poder, solo prestigio internacional. Que ese prestigio internacional solo lo conseguiria dandole una bofetada moral a los que pretendian insinuar en el campo internacional que el era un dictadorzuelo mas. Comente favorablemente todo lo que le dije. Hablamos de la reunion de Presidentes y de la posibilidad de que en privado se tratara, en conferencia secreta, el tema CUBA.

En Nicaragua tambien recibí a Amado Alvarez Tormo, cuyo reporte lo envie con Carl. De vuelta a Miami he recibido una comunicacion de Alvarez Tormo, en clave, usando un folleto que el me dio como base de la clave. Pero honestamente, no he podido desentrañar o decodificar lo que me dice. De todas maneras, le escribi ya diciendole que me aclarara bien el codigo. Ahí le envio el mensaje recibido, con el folleto que sirve de codigo, para ver si Vds. lo entienden.

Tambien hice contacto con el "Jugador de ajedrez" que va a Cuba y que Vds. puedan usar.

2-Llegue a Costa Rica el 7 de Octubre de 1966 por la madrugada, por automovil. Me hospede en casa de Juan Muñoz Madriz, actual Secretario de Organizacion del Partido Liberacion Nacional. En esa casa obtuve los papeles que les envio, de los cuadros de organizacion del Partido. El dia 9 de Octubre, Pepe Figueres me fue a visitar a casa de Juan a las 12 m (Hora de Costa Rica). Almorzamos junto. Me analizo la situacion de Costa Rica de la siguiente manera: El Gobierno no puede gobernar y caera en la anarquia. Frank Marshall esta conspirando para derrocar al Gobierno. Ellos (Liberacion Nacional) deben esperar a que se produzca el golpe de Estado para entonces ir al rescate de la Constitucionalidad y apalastar al golpista. Ellos no deben ayudar al Gobierno.

Me hablo muy mal de Daniel Oduber y me dijo que la ambicion Presidencial lo habia cegado. Me dijo que por desgracia, Oduber le hacia demasiado caso a su querida (amante), que se lla-

201-267437

(2)

había Alcira y que esa chiquilla era quien le había aconsejado la táctica de ser "suave" con el Comunismo durante la campaña electoral de Octubre. Me dijo que su opinión era que la chiquilla era comunista. (Averigüé más tarde sobre esta chiquilla: Alcira Schlotterhausen Lobo, 20 años de edad, habla español y entiende inglés, trabaja en Sears Roebuck, teléfono 1915 extensión 93; es la amante de Daniel Oduer) (Parece ser que esta niña, en efecto, tiene otros "amigos comunistas".)

Don Pepe me dijo que estaba muy apenado por los mal entendidos que habían habido entre nosotros y me aclaró que se había dado cuenta que él había sido víctima de las mismas intrigas que había sido yo. Me dijo que en San José se encontraba de visita Adolph Berle, que era muy amigo suyo y que tenía una gran opinión sobre mí.

Me dijo que quería seguir en contacto conmigo y que me agradecía que le escribiera frecuentemente y que no pasara por San José sin verlo. Me invitó a que fuera al día siguiente al Acto de Conmemoración del Partido, que quería que todos vieran su afecto hacia mí.

A las 4 de la tarde del mismo día, recibí la visita en el mismo lugar (casa de Juan Núñez), de Daniel Oduer. Fue muy afectuoso conmigo. Su análisis de la situación Costarricense fue igual a la de Don Pepe, con una excepción: él es partidario de ayudar a Frank Marshall a dar el Golpe de Estado para después, haciéndose el desentendido con Frank, derrocarlo y tomar el poder. Me preguntó si yo tenía armas que pudiera ofrecerle. Le dije que no las tenía, pero las podía conseguir en un momento determinado. Le pregunté que para qué quería las armas. Me dijo: es que varios grupos de Liberación tienen arsenales privados, y mi arsenal es el más escaso. Nos reímos (seguro hablaba de Don Pepe). Me dijo que acababa de terminar una pista en su finca situada en los límites con Nicaragua, que "uno de estos días" un C-46 haría un aterrizaje forzoso en la pista para probarla.

Yo le dije que era muy peligroso ayudar a Frank, porque podía trascender la ayuda y lo incapacitaría moralmente para después actuar. Él me respondió que en eso no había problemas. "Los Estados Unidos" serían los únicos que podían formar un escándalo, y nuestro Partido convencería fácilmente a Teófilo de que no tuvimos nada que ver con el golpe. Además, no le vamos a dar tiempo a Frank Marshall a reaccionar después que de el golpe de Estado.

(3)

Me invite tambien a asistir al acto de conmemoracion del Partido al día siguiente.

Me hablo mal de Figueres, aunque por la conversacion me demostro que no cuenta con Figueres en sus planes.

Accidentalmente le pregunte a Juan Nunez Madriz el motivo por el cual Daniel estaba tan seguro de convencer a Tellez; Juan me dijo que era por los fuertes rumores que habian de que la esposa de Tellez, el embajador americano, "vivía" con el ex-Ministro de Hacienda del Gobierno del Orlich, que era un miembro muy importante del Partido Liberacion Nacional.

Al día siguiente estuve en el acto inaugural del Partido, Ochober se refirió al "grupo de cubanos" que estaban presentes y que sabian que el partido Liberacion Nacional era un "hogar" para los luchadores anti-Comunistas. Al final Daniel fue a saludarme y Don Pepe me dio un abrazo delante de todos.

La misma tarde del acto (4 y media p.m. del día 10 de Octubre) cuando entraba en las oficinas de Juan Nunez Madriz para saludar a su sobrino Roberto Madriz, vi salir juntos a Daniel Ochober (tiene las oficinas en el mismo edificio), a Frank Marshall y al Diputado Carron del Partido Liberacion Nacional. Habian estado conferenciando en las oficinas de Daniel.

A traves de Guillermo Vargas pude enterarme de que hay depositos de armas en Costa Rica que estan en poder de Marcial Aguilár, que iban a ser vendidas a la gente de Arnulfo Arias en Panama, pero que el hombre que traia el dinero de Panama (Luis Navas) habia sido detenido en Panama cuando iba rumbo a Costa Rica. Que parte de las armas que habian en Costa Rica, habian sido compradas en Honduras a la gente de Villeda Morales.

El 11 de Octubre por la noche, tuve un acto de despedida en casa de Roberto Madriz. Fue un agasajo de parte de la gente de Liberacion Nacional. Asistieron:

Andres Lippa- El Coronel Calderon - Roberto Madriz- Gilda de Madriz

Guillermo Vargas- Eduardo Zuniga- Juan Nunez Madriz- Guillermo Aljaro (filocomunista)

Charpentier-

En ese acto me hicieron entrega del Documento del Partido que me nombraba Miembro Honorario y Asesor Ejecutivo Especial de la Comision de Organizacion del Partido, dado por orden de Don Pepe Figueres. Allí pude captar que Don Pepe estaba volviendo a rejuvenecer

(4)

los contactos con las bases del Partido, pues todos hablaron muy bien de Don Pepe y muy hostilmente a Daniel Oubier, inclusive Carpentier que era hombre de confianza de Daniel. Yo hablo bien de los dos.

3-Llegue a Panama el 12 de Octubre de 1966.

El 13 de Octubre por la tarde pude ver a Don Marcos Robles.

Me dijo que habia hablado con Luis Conte Aguero y que este le habia preguntado cual era la disposicion de Panama si se tomaran medidas continentales respecto a Cuba y Marcos habia respondido que la postura de Panama era la mas agresiva contra Castro. Le di a Don Marcos el informe que tenia sobre Arnulfo Arias y las armas en Costa Rica y comente la necesidad de que en privado y secretamente los Presidentes de America trataran el caso Cuba. Marcos Robles luce estar en una posicion abiertamente agresiva y me dijo que el hablaria con el Presidente del Salvador y Guatemala para ver si presentaban una tesis en comun sobre Cuba. El me dijo que la situacion de Guatemala, si sobrevivia Castro era terrible, ya que oscilaba entre un golpe militar y un golpe comunista. Marcos me dijo que la unica posible estabilizacion de Latino-America incluia la desaparicion de Castro.

Me dio las gracias por los informes recibidos y me pidio que cualquier cosa que yo quisiera se la hiciera saber.

4-Llegue a Venezuela el 15 de Octubre de 1966.

En el Aeropuerto me esperaba Edgar Leoni, sobrino del Presidente, que me comunico que el domingo proximo partiria para Santo Domingo y despues para Miami (esta aqui ahora).

El me comento lo referente a al Partido Habia dos tendencias claramente marcadas:

- a) La de Paz Galarraga, fuertemente socialista, anti-norteamericana y radical. Recibe apoyo de su tío, el Presidente Leoni.
- b) La de Romulo Betancourt, encarnada en Carlos Andres Prez, que era mas moderada y no era anti-norteamericana.

El Partido casi se divide si no se llega a poner a Gonzalo Barrios de candidato de transaccion, pero temen la llegada de las proximas elecciones.

(5)

El día 18 de Octubre me entreviste a las 2 de la tarde con Rafael Caldera.

Comentamos la posición de Chile y de Frei sobre Fidel Castro y me prometió que en Diciembre, cuando él fuera a Chile a conversar con Frei, trataría de convencerlo de tomar una actitud más agresiva contra Castro, para que estuviera a la par de los Partidos Demócratas Cristianos del Caribe como el suyo COPEY. Esta muy optimista para las próximas elecciones. Le informé lo que sabía sobre la postura de Chile, que había sido muy suave contra Castro a pesar de los ataques de Castro.

Me dijo que él estaba convencido de que Frei había hablado con el régimen cubano sobre un posible ingreso de Cuba en la OEA de nuevo, pero que después Frei se había arrepentido; y por eso era que Fidel lo atacaba tanto.

Me dijo que Enrique Huertas lo había ido a visitar en nombre de "todo el exilio", para invitarlo a un acto en Miami. Que lo único que le extraño fue la postura "extraordinariamente anti-norteamericana" de ese muchacho. Yo le dije que Enrique Huertas era un gran muchacho, pero estaba muy amargado y por supuesto, no representaba nada más que a los médicos de Miami.

Ese mismo día, a las 4 de la tarde, me entreviste en Miraflores con Groosko, Sub-Secretario General de la Presidencia.

Me habló muy acremente de los EEUU y de lo que habían hecho en Santo-Domingo. Me dijo que él había estado en República Dominicana durante todo el tiempo de la "intervención".

Me dijo que Venezuela adoptaría una postura energética contra Castro en ~~una~~ la conferencia de Presidentes. Que ahora Castro solo beneficiaba a los "gorilas" de Argentina y Brasil y por eso no se estaba haciendo nada en contra de él. Castro era la justificación de la existencia de los gorilas.

Yo le dije que Viet-Nam había distraído las fuerzas de la Democracia y me dijo: eso es lo que ellos dicen, lo cierto es que no quieren hacer nada.

Yo le insinué que la iniciativa contra Castro correspondía a Latino-América. Él me dijo que eso era en teoría, pero que en la práctica se necesitaba de los EEUU.

(Como se ve, es de la tendencia de Paz Calarrega)

(6)

Yo termine felicitando al Presidente Leoni por su postura con respecto al Gobierno Japonés en su comercio con Cuba y le pedi que le hiciera llegar nuestro deseo de que fuera enérgico contra Castro.

Me dijo que ese mismo día vería al Presidente; termine diciéndole: No te preocupes, que ya estamos muy cansados de Fidel, el otro día tuvimos que hundir un barco cargado de municiones y de castristas.

Esa misma noche estuve tomando tragos con Danilo Sanson, nuevo Embajador de Nicaragua en Venezuela, por el me entere de cosas muy curiosas: Hay tres embajadores en Caracas, que reciben \$5,000.00 mensuales para notificar todas las comunicaciones en código a la EM DIGEPOI venezolana. Uno de ellos es el de Chile, que pasa toda la correspondencia secreta entre Caldera y Frei a manos de la DIGEPOI venezolana.

Al día siguiente tuve una reunión con el Club Cívico "José Martí".

5-A mi llegada a Miami, el 20 de Octubre, tuve una llamada telefónica de Sopo, donde me decía que su amigo Oziel González, del 2do. Frente del Escambray tenía un amigo infiltrado en las filas de Rolando Mansferrer y que había oído el rumor de que iban a robarme las armas que yo tenía cerca de West Palm Beach. Que estaban averiguando la dirección exacta. Esa noche llegué de allá Eugenio Claude (es el que cuida los motores silenciosos y las balsas de Gaba que tenemos en la granja, ya que armas no tenemos) pues tenía un juicio el 21.

Ayer día 22 fui allá (cerca de Indiantown), a la granja, para estudiar medidas de seguridad con respecto a los motores y las balsas y me encontré con que en el único día que Claude había estado fuera, se habían robado todo y le habían prendido fuego al mobil-home y a la casa de madera donde esos motores y balsas estaban. Notifiqué a la policía del lugar y al llegar aquí a la policía local y al FBI. No dije nada de que los motores eran especiales. De modo que ya ustedes saben lo ocurrido. Estoy tratando de contener a los muchachos y de averiguar dónde está eso ahora. Solo sé que Mansferrer está en Miami. Si esos señores siguen actuando en esa forma, esto puede terminar en una lucha de pandilleros. Es hora de que alguien ponga freno a la osadía de ese ganster, que según creo anda también en negocios de prostitución y drogas.

Abrazos .

On 2 October 1966, James D. ZABOTH (P) met with AMBIDY-1 and the Mexico City representative of the MRR, Dr. Amaro E. ALVAREZ Tormo, whose mailing address is Apartado Postal 53-972, Mexico 17, D.F. He works at Laboratorios Promeco de Mexico, S.A., Bahia de San Hipolito 51, Mexico, D.F., Telephone 45-62-48, and mailing address Apartado 53-978, Mexico 17, D.F.

Doctor ALVAREZ told the following story: He is a Cuban exile who came out in August 1960 and has worked since as the MRR representative in Mexico. He worked with the FRD in 1960-61 and has had contact from time to time with Mexico City Station officers since that time. His last contact, so far as he knows, was Andrew F. MERTON (P). His brother is Doctor Jose Ramon ALVAREZ Tormo, who was captured in Cuba in March 1965 and is serving nine years in Cabañas Prison as a counter-revolutionary. ALVAREZ believes his brother was working as a WOFAC agent, but is not sure. Two other doctors, who are members of his family, were captured at about the same time. They are Doctor Fidencion SANCHEZ Escoto, serving thirty years in Cabañas, and Doctor Adalberto SAAVEDRA Diaz, serving twenty years in Principe Prison.

Early in September 1966, ALVAREZ received a telephone call from a Doctor (fnu) CAPOTE, a Cuban who is at the Public Health School of Mexico on a scholarship from the World Health Organization. His telephone number in Mexico City is 35-39-64. CAPOTE identified himself as having been a medical student in Havana when Doctor ALVAREZ was a resident surgeon at the University Hospital, and asked if ALVAREZ remembered him. ALVAREZ told him that he remembered him (although he did not) thinking that CAPOTE probably wanted to contact him to make arrangements to defect. ALVAREZ accepted an invitation to have dinner with CAPOTE and met him the same evening. They went to a French restaurant with good food, good wine, and good atmosphere, and CAPOTE paid the check. ALVAREZ said that when they met, he vaguely remembered the face of CAPOTE as one of his former students but could remember nothing more about him.

After initial small talk at dinner, ALVAREZ asked if there were anything he could do to help CAPOTE to defect, as Doctor Alarico FERNANDEZ had recently done (another Cuban doctor on a WHO scholarship in Mexico). CAPOTE replied that he was not interested in defecting, he was very happy in Cuba, Socialism is wonderful, etc. He went on to say that he wanted to talk with ALVAREZ in an attempt to help him out with a personal matter. CAPOTE said he knew the brother of ALVAREZ and had some friends who might help to get him out of prison and out of Cuba. One of them, in particular, was coming to Mexico shortly, and when he

arrived. CAPOTE said he would call ALVAREZ and try to arrange for him to talk with the person. ALVAREZ agreed, thinking CAPOTE was referring to the Vice-Minister of Health in Cuba, whom he knew was scheduled to transit Mexico soon thereafter enroute to a United Nations meeting in New York.

The next contact was on Thursday, 29 September 1966, at 1900 hours, when CAPOTE suddenly appeared without prior notice at the Laboratory where ALVAREZ was working and told him the man was in town and could see him immediately, but they would have to go at once and go straight to him. They used ALVAREZ' car. And CAPOTE directed him by a round-about route with a number of false turns, to a restaurant the name and address of which ALVAREZ did not remember; but said he could go back to it and locate it if necessary. The place has serving areas on at least three floors. They went to the third floor, which was arranged with small groups of tables separated from each other by open floor space, ostensibly dance floor. ALVAREZ said he instinctively recognized the place as controlled. One or two people were seated at each of the groups of tables and after a while he realized that they were there for surveillance. He and CAPOTE sat down at a table which CAPOTE chose, and a few minutes later one of the individuals who had been sitting alone got up and came over to join them.

He sat down and introduced himself to ALVAREZ as "VALVERDE". He made no pretense of being another doctor or of using any cover story, but identified himself as a Cuban Intelligence Officer who might be able to help ALVAREZ to get his brother released, along with his other two relatives. VALVERDE said that if ALVAREZ wanted to do so, they could go back to Cuba together the next day, his brother and the other two would be released the same day and would be put on the next flight back to Mexico. ALVAREZ told him to slow down, that he had no intention of going back to Cuba with anybody, much less a perfect stranger whom he did not know and who might be playing any kind of a game. VALVERDE said he was a wise man to check and be sure of what he was doing, and handed him a letter from a female cousin, who is a known Communist still in Cuba. She told ALVAREZ he was shirking his duty to his family if he did not help his brother and relatives to get out of prison, and at the same time to help rehabilitate himself with his own country. She ended with a note saying that the bearer of the letter was a person of absolute confidence with authority to deal with ALVAREZ and make commitments on the matter.

SECRET

SECRET

-3-

ALVAREZ read the letter and put it in his pocket, telling VALVERDE that this still did not identify him nor did it tell him any more about what they wanted from him. VALVERDE said they wanted only to help ALVAREZ and his relatives and were trying to make it possible for him to do something that could earn their release. VALVERDE then showed him a letter of introduction written on Cuban Ministry of the Interior official stationery and signed by Ramiro VALDEZ, which stated that "Señor VALVERDE" was an official of the Ministry who was travelling abroad on a special mission and should be assisted by all Cuban official missions and friendly governments. (ALVAREZ stated that he left the meeting first, then waited around outside until he saw CAPOTE and VALVERDE leave in a car with diplomatic tags, although he did not get the license numbers.)

After ALVAREZ read the letter and gave it back, VALVERDE told him, "Look here now, be sure we can take care of your brother, but we don't want money. In other cases, okay, we'll take money because we can always use it, but that's not what we want from you." ALVAREZ told him to wait a minute. If he was threatening his brother unless ALVAREZ gave him information, he would say no. "I will have the pain of whatever happens to my brother, but you have the responsibility for it because he is your prisoner. Nothing I can do will control what happens to him. Only you can control that." He said he would not collaborate with them. VALVERDE replied that this was similar to the response they usually got from the so-called democratic types, but that ALVAREZ was going too fast and refusing before he knew the situation. He described ALVAREZ as playing Don Quixote and tilting at windmills. He said the Cuban situation would ultimately be solved on the international level and the question of which side will come out on top would be resolved at that point by the big powers and nothing they (VALVERDE and ALVAREZ) did at their level was going to have any real effect on the outcome. Therefore, there was no reason they could not work together on something that was in their common interests and to their mutual advantage.

VALVERDE then said he would be completely frank with ALVAREZ and told him they knew they had only one real enemy in the world, including PBPRIME, and that was WOFACT. He said they also knew WOFACT was no longer interested in exile organizations, only individual exiles with potential influence for the future. He said they knew about the training camps in Central America with about 200 men, but they were not worried about them. They already have infiltrations into them, and if they become troublesome, the Cubans can bring sufficient pressure against them and have them closed down by propaganda from Radio Havana, through local newsmen,

SECRET

opposition political parties, the United Nations, and other international pressure. VALVERDE said they, also, were interested in individual men, not in groups. In fact, they were interested primarily in one man, the only one who might be able to organize groups both on the inside as well as the outside, who also has the backing of MOFACT. "We have him in our sights," he said, making a gesture of a marksman sighting a rifle. "That man is AMBIDDY-1. All we need is the information about him and the means to get him out of the picture, nothing more."

ALVAREZ said he was only a propaganda man who followed directions he received from the MRR, knew nothing about military matters, and had no direct contact with nor knowledge of AMBIDDY-1's routine or movements. Therefore, he could not give them any information of any value to them, even if he were willing to sell out AMBIDDY-1, which he would not do. VALVERDE said that was okay, that was about what they expected his first reply to be, but they had time to wait for him to think it over. VALVERDE said he could wait until Saturday, 1 October 1966 for another meeting (from the night of Thursday, 29 September 1966).

CAPOTE broke in at this point and said they knew that ALVAREZ travels a great deal through Latin America in his business and would be in a position to pick up information that they might be interested in. This could perhaps be enough to keep their attention while he thought over and made up his mind on their offer. For example, they had a need for more and better quality information on Guatemala, and if he wanted to work on that for a short while, they might be able to work out something with him. VALVERDE interjected a comment then that this was jumping the gun and might get them off on something far away from Cuba, AMBIDDY-1 and the relatives of ALVAREZ, which were the main considerations. He suggested again that they sleep on it and they could talk again. He said if ALVAREZ agreed to cooperate with them, he would put him in touch with one of his friends who was staying in Mexico, and they could take care of the details at that end, while he, VALVERDE, was taking care of the necessary approvals and overall agreements back in Cuba, to which he had to return in a few days. ALVAREZ said he had no objection to meeting and talking again, but he was sure he would not be changing his mind. VALVERDE said again that was all right and that they could wait.

ALVAREZ left the meeting and tried to contact AMBIDDY-1 immediately. He could not get through to Miami until the following day, Friday, 30 September 1966, when he talked to AMBIDDY-1's office manager, Manuel GUILLOT, who told him that AMBIDDY-1 had gone that same day to Nicaragua. ALVAREZ caught the next flight to Nicaragua on Saturday, 1 October 1966, to confer with AMBIDDY-1.

SECRET

SECRET

-5-

Before leaving, on Friday night, he called CAPOTE and told him, truthfully, that a sister was going to visit the next day and Sunday, and he and his wife were going to be tied up all weekend taking her sightseeing, including being out of the city Saturday night. He would be back to work, however, on Monday morning, and if they wanted to talk again he was willing, although he warned them he had not changed his mind at that point. CAPOTE said Monday was fine and he would contact ALVAREZ to make an appointment.

After discussing the matter with AMBIDY-1, they decided that ALVAREZ would go back to Mexico on Sunday, 2 October 1956, and make the meeting on Monday when they contact him. He would continue to claim he could give nothing useful about AMBIDY-1 and would not do so in any event, but might nibble at the Guatemala proposition in return for promises of better treatment for his brother. If WOFAC wishes to monitor this operation, they may contact ALVAREZ in Mexico City as "a friend of Carlos with a message from him." AMBIDY-1 directed ALVAREZ to cooperate within reason with the WOFAC contact if one were made, such as reporting events, passing deception material, etc., so long as it was understood that control of the operation will not be turned over, except to the extent that WOFAC and MRR interests and ideas continue parallel.

Querido Jim:

Esta carta de emergencia es debido al problema Manifestacion ante el Consulado Ingles de un grupo de cubanos que ha sido disuelta por la policia. de Miami. Acabo de regresar de la Jefatura de Policia donde estube sirviendo de "pacificador" entre los presos junto con el Juez y el Fiscal. Tambien servi de apaciguador ante la multitud que se reunio abajo.

Despues que todo estaba quieto, la cantidad realmente exagerada de fianza que exigieron a los presos (prohibitiva para muchos de ellos) dió oportunidad a una serie de agitadores que se reunieron abajos: Ricardo Gómez Alonso, Andino, Piñeiro, el "ruso" todos veteranos de Bahía de Cochinos, y algunos otros que desconozco; para comenzar una labor de disociación y agitación.

Los presos, a los cuales se les había puesto al principio una fianza lógica que habían aceptado; al ver la cifra exagerada de fianza impuesta que les fue comunicada por segunda vez, se negaron a aceptar la fianza; ya que muchos no ~~podían~~ podían pagarla.

Los planes de muchos de los que estaban abajo para mañana, son de agitación anti-norteamericana. La policia y el juez que puso la fianza, han manejado muy mal esto; y no quisiera que esto se convirtiera en un grave problema de desorden público de los cubanos en Miami; un "riot cubano" sería terrible. Urge que la policia y el juez reciban instrucciones sensatas.

MEMORANDUM FOR: Mr. Peter Jessup

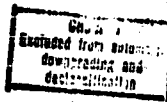

SUBJECT: Manuel ARTIME Buesa

Attached for your information is a copy of a memorandum for the record of a conversation between Manuel Artime Buesa and Mr. Earl J. Williamson, Deputy Chief, WH/Cuba, on 10 September 1966. During this conversation Artime recounts what he purports to be the highlights of a conversation with Mr. William Bowdler on 9 September. You may want to call this memorandum to Mr. Bowdler's attention. If a memorandum of Mr. Bowdler's conversation with Artime is available we would appreciate receiving a copy.

MEMORANDUM FOR THE RECORD

SUBJECT: Conversation with Manuel Artime, 16 September 1966

1. The writer had a one-hour conversation with Manuel Artime on 10 September 1966 during which Artime recounted what he purported to be the highlights of a conversation he had with Mr. William Bowdler at Bowdler's White House office on the afternoon of 9 September.
2. Artime said he was told by Mr. Bowdler that he should realize that his appointment with him, inasmuch as it was being held in his White House office, had been cleared with and had the approval of the President. He said Bowdler said he wanted to make two points completely clear to him.
 - a. There was no present plan or projected planning by the U.S. for military action against Cuba.
 - b. There was a possibility that the U.S. Government might re-examine the Cuban situation in the next few months and that he was interested in getting Artime's views on the present situation as well as comments and/or suggestions covering the future.
3. Artime said he told Bowdler that the morale of the Cuban exiles and of the people in Cuba was at its lowest ebb. He said not alone Castro's opponents but Castro himself through his own sources knew that the only significant activity being conducted against his regime at the present time was propaganda radio broadcasts beamed into the island and these were having no effect on the stability of the Castro regime. The people in Cuba and opposed to Castro are now living in a complete state of apathy because they see no hope that anything will be done to free them from Communism.

4. Artime said he volunteered his services as a military man in any capacity in which he could possibly serve. He said he spoke in terms of hit-and-run and sabotage raids at several simultaneous points on the island the purpose of which would be to:

a. Raise the morale and internal resistance spirit of the people on the island.

b. Lead to further economic difficulties by forcing the government to recall to active military service, to man coastal defenses, etc. military and militia types now working on sugar, other agricultural and industrial production.

c. Force Castro to maintain his military establishments in a constant state of alert thereby creating further financial problems as well as possible morale problems within the military establishment.

He emphasized that these "raids" could be done without increasing the budget or taxes. They could be carried out by Cubans using equipment and material presently available to the U.S. Government.

5. He said Bowdler asked him for his suggestions as to what could be done in the way of military action against Cuba and he replied that the U.S. Government with its huge military establishment and experience was much better qualified than he to make suggestions.

6. Other topics covered were Castro's verbal attacks against President Frei of Chile and the Alliance for Progress.

7. Artime said he told Bowdler he was of course very concerned about future planning--if any--concerning Cuba as he had a wife and family to support and should really seriously reorganize and reorient his personal life if there were no prospects of some action in the future and of his participation therein. He said Bowdler asked him if he had any financial problems and he assured him he did not have at present but could have in the future. He claimed Bowdler

told him to contact him if he did encounter any financial problems. He also said that Bowdler assured him that he would have some idea within the next one-two months whether there was going to be a re-examination of the U.S. position and policy towards Cuba and that he would let Artime know as soon as he had any information. Bowdler took Artime's phone number and address in Miami and gave Artime his office telephone number. Artime said he plans to phone Bowdler in about a month to say hello and ask him if there is any news.

MEMORANDUM OF CONVERSATION

September 9, 1966

SUBJECT: Manuel Artime - leader of the Bay of Pigs expedition

Artime came to see me at his own initiative. The meeting had been arranged through Congressman Dante Fascell's office. I have known Artime for several years, but had not seen him for about two years.

Artime stated that the purpose of his visit was to express some personal views about the Cuban situation. He said he fully appreciated the fact that the Cuban exile looks at his homeland in a manner quite different from the United States Government with its world-wide responsibilities. Nevertheless, he thought it important that hit-and-run raids be resumed against Cuba to (1) keep up the hopes of the opposition inside the island and (2) force Fidel to maintain a high state of alert which materially subtracts from his economic efforts. Artime noted that assets to make these raids are available but are not being used. He did not specifically ask for support to resume his activities.

I told him that while his arguments had certain merit, there were also other considerations which should be kept in mind, i. e., that hit-and-run raids provide a pretext for Castro to turn the screws of repression harder on the Cuban people and to place the blame for his own failure on external attacks. Artime acknowledged the validity of these arguments and did not pursue the matter further.

Artime said that he had reached the point where he had to think of finding a job to support his wife and three children. He indicated a preference for a job that would permit him to travel throughout Latin America so that he could maintain his contacts in other countries, and asked that I let him know if I learned of any opportunities. I said I would.

The rest of our conversation ranged over a series of points -- Cubela, Rabel, Gutierrez Menoyo, Huber Matos, the status of political prisoners, Castro's security measures, mutual friends in Miami -- but he had nothing significant to say.

Toward the end of our conversation, he returned to the subject of raids to volunteer his services in a leadership or subordinate capacity if the United

States Government decided to resume this type of activity. I told him I fully understood his deep desire to see his country freed and what great efforts he had made toward this objective, and thanked him for the offer. He also asked that I do what I could to prevent suspension of remittances to families of those who had fought against Castro. I told him I knew nothing about this but would look into it.

In departing he expressed deep appreciation for my having given him so much time (1 hour) and for having the chance to converse with one who understood Cuba's problems and his preoccupations. This was a rather subdued and reflective Arttime -- quite a contrast with the fiery and combative Arttime of two years ago.

~~Mr. Jim Hillson
Washington D.C.~~

~~Querido Jim:~~

~~Pase a informarte lo siguientes:~~

1-Que segun informes de Maximo Diaz, Delegado nuestro en Venezuela, Paz Galarraga, con su tendencia anti-norteamericana fuerte, está comprando armas para el partido ADEC en orden a estar preparados para si pierden las elecciones, en que Paz Galarraga espera ser el candidato presidencial. Que estas armas estan siendo compradas por el Partido a escondidas del Ejercito. Que Fernando Puig, veterano de Bahía de Cochinos, ex-PDC de la Fuerza Aerea de Bahía de Cochinos, es quien esta en el negocio de adquirir armas de contrabando para ellos. Fernando Puig tiene su familia en Miami, pero reside en el Hotel Tamanaco de Caracas en un nivel de vida lujosa.

2-Segun informes recibidos de Costa Rica, a traves de Guillermo Vargas, nuestro agente de "Tridente", que en el anterior Gobierno trabajaba en el INVU; hay un grupo de Costa Ricenses que estan comprando armas en Costa Rica, para un grupo de Panamenos que quiere derrocar a Marcos Robles. Guillermo Vargas fue llamado como hombre "discreto" para conseguir parte de esas armas. Guillermo Vargas consiguio 3 M-3 de la gente del anterior Gobierno que esta a galto de dinero. Me dice que lo ha hecho para conocer a los Jefes de la conspiracion. El intermediario (cuyo nombre no dice porque esto lo informa por carta) le dijo que era toda la oposicion panamense unida la que esta haciendo esto. Cuando Vargas le pregunto si los comunistas estaban en eso, le respondieron que habia que contar con "todo el mundo". Los M-3 se los van a comprar a \$250.00 dolarsa.

Guillermo Vargas me pide que no informe esto a los "americanos" ni al Gobierno de Costa Rica, pues el no es "Chivato" de nadie. Me lo informa a mi, porque sabe que yo soy muy amigo de Marcos Robles y que puede prevenir a Marcos Robles sobre esto.

(2)

Le estoy escribiendo a Guillermo Vargas para que me informe todo sobre los nombres de los compradores. Por vía de un recado recibido de Blanquita Amaro hace tiempo, yo tenía noticias de que los comunistas habían pactado con Arnulfo Arias para derrocar a Robles. También que los estudiantes habían entrado en la "liga". Pero hace falta confirmar todo esto.

3-Te acompaño copia fotostática de una carta recibida de Puerto Rico donde me informan de algo interesante.

4-Según informes recibidos por una familia amiga de Jacencio Alonso que vino de Cuba, en la autopista Tamayo de la Habana (las afueras) hay un Centro de adiestramiento para Seguridad del Estado, donde todos los profesores son extranjeros (rusos y checos). El lugar está custodiado fuertemente y tiene grandes emplazamientos anti-aéreos. Dicen que muchos latinos no cubanos que están en Cuba van por ese lugar.

5-Fui al entierro del Presidente Schich y los cubanos encabezados por mí y por Tapanes hicimos la última Guardia de Honor al Presidente difunto. Fui al Cementerio con los Diplomáticos Centro Americanos. Allí me presentaron al Hijo del Presidente Trejos, que me invitó a ir a Costa Rica; así como el Jefe del Resguardo Fiscal tico.

Un dato muy interesante es que fui presentado al Canciller Mexicano y tuvimos una conversación muy amable. Al final de la misma, llego a decirme Fidel ha ido muy lejos, a lo mejor, Artimo, nuestro Gobierno no piensa ahora lo mismo que hace 6 meses. Nos fotografiamos juntos y nos tomaron películas para la TV. Los Diplomáticos Centro Americanos se pusieron de parte mía en mis conceptos agresivos anti-Fidelistas, y el Embajador de Costa Rica llegó a decirme: Si las naciones grandes como la suya ayudaran a estos muchachos como nosotros los pequeños de Centro-América, no tendríamos que depender tanto de Estados Unidos para eliminar al barbudo; pero Vds. no ayudan y nosotros no tenemos con que ayudar y todo queda en manos de los americanos. El resultado ya se vio: Bahía de Cochinos.

6-Por recado recibido a través de Roblajo, el Presidente Marcos Robles me mandó a decir que quería hablar conmigo.

7-Creo que tengo oportunidades de trabajar en Centro-América con la Gulf American Land Corporation. Mañana me dan una respuesta. Les repito que estoy dispuesto a ser agente

(3)

vendedor de cualquier Compañía sería que quiera trabajar el Mercado Centro-Americano.

Ya traje mi primer pedido de la Guardia Nacional Nicaraguense para la "Glafer International". Fue facil, pues "Tacho" llamo por telefono al Jefe de Abastos y le dijo que me tratara como a el.

Creo que si consigo lo de la Gulf, es un "cover" excelente para deambular por esos lares. E-Tengo una cita en la White House con Jim Bowdler para el dia 9 de Septiembre, a las 4 de la tarde. Espero ver tambien a Rostow, aunque todavia no he hecho las gestiones.

Creo que la situacion Centro-Americana y en General Latino-Americana no se resolvera mientras Fidel siga gobernando, pues los capitales se estan fugando de Latino-America y la Alianza para el Progreso, que debia ser una "ayuda" se ha convertido en lo "esencial para la subsistencia". Creo que el Presidente de los Estados Unidos que resolviera este problema del Comunismo y el hambre en Latino-America, pasaria a la Historia como el hombre mas grande de la era contemporanea.

Miami 20 August 1966

1. Reports received from Maximo Diaz, our delegate in Venezuela:

Paz Galarraga who has strong anti-American tendencies, is buying weapons for the ADSC party in order to be ready in case they lose the elections. Paz Galarraga expects to be the presidential candidate. These weapons are being purchased by the party unbeknownst to the army.

Fernando Puig, veteran of day of Pigs, ex-PDO of the Bay of Pigs' Air Force, is the one who is in charge of obtaining the contraband weapons for them. Fernando Puig's family is in Miami but he lives at the Hotel Tamaseco in Caracas in a luxurious manner.

2. Reports received from Costa Rica through Guillermo Vargas, our agent of "Tridente", who worked at the INVU in the previous government:

There is a group of Costa Ricans who are buying weapons in Costa Rica for a group of Panamanians who wish to oust Marcos Robles. Guillermo Vargas was named middle man in the purchase of some of these weapons. Guillermo Vargas obtained M-3 from the people of the previous government who needed money. He tells me that he has done it in order to get to know the leaders of the conspiracy. The intermediary (whose name is omitted

because this is reported by letter) told him that all the Panamanian opposition united was doing this. When Vargas asked him if the Communists were in this, he replied that they had to count with "the entire world". The M-3 are going to be purchased for \$250.00 dollars.

Guillermo Vargas asked me not to report this to the "Americans" nor the Costa Rican Government because ^{he is} nobody's fool. ("Chivato" de nadie). He told me because he knows I am a good friend of Marcos Robles and I may warn Marcos Robles of this. I am writing Guillermo Vargas so that he will give me everything on the names of the buyers.

Through a message from Blanquita Amaro which I received some time ago, I learned that the Communists had made a pact with Arnulfo Arias to oust Robles. Also that the students had agreed to join them. However, all this has to be confirmed.

3. I am attaching a photostatic copy of a letter received from Porto Rico which contains something of interest.

4. According to reports received by a family, friends of Inocencio Alonso who came to Cuba, there is a training center for the security of the state in the highway "Tamayo" of Havana (the outskirts), where all the professors are foreigners (Russians and Czech). This place is strongly guarded and has big anti-aerial

emplacements. They say that many latins, non-Cubans who are in Cuba, visit the area.

5. I attended the burial of President Schick and the Cubans headed by Tapanes and me made the last Honor Guard to the deceased president. I went to the cemetery with the Central American diplomats. There I was introduced to the son of President Trejos, who invited me to go to Costa Rica, as well as the Costa Rican Chief of the District Attorney's office. A very interesting date is that I was introduced to the Mexican Chancellor and we had a friendly conversation. At the end of the same, he told me: "Fidel has gone very far, it could be, Artime, our government does not think the same way it did 6 months ago". A picture of both of us together was taken and also films for the T. V.. The Central American diplomats took my side in my aggressive anti-Fidelistic concepts, and the Costa Rican Ambassador went as far as to say: "If great nations such as yours would help these men, as we of small Central American nations do, we would not have to depend so much on the United States to get rid of the bearded man; but all of you do not help and we have nothing to help with so everything is left in the hands of the Americans. The result of which has already been seen in the Bay of Pigs.

6. By a message received through Robles: President Marcos Robles sent me a message requesting to speak with me.

7. I believe that I have the opportunity to work for

the Gulf American Land Corporation in Central America. They are going to give me an answer tomorrow. I repeat that I am willing to be a selling agent of any serious company who wishes to deal in the Central American market.

I already brought my first order from the Nicaraguan National Guard for the "Glafer International". It was easy because "Tacho" telephoned the Chief of Supply and told him to treat me as he would treat him. I believe that if I obtain employment with Gulf it will be an excellent "cover" for movement around those areas.

8. I have an appointment with Jim Bowdler at the White House for 9 September at 4:00 P. M.. I also intend to see Rostow, even though I have not made arrangements yet. I believe that the Central American situation and the Latin American problems in general will not be resolved while Fidel is still in power because the capital is leaving Latin America and the Alliance for Progress, which should be a "help" has been converted into the "essential for subsistence". I believe that the President of the United States who is able to resolve the Communist problem and the hunger in Latin America will go down in history as the greatest man of the contemporary era.

July 23, 1966

Dear Jim:

I pass the following information to you: 1. Colonel SANCHEZ, General Manager of Lanica Airlines, has received a notice from the Compañía Cubana de Aviación, of which I am enclosing photostatic copies, and according to Colonel SANCHEZ this is extremely serious, since this not only represents a bill of \$1,496.00 dollars which will go into the hands of CASTRO, but all the Latin American aviation companies will have to pay a similar bill monthly, which dollars will go to Cuba.

Colonel SANCHEZ says that the seriousness of the problem does not stop there. It is the opinion of the Latin American airlines that Cubana de Aviación will send each one of these lines a bill for everything they have not paid since CASTRO took power. It is to be noted that no company has paid this and that some, like Lanica Airlines, have changed their routes so as not to pass over Cuba. Colonel SANCHEZ says that if Fidel collects this belated bill, it will mean about a million dollars for him.

2. According to conversations held with General MONTIEL, the last three cases of Nicaraguan persons who were trained in Russia and have re-entered Nicaragua have done so using the route: Socialist Bloc - Cuba - Mexico - Miami - country of origin. The United States visas were obtained in Mexico and they were transit visas. This can throw the Latin American authorities off, since no one expects that from Miami could come anyone coming from Russia. The last one captured in Nicaragua (Carl can tell you), on being interrogated as to why he had gone up to the U. S. from Mexico and then to El Salvador and Managua, answered that he had received orders to do so. It must be taken into account that on passing through the United States with a transit visa these men can give out orders and watchwords.

3. The two Nicaraguans with whom I have spoken about possibly working for our cause, putting the problem to them as something completely Cuban, were: Raúl PALACIO, law student at the Central American University of Managua, intelligent, good speaker, courageous, has participated in demonstrations against the Government of the SOMOZAS, and is a nephew of Deputy MOLINA, who supports him financially and pays for his schooling. MOLINA is well known as an anti-American, although in the background he gets along with the United States Ambassador to Nicaragua. Raúl PALACIO told me that he had to think

it over carefully, since this could mean the loss of one year in his career.

Against this position (of his career), I spoke to him about the possibility of becoming a great leader of the Nicaraguan Youth and about possible training abroad in the political, economic, or social field, whichever he would like most. The other Nicaraguan from whom I received a message was Gustavo JARQUIN. He is a half-brother of Leticia JARQUIN, who works with me (they have the same father but not the same mother). He sent me the message through a brother of Leticia whose name is Adán, who also lives in Andaime, Nicaragua. The message was the following: that he wanted to talk to me about some very interesting things which would benefit me and Cuba. This man was in Cuba for training, and, it seems, in Russia. A militant Communist, it seems that he has had financial difficulties, which the Party has not helped him out of. Carl is investigating him before I speak with him.

4. I am attaching a machine copy of the letter which Enrique TOUS sent to Manuel GUILLOT, in which he tells about the matter of Blas ROCA y Marinello.

5. I am attaching a photostatic copy of a letter received by José GONZALEZ Puig, which gives a good explanation of the situation in Cuba.

6. A package was sent from Managua to Cuba, via Mexico, in which were: one pair of tennis shoes, two undershirts, two undershorts, four pairs of stockings, two ladies' brassieres, two ladies' panties, three bottles of medicine.

We'll see if they receive it in Cuba and when.

On Thursday, July 21, Mr. Elo VALDIVIA Sorí, who worked for a long time in the M.R.R. in Cuba, arrived on one of the flights to freedom.

He told me: that the only name spoken in Cuba was that of ARTIME.

2. That the Cuban Government confiscates all incoming correspondence from the United States of America which has newly-issued stamps, to use them in philatelic negotiations. When the stamp is no longer printed they let the letters through.

3. Lucio MONTALVO and María Teresa MONTALVO, who asked to leave Cuba and are about to arrive in the United States, are agents of CASTRO's G-2. They live in Marianao, Calle 124 and Avenida 49, across from Police Station No. 17.

4. In an interview that Elo VALDIVIA Sorí had during a visit that they allowed him with Jesús GONZALEZ Burgués, who is a prisoner at the "Jaruco No. 1" rehabilitation farm, he informed him that when he was a prisoner at La Cabaña (about three months ago) he learned that Hubert MATOS was at La Cabaña, that they gave him special preferential treatment, and that Fidel visited him once a week.

Juan ALSINA Navarro was also a prisoner at La Cabana, while CUBELAS was only detained at his residence, and about GALLARRETA nobody knew anything.

5. Elo VALDIVIA Sorí had contacts with Alfredo ALBUERNE, an electro-mechanical engineer and technician who works at the Cuenca Sur (South Basin) in Havana, in the supplying of water to the Capital. This man spoke critically of a relative who had gone to the United States and who in his opinion was an agent of Fidel CASTRO. This relative who left had been a sergeant in the Marina de Guerra (Navy) in Cuba in BATISTA's time. Everything seems to coincide with the description of the ALBUERNE who was a prisoner in the Zenón Viera Base in Nicaragua.

The engineer Alfredo ALBUERNE is against the Communist regime, and although he wants to leave Cuba he is watched carefully because for the moment the Government does not have a replacement for him in the work that he does in the Cuenca Sur (South Basin).

He (Elo VALDIVIA Sorí) had contact with Luis VALDIVIA Delgado, a youth who was won over by the Compulsory Military Service and who now works as an electronics technician in the Microwave Station on the Staff of the Armed Forces.

He (Elo VALDIVIA Sorí) had contact with Lázaro FERNANDEZ (he is not very sure of the last name), a youth who works for the State Security Service in one of the main offices in "old Havana".

He (Elo VALDIVIA Sorí) brought in the information that Vicente LOPEZ, who lives at Avenida 35 No. 11613, in Apartment 11, in Marianao, although he pretends to be an inspector in the I.C.A.I. who is dissatisfied with the Communist Government, is in reality a G-2 agent.

Also that Fidel CASTRO is in the habit of going every day to the Laguito (translator's note: "laguito" means "little lake", but in this context it could be a bar, restaurant, or club of some kind) at the Country Club to visit LLANUSA.

Also that after 3:00 in the afternoon, Fidel CASTRO usually takes the following route: Calzada (avenue or drive) de Columbia as far as Avenida 35, and then he continues on Avenida 35 as far as La Playa (the Beach).

Also that he (Fidel CASTRO) does not usually have a set schedule; he goes at 3:00, or at 4:00, or at 5:00, or at 6:00 in the afternoon.

I told Elo VALDIVIA Sorí to get in touch immediately with his friends in the interior and tell them to write simple letters to the New York address if they are in agreement to do something useful.

7. The following need Re-entry Permits to be able to leave the United States: Edgar SOPO Granda
Marcos VALDES Castilla.

The first of these is going to work (it is very possible) as a publicity agent in SOMOZA's campaign. The second succeeded in getting a position as a real estate salesman in an American company and he has to go to Central America and Venezuela.

If these boys find jobs there they will not only have their future assured, but they will continue to be able to collaborate with the United States. If you refuse the request, you are putting me in a predicament, because they cannot get jobs in Miami and I cannot support them. I think that, considering the circumstances, it is inhuman that boys who have collaborated in everything with the United States, including at the risk of their own lives, should receive treatment so absurd that it jeopardizes their financial stability.

8. The radio in Cuba has set me up as an example in the Cuban exile movement, and I have received word that they have planned, inside Cuba, to eliminate me.

Due to this, I went to the office of the sheriff of Dade County to see about the possibility of obtaining a permit to carry a gun, which was granted through the intervention of a veteran of the Bay of Pigs invasion, Mr. Eric JIMENEZ, who is now a detective in the County, and of his chief, Captain LONGBOTTOM. (I mentioned this to Carl on my last visit to Nicaragua.) Captain LONGBOTTOM told me that he wanted very much to go to Central America, since he had never been there before. I told him that I would be very happy to get him a Nicaraguan visa and that I would be able to put him up, if it were just for a short time, at the home of any Nicaraguan friend of mine. My motives for saying this were:

1. Gratitude for the efforts they have made.
2. So that the Miami police would realize the consideration and respect that they have for me in these Latin American countries.

3. I even thought about the possibility that some American agencies had doubts about whether or not I really had, in Nicaragua, the Camps that Fidel CASTRO says I have, and LONGBOTTOM could be a go-between for these agencies. Of course, not for the Company, since the Company already knows perfectly well what I have and what I don't have. When I was in Nicaragua I noticed that both Captain LONGBOTTOM and Eric were carefully inspected on arriving in Miami (in sharp contrast to their arrival in Nicaragua, where for the simple fact that they were with me they didn't even open their suitcases.

All this because the "Miami Herald" said that two high officials of Dade County had gone to inspect my camps in Central America. All this doesn't bother me in the least, since it is a problem for Americans. However, the list I was to have brought of the equipment we have

in Nicaragua I left in a safe in Managua because I was thinking of the possibility that it might occur to some feverish mind to check me out upon my arrival in Miami and find that list, which, except to you, would be very difficult for me to explain. In effect, when I arrived in Miami, and after passing through the formalities of Immigration and Customs, two courteous investigators, one from the Department of Customs and the other from the Bureau of Narcotics, invited me very delicately to go into their office to talk with them. There they searched me, and with the greatest courtesy in the world they asked me the stupidest questions that could be asked of anyone, one of which was: if Captain LONGBOTTOM and Eric JIMENEZ belonged to the C.I.A. I don't know whether or not they thought the C.I.A. and I were waging a private war against CASTRO, or if they thought the C.I.A. and I were involved in narcotics smuggling. The search they made of me was rather ineffective, since I myself opened the secret compartment of my briefcase for them so that they could see that if I had wanted to smuggle something I would have done so, but nevertheless I had not done so. Anyhow, I am going to present my complaints to the Department of State in Miami, and I shall write a letter to the President of the United States of America, because I believe that the least one can do for a friend is to treat him with consideration, or at least not subject him to any annoyance. If they had some doubt about me, I think that there would have been ways much more courteous and above all less disagreeable to resolve them. I want to make it clear that the conduct of these agents was at all times courteous. And it all ended in pleasant chatter in which I even offered to collaborate with them in everything which might pertain to their offices, except in that which might harm the cause of the liberation of Cuba. I made it very clear that I was not working as an agent of any agency or department of the United States, and that anytime I learn something that might harm the United States or something that has to do with international Communism, I would notify old friends I have within certain departments of the United States Government.

9. I have opportunities to work for an import-export company, and as a salesman in Central America for a metallurgical company. I have decided that the best work for me is in making use of my public relations and of my close ties with the Central American Governments. Besides, this would permit me to continue travelling throughout Central America, to maintain my contacts, and to be useful to my Country and to Democracy. If there were some possibility of being a salesman or manager of a company which is developing economic activities in Central America and especially in Nicaragua, I would appreciate very much this type of work. That is if Customs, Immigration, Border Patrol, etc., etc., etc., don't begin to get in my way. I

think that the only thing to worry about in my case is that one day I may be assassinated by international Communism. I believe that I have been known for seven years now, and I have not failed, not before the agents of the Cuban Communist G-2, nor before the very real possibility of the firing squad.

10. I have received a message from General Fulgencio BATISTA y Zaldívar through Orlando PIEDRA, that he has requested an interview with me. I think that the best way to learn his plans is to speak with Orlando PIEDRA, and I have accepted, in principle, the interview, in a place, on a day, and at a time that I specify. If it is possible I will get a recorder, and if not, I will inform on the results of the effort. With nothing more at the moment, your humble servant very attentively takes leave of you.

SUBJECT Cuban Service Charges Against LANICA Airline

RECEIVED

ACTION REQUIRED - REFERENCES

ACTION: For Headquarters information, or action if deemed appropriate.

1. On 20 July 1966, AMBIDDY-1 gave James D. ZABOTH a copy of a letter to LANICA (Nicaraguan national airline) from Empresa Consolidada Cubana de Aviacion, containing a bill for US\$1,496.00 as radio service charges. ZABOTH made a copy of the letter and bill, which are attached herewith. AMBIDDY-1 said he was given his copy of the letter by Col. Heriberto SANCHEZ, President of LANICA.

2. According to AMBIDDY-1, Col. SANCHEZ said that every Latin American airline which overflies Cuba, or uses Rancho Boyeros radio as a check point, is going to be billed retroactively for these services. LANICA's bill is relatively low because their flights dog-leg around Cuba, but some of the other airlines are going to have rather high bills. Col. SANCHEZ estimated that the charges against Latin American airlines would total almost one million U.S. dollars.

3. Col. SANCHEZ considered this information significant and asked AMBIDDY-1 if he could get it into the right hands. ZABOTH has requested that AMBIDDY-1 deliver his copy of the attached letter and bill to his Headquarters case officer, and this report is forwarded only as a follow-up.

MEMORANDUM FOR THE RECORD

SUBJECT: AMBIDY-1

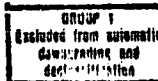

File

1. During the course of an operational meeting with AMBIDY-1 in Washington, D.C., on 22 June, he raised the subject of financial payments presently being made to him monthly (\$3,000) which he claims is used to help dependents of AMWORLD members whose husbands or providers have been either killed or imprisoned as a result of activities for AMWORLD. AMBIDY-1 was specifically interested as to whether or not I could give assurances that the monthly payments would not be further reduced (they were reduced from \$5,000 a month to \$3,000 on 1 June) or terminated in the future.

2. AMBIDY-1 was advised to consider the matter from a strictly realistic point of view; that the original purpose of the payments was to tide these people over for a short period until they could readjust their lives and prepare for and obtain gainful employment. The payments to his people were never meant to be considered as "pensions" and certainly would not be paid indefinitely. It was pointed out that with the present heavy financial commitments of Viet Nam all Government budgets were being closely scrutinized and all Government agencies were suffering rather extensive cuts. AMBIDY-1 was told that although there was no word at the present time that his payments might be cut further or discontinued, he should certainly prepare his people now for the possibility and urge them, if they had not already done so, to seek gainful employment.

3. This conversation led into a discussion concerning AMBIDY-1's future. It was also stressed for his benefit that he should establish himself in legitimate employment where he could provide for himself and his family in the future. AMBIDY-1 claimed that he only had \$3,000 in personal savings and the AMWORLD organization about \$12,000. He was given a blank PRQ #1 and asked to fill it out on his return and mail it to the writer. Although no commitments were made he was told that we were interested in helping him

secure legitimate employment and assured him that if he did do this he would always be considered in a "ready reserve" and would be called upon for assistance in PBRUMEN activities whenever it was thought his services could be useful.

4. The meeting closed with a clear understanding on AMBIDDY-1's part, as far as the writer at least is concerned, that his present subsidy payment of \$3,000 per month is subject to being cut at any time as well as being eliminated entirely at some future date.

~~AMBIDEX/1~~

Miami, 6 July 1966

Dear Jim:

I wish to communicate the following:

1. The magazine "Tridente" will continue to be published once a month with as many sacrifices as may be necessary, because it hurts me to see the way the Batistianos have gotten hold of public opinion, trying to knit an anti-american atmosphere and giving the impression in their transmissions to Cuba that all those in exile think the same way they do. I believe this greatly harms any internal conspiracy which may exist in Cuba.
2. In my next letter I will send you my complete form.
3. I received a long distance telephone call from Juan Nufiez, Costa Rica. He told me that Daniel Oduber wanted to speak with me as soon as possible because he had important things to propose to me and that what he was going to propose would benefit me.
4. Radio Havana continued to attack me unmercifully. It says that I have 8,000 volunteers in Nicaragua.
5. From an infiltration which I have in the Miami Police (Dade County), it seems that they knew where Magsferrer had the lot of 200 weapons and when they went to capture ~~him~~, a high official (possibly Major Hill) told them that he had received the order not to touch those weapons from the CIA.

*He did not
go to Costa
Rica*

*Reported by
CIA*

Magferrer has mentioned among his men that those weapons were given to him by the CIA. The name of the source of the information was omitted (of the policeman) for his protection, since he is sure that it may harm him. The source is reliable.]

6. I was able to establish contact with my parents through my cousin, but still know nothing of the contact requested by me to be made within Cuba. My parents expect to make an attempt in obtaining asylum at the Mexican Embassy in Cuba.

7. I am sending you a resumé of Rene Cancio, who wishes to join the Navy of the United States to go to Viet-Nam to fight, since he is unable to do anything in Cuba for the time being. He is our Chief of Naval Operations and I consider him a great man. He worked with your company for a long time.

8. On 28 June I had an interview with Enrique Huertas, who tried to convince me to join a group of personalities to ^{make a} public scandal for President Johnson at the White House. He thinks that the homage which he himself has prepared for 9 July at the Cuban Medical Association, where a group of personalities have been invited could be the beginning of a scandal of international magnitude (something like a hunger strike in front of the White House in Washington). Johnson will find himself obliged to do something of the Cuban problem because the opposition would use this in their platform.

Handwritten note:
Send to
B. R. ...
to Perry S.D.

14-00000

He says that Edward Kennedy told him that the Cuban problem had been definitely shelved by President Johnson. I told him that in my opinion the Cuban problem was in a "freezer" but not definitely closed, and that there were other ways to solve this problem; that in my opinion a Texan may yield with good manners (President Johnson) but not by force. That my opinion was that if we resort to violence, the reaction would be anti-productive. That I was of the impression that they were conspiring against the North American Government in the interior of Cuba, and that this I had learned from sources in Cuba. That a violent manifestation against the America Government could destroy all active subversive plans because the Cuban soldiers who were conspiring would lose their faith in the American Government. Huertas is very hurt due to the culmination of the Batistians. In my opinion it is because they have cut a budget which he had. But if all those who have their budgets cut were to react that way it would be because they were badly chosen for the position they hold. One works for principles or for money.

9. I leave for Nicaragua and from there will report what I find. When I return I will call.

Regards,

Manolo

Estimado Jim:

Paso a comunicarte lo siguientes:

- 1-La revista "Tridente" seguira saliendo una vez al mes con todos los sacrificios que sean necesarios, pues me duele la forma en que los Batistianos se han apoderado de la opinion publica, tratando de tejer una atmosfera anti-norteamericana y dando la impresion en sus transmisiones a Cuba, que todo el exilio piensa igual que ellos. Creo que esto es un grave daño para cualquier conspiracion interna que exista en Cuba.
- 2-En mi proxima misiva te envio mi planilla llena.
- 3-Recibi una llamada larga distancia de Juan Nuñez, Costa Rica, donde me decia que Daniel Otober queria hablar conmigo a la mayor brevedad posible, pues tenia cosas importantes que plantearme. Que lo que me iba a plantear me convenia.
- 4-Radio Habana sigue atacandome despiadadamente, dice que tengo 8,000 voluntarios en Nicaragua.
- 5-Per una infiltracion que tengo en la Policia de Miami (Dade County), parece ser que ellos sabian donde Mansferrer tenia el lote de 200 armas y cuando lo fueran a capturar, un oficial superior (posiblemente el Mayor Hill) les dijo que habian recibido la orden del CIA de no tocar esas armas. Mansferrer ha dicho entre sus hombres que esas armas se las dio el CIA. El nombre de la fuente de informacion lo omito (el de la policia) para proteccion suya, ya que el esta seguro que eso puede perjudicarlo. La fuente es segura.
- 6-Logre establecer contacto con mis padres a traves de mi primo, pero no se nada todavia de los contactos que he mandado a hacer dentro de Cuba. Mis padres esperan hacer un intento para poder asilarse en la Embajada de Mejico en Cuba.
- 7-Le envio un RESUMEN de Rene Cancio, que desea integrarse en la Marina (Navy) de los Estados Unidos para ir a pelear en Viet-Nam, ya que no puede hacer nada en Cuba por el momento. Es nuestro Jefe de Operaciones Navales y lo considero un gran hombre. Trabajo con la Comafia de Vds. durante mucho tiempo.
- 8-El dia 28 de Junio tuve una entrevista con Enrique Huertas, que trato de convencerme para

integrar un grupo de personalidades que le dieran un escandalo publico al Presidente Jhonson en la Casa Blanca. El piensa que en el homenaje que el mismo se ha preparado para el dia 9 de Julio en la Asociacion Medica Cubana, donde se ha invitado a un grupo de personalidades, puede ser el comienzo de la campana; el opina que con un escandalo de magnitud internacional (algo como una huelga de hambre frente a la Casa Blanca)en Washington) Jhonson se ve obligado a darle vigencia al caso Cuba, pues la oposicion al Presidente usaria eso como bandera. El dice que Edward Kennedy le notifico que el asunto Cuba habia sido definitivamente archivado para siempre por el Presidente Jhonson. Yo le dije que aunque opinaba que el caso Cuba estaba en un "freezer" pero no definitivamente cerrado, y que habia otras maneras de resolver el asunto; que yo opinaba que un tejano podia ceder con buenos modales (Presidente Jhonson) pero no por la fuerza. Que mi opinion era que si se recurria a la violencia, la reaccion iba a ser contraproducente. Que a mi me constaba que en el interior de Cuba se estaba conspirando con el beneplacito del Gobierno Norteamericano, y que esto lo sabia por fuentes de dentro de Cuba. Que una manifestacion de violencia contra el Gobierno americano podia echar por tierra todos los planes de subversion que hubieran, pues los militares cubanos que estaban conspirando, perderian la fe en el Gobierno americano. Huertas esta muy dolido por el auge de los batistianos. Mi opinion es que le han cortado un presupuesto que tenia. Pero si todos los que reciben un corte del presupuesto van a reaccionar asi, es que han sido muy mal elegidos para la posicion que ocupan. O se funciona por principios o por dinero. 9-Salgo para Nicaragua y desde ahi reportare lo que encuentre. Cuando venga llamare.

Abrazos:

Mario

ACTION REQUIRED - REFERENCES
See paragraph 3 below

- In recent conversations with AMBIDY/1 at Headquarters, he expressed concern over the extent of former President Fulgencio Batista's publicity/propaganda activities in the Miami area and the effect and influence these activities are having on the large Cuban exile community. According to AMBIDY/1, the most effective propaganda mediums in the Miami area are directed, controlled and financed by Batista interests and are designed to rebuild Batista's image. He mentioned specifically Patria which is financed by Batista, published once weekly and has a wide free distribution. In addition, reference was made to radio station WHIA which AMBIDY/1 claimed was the principal station which broadcast Batista propaganda programs. AMBIDY/1 commented that the Batista propaganda was having an effect on the exiles and, as he put it, if it continues at its present rate, the exiles in Miami will consider Batista a "saint" in comparison to Fidel Castro.
- Headquarters fully recognizes JMWAVE's feelings regarding AMBIDY/1 and the fact that he is anything but an unbiased observer. In fairness, however, it should be pointed out that he did not couple the above observations with a pitch for approval or finances to conduct propaganda activities to counteract Batista's effort.
- For the record, Headquarters is not particularly interested in seeing Batista's image rebuilt amongst the exiles. Although it is realized that the Station normally would not be interested in Batista's activities, it would be appreciated if the Station would forward whatever information is available concerning pro-Batista propaganda in the Miami area and, if possible, an assessment as to the extent of its influence on the exile community.

MARCA REGISTRADA

PUBLICACION ESCRITA DIRECTAMENTE DE BIBLIOGRAFIA ODONTOLOGICA MEXICANA DEL AUTOR "DR. SAMUEL FASTLIGHT".

Las publicaciones dentales a principios del siglo XIX fueron escasas y de poca importancia científica, reflejo sin duda, del grado cultural de la Odontología de la época. A medida que el siglo fue avanzando, este panorama se fue modificando en forma favorable, hay que recordar que aquel estado de cosas no era más que la continuación de la posición que ocupaba el barbero dentista, no solo en la Nueva España, sino en el mundo entero.

En México, los conocimientos científicos llegaban de España y la injerencia a través de sus agentes, censuraba la literatura procedente de aquel país y de Portugal: muy especialmente, la de otros países europeos.

En la misma España las publicaciones sobre Odontología eran escasas, pues sobre el particular sólo tenemos la del Dr. Peláez que fue dentista de la Corte y de los Hospitales Reales.

En su tratado de enfermedades de la boca, expresa que "DE ESTA MATERIA NO TENEMOS UN TRATADO ELEMENTAL EN NUESTRO IDIOMA", de manera que por esta razón publicaba el suyo, por considerarlo MUY PRECISO PARA INTRODUCCION DE LA JUVENTUD QUE SE DEDICABA AL ARTE DEL DENTISTA.

La primera publicación exclusivamente dental, apareció en México en el año de 1824 y fué la obra del Profesor Parros, este autor se quejó de haber observado con sumo dolor el notable abandono en que había estado y estaba la profesión de dentista en toda la nación mexicana.

Mariano N. Ruiz en su erudita obra publicada en Chiapas en 1894 y que intituló "La Dentadura Natural y Artificial", hablaba de estos lugares en que raras veces tenemos un dentista, según se lee en la página 40.

Lo que hoy entonces ocurrió era que, en realidad había pocos dentistas en la República Mexicana, al ir cambiando sus ideas consistían de empírica a semicientífica. En efecto, el barbero del otomiano iba lentamente desapareciendo para dejar su sitio al dentista.

MEMORANDUM FOR THE RECORD

SUBJECT: Operational Meetings with AMBIDY/1, Washington, D.C., 22-23 June 1966

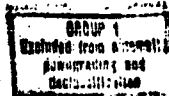

File

1. AMBIDY/1 was requested to travel from Miami to Washington, D.C., in a phone call to his residence in Miami on 20 June. He arrived in D.C. on the afternoon of 22 June. We met in his hotel room at the Manger Hay-Adams Hotel the evening of 22 June and later had dinner together. A round-up meeting was held at noon time on 23 June after which AMBIDY/1 left for New York City on what he termed "personal business."

2. The principal reason for bringing AMBIDY/1 to Washington was to check out with him what equipment--including arms and ammunition--remained from the AMWORLD activity here in the States, what it consisted of, where it was stored and whether or not any of the equipment had been disposed of recently or whether there had been any recent inquiries made to purchase any of the equipment (this inquiry was prompted by JMWAVE 1479). These points were taken up early in the meeting.

3. AMBIDY/1 said the only equipment remaining from the AMWORLD activity in the U.S. is stored in a small closet in a farm near West Palm Beach, Florida. As near as AMBIDY/1 could recall, there are 2-3 rubber boats and 6-8 silent out-board motors stored at the farm - nothing else. In addition his rep, SAENZ, has 6-8 radios at his home in Miami. AMBIDY/1 said he had no arms or ammunition either from AMWORLD or personally stored in the U.S. He has one personal sub-machine gun in his home. To his knowledge there are no sizable amounts of exile arms or ammunition in the Miami area, either in storage or available for sale. He claimed that during the Guantanamo alert he checked to see how many arms he could locate in the Miami area if needed and could locate only about 60 rifles from amongst the various exile groups.

SECRET

4. AMBIDY/1 was also queried regarding Bob Brown, the Panther Publications writer reported in JMWAVE 1479, and whether or not Brown's activities had come to his attention in Miami or whether Brown had approached him or any of his representatives to purchase or ask questions about the purchase of arms. AMBIDY/1's answer was negative. He said he did not know Brown and he had never come to his attention.

5. AMBIDY/1 was asked on his return to Miami to compile an inventory of the remainder of the AMWORLD equipment in the U.S. He has promised to do this and send the inventory to me.

SECRET

Miami, 28 June 1966

Dear Jim,

Herewith my report on the subjects we discussed:

1. With respect to parcels to Cuba:

From the US you can only send medicines. I have the recent case of José González Puig. He mailed a package of medicines which contained antibiotics, vitamins, and tranquilizers, and it took a month to arrive in Cuba, but all of it reached the relative it was addressed to.

From Nicaragua I have a package containing 2 pair drawers, 2 undershirts, 2 pair ~~xt~~ socks, and one pair cheap shoes. I shall take it to Nicaragua as soon as I can and from there I'll send by way of Mexico.

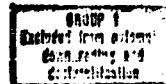

2. The letter via Spain asking Alba to write with invisible ink has already left.

3. With respect to the report on arms in Miami, I have confirmed that only small quantities are in the hands of action groups such as 2do Frente-Alpha 66, Comandos L, and "pinos @nuevos" (new pines).

In Miami, only Masferrer has them in sizable quantities. This is what Eugenio Claude, our security agent, reports:

Yesterday Rolando Masferrer showed up at a house in Miami, together with two American newsmen, one of them a photographer. In the house he had about 200 firearms. These weapons were taken out ^{by} Masferrer men who had their faces covered, while the photographer took pictures ~~of~~ of the weapons transfer. This was told to Eugenio Claude by Carballosa, who brags about being a friend of Masferrer. He said it in response to a provocative remark by Eugenio Claude to the effect that the Batista people spent a lot of money on propaganda and none on weapons, and that they were good at talking only.

SECRET

2 SECRET

This may coincide with the newsman Brown story.

I have not been able to find out who is Gil and I did confirm that King has ~~never~~ done no mobilization, or purchase or sale of weapons.

4. The orders have been given Lázaro Miranda and Inocencio ~~de~~ Alonso about the houses we talked about.

5. The telecommunications equipment Antonio Sans has ~~in~~ is as follows:

3 Collins senders

3 Collins receivers

18 field radiotelegraph sets in small waterproof cases

14 medium Radio Village transmitter-receivers.

6 Radio Village transmitter-receivers, small

6 PRC-10

3 unmarked radio transmitters

1 artificial respiration kit

17 Radio Village-type walkie-talkie

16 hand [-cranked?] field generators

22 sets of aqualung equipment

1 radio tube testing kit

2 radiocompasses

2 field telephones

8 metasopes

1 pair field glasses

1 radio antenna

Equipment kept in the MRR house

59 bundles of clothing: jackets, fatigue pants and shirts; raincoats,

jackets, pullovers, doctors gowns, drawers, handkerchiefs, socks,

undershirts, bedspreads, aprons, and quilted tee shirts.

29 cases of medicine

SECRET

SECRET³

1 case containing frogman outfits

6. I shall list the things I have in Nicaragua as soon as I can into the safe in the safehouse in Managua, where I have the list.

7. Upon my return to Miami [I find that] the Batista propaganda (anti-American, of course) has noticeably increased, including an item about Batista in the Miami Herald. The brains of the campaign are Santiago Rey and Garcia Sigfredo, who receives 600 dollars a month in addition to the cost of the newspaper Patria, of which he is the director.

The money is distributed by Fernandez Miranda.

Their vehicles are:

In print: Patria

Constitucional, published in Mexico and distributed in Miami.

On radio: Program of Juan Amador Rodriguez (he is not a Batista follower but admits into his broadcasts many ~~xxx~~ men of Batista views)

Programs of Santiago Rey, Marta Flores, Bebo Cramer, Mario Cobas Reyes, Guis Inclán, Garcia Sigfredo

All these programs are broadcast over WHIS on longwave, the only Spanish-language station in Miami which broadcasts political programs. These programs are heard in Cuba on lo ngwave, on the western part of the island.

When the ~~way~~^{street} was clear of any sensible propaganda, since most of those who carried it on were subsidised by the Company and now are unemployed or without funds, public opinion in exile ~~has fallen~~^{fall} into the hands of the pro-Batista organs.

It should be remembered that the Cubans in exile are ever more numerous.

SECRET

SECRET

and although they may not be a decisive ~~factor~~ factor with regard to the liberation of Cuba, they will return to Cuba once the island is liberated and will become a large segment of Cuban public opinion.

If to this we add that many of those "fired" or whose budgets were cut are out in the street demonstrating an anti-US attitude (some are saying that the US is carrying out for Fidel the main condition he set for an agreement with the US: doing away with the organizations in Miami), we can see how tragic is the situation in exile public opinion. The pro-Batista people are trying to imply that Batista has never cut his friends down economically, whereas the Americans are often doing it. (Actually what Batista gives, except for a few, is a ~~po~~ pittance, but he will keep it unchanged if the recipient of the money is loyal to him.)

For this reason, ~~now~~ even if Tridente disappears, I shall try to encourage Norman Díaz and Saregui to get out a weekly which will the street from the hands of Patria and the Batista propaganda.

This is all for now. Sincerely,

Manolo

MEMORANDUM FOR THE RECORD

SUBJECT: Operational Meetings with AMBIDY/1
22-23 June 1966, Wash, D.C

The following additional matters were discussed at the above meetings:

1. Information he furnished in letter dated 9 June 1966 concerning possible leads to internal contacts. We agreed:

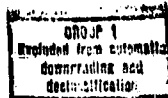

a. Inocencia Alonso, with whom he is in contact in Miami, would be instructed on A/1's return to write a personal letter to the sister of Comandante (El Mocho) Collazo (with whom Alonso allegedly has a correspondence channel) and request her to have Collazo write an innocent personal letter to Alonso to determine if Collazo has any interest in the contact.

b. AMBIDY/1's cousin, Jose Artime, in Miami, has written to his parents in Cuba who have contact with Capitan Jose Ponce DIAZ, son-in-law of Ramiro Valdes. This was about a week ago. In the letter Jose asked his parents to see Ponce DIAZ and see if he would be willing to initiate a personal letter to establish direct contact with AMBIDY/1.

c. AMBIDY/1 was contacting his personal friend, Lazaro MIRANDA in New York City on 23 June and ask MIRANDA to write to inside contacts to set up correspondence between Capitan Fernando VECINO, whom A/1 claims is an old personal friend, and AMBIDY/1.

d. A/1 said the typewritten report he sent me from source "ALBA" is from Dr. Vicente GUTIERREZ, a lawyer and present member of the legal department of the Ministry of Interior. GUTIERREZ is willing to cooperate and uses the Spanish diplomatic pouch to send reports to him. AMBIDY/1 claims QUANTUM/51's wife, who is still in Habana, has SW instructions and materials which he sent via the diplomatic pouch some time ago.

SECRET

AMBIDEX/1 was to set up via correspondence the passing of the SW instructions and material to GUTIERREZ so he could connect to direct SW correspondence with him.

El Capitán Ferrnacio Vecino (anti-uno cargo) a través de Lázaro Miranda.

Las dos primeras contactos ya se están encaminando pues las gestiones iniciales están hechas.

3- El Dr. Vicente Gutiérrez, actual Funcionario del Ministerio de Comunicaciones de Cuba Roja, me envió un reporte (firma con su nombre clandestino: Alba) muy interesante, que creo coincide en lo que pensamos nosotros. El puede hacer algunos contactos. El valora mucho lo que se puede hacer por radio. Les envío una copia fotostática del reporte recibido de Cuba. Se están radiando mis "tapes"?

4- La situación de Jaime Cdevilla me crea una situación difícil con mis contactos y aún con mis padres, pues utilizamos la vía diplomática española para los contactos. Estoy buscando otra vía.

5- Según me informan de Cuba, hay traslado de presos de unas cárceles para otras, me imagino que los traslados será para dispersar y desmoralizar a los presos que resisten el indoctrinamiento. Ejemplo: José Fernández Pinaras fue trasladado de Isla de Pinar para La Cabaña. Bonbolla fue trasladado de Pinar del Río para Isla de Pinar.

6- Todavía no se ha recibido respuesta de los contactos de Lázaro Miranda.

MEMORANDUM FOR THE RECORD

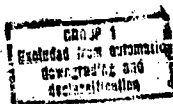

SUBJECT: Operational Meetings with AMBIDY/1, Washington, D.C., 22-23 June 1966

1. AMBIDY/1 was requested to travel from Miami to Washington, D.C., in a phone call to his residence in Miami on 20 June. He arrived in D.C. on the afternoon of 22 June. We met in his hotel room at the Manger Hay-Adams Hotel the evening of 22 June and later had dinner together. A round-up meeting was held at noon time on 23 June after which AMBIDY/1 left for New York City on what he termed "personal business."

2. The principal reason for bringing AMBIDY/1 to Washington was to check out with him what equipment-- including arms and ammunition--remained from the ANWORLD activity here in the States, what it consisted of, where it was stored and whether or not any of the equipment had been disposed of recently or whether there had been any recent inquiries made to purchase any of the equipment (this inquiry was prompted by JMWAVE 1479). These points were taken up early in the meeting.

3. AMBIDY/1 said the only equipment remaining from the ANWORLD activity in the U.S. is stored in a small closet in a farm near West Palm Beach, Florida. As near as AMBIDY/1 could recall, there are 2-3 rubber boats and 6-8 silent out-board motors stored at the farm - nothing else. In addition his rep, SAENZ, has 6-8 radios at his home in Miami. AMBIDY/1 said he had no arms or ammunition either from ANWORLD or personally stored in the U.S. He has one personal sub-machine gun in his home. To his knowledge there are no sizable amounts of exile arms or ammunition in the Miami area, either in storage or available for sale. He claimed that during the Guantanamo alert he checked to see how many arms he could locate in the Miami area if needed and could locate only about 60 rifles from amongst the various exile groups.

SECRET

SECRET

4. AMBIDDY/1 was also queried regarding Bob Brown, the Panther Publications writer reported in JMWAVE 1479, and whether or not Brown's activities had come to his attention in Miami or whether Brown had approached him or any of his representatives to purchase or ask questions about the purchase of arms. AMBIDDY/1's answer was negative. He said he did not know Brown and he had never come to his attention.

5. AMBIDDY/1 was asked on his return to Miami to compile an inventory of the remainder of the AMWORLD equipment in the U.S. He has promised to do this and send the inventory to me.

MEMORANDUM FOR THE RECORD

SUBJECT: Operational Meetings with AMBIDY/1

The following additional matters were discussed at the above meetings:

1. Information he furnished in letter dated 9 June 1966 concerning possible leads to internal contacts. We agreed:

a. Inocencia Alonso, with whom he is in contact in Miami, would be instructed on A/1's return to write a personal letter to the sister of Comandante (El Mocho) Collazo (with whom Alonso allegedly has a correspondence channel) and request her to have Collazo write an innocent personal letter to Alonso to determine if Collazo has any interest in the contact.

b. AMBIDY/1's cousin, Jose Artime, in Miami, has written to his parents in Cuba who have contact with Capitan Jose Ponce DIAZ, son-in-law of Ramiro Valdez. This was about a week ago. In the letter Jose asked his parents to see Ponce DIAZ and see if he would be willing to initiate a personal letter to establish direct contact with AMBIDY/1.

c. AMBIDY/1 was contacting his personal friend, Lazaro MIRANDA in New York City on 23 June and ask MIRANDA to write to inside contacts to set up correspondence between Capitan Fernando VECINO, whom A/1 claims is an old personal friend, and AMBIDY/1.

d. A/1 said the typewritten report he sent me from source "ALBA" is from Dr. Vicente GUTIERREZ, a lawyer and present member of the legal department of the Ministry of Interior. GUTIERREZ is willing to cooperate and uses the Spanish diplomatic pouch to send reports to him. AMBIDY/1 claims QUANTUM/51's wife, who is still in Habana, has SW instructions and materials which he sent via the diplomatic pouch some time ago.

said he has no further funds to pay Arrizurieta and now that Daniel GUERRA is no longer in power Arrizurieta obviously has no official entree to the present government.

4. AMBIDDY-1 at the writer's request rechecked with Arrizurieta regarding his sources of information in Costa Rica and specifically his unidentified penetration of the Communist Party noted in paragraph 3 of reference B. AMBIDDY-1 then reported that Arrizurieta had the following four principal sources of information in Costa Rica with whom he had maintained direct contact.

Walter Vazquez - infiltrated in the Free Costa Rican movement

Jose Luis Cascante - Student - infiltrated into the Youth Section of the Communist Party

Rigo Maria - farmer - chauffeur - infiltrated into farm section of the CP

Jose Gamboa - "Chepe" - worker in Puerto Limon - infiltrated into the CP in Puerto Limon and Atlantic coast

There are no identifiable headquarters traces on any of these four persons.

5. According to AMBIDDY-1, Jose Gamboa was the original source of the information contained in paragraph 3 A. of reference B. However the information came to Arrizurieta from an unnamed Captain in the Guardia Fiscal who works in Puerto Limon. In other words the assumption is that Jose Gamboa passed the information to the Guardia Fiscal Captain to carry to Arrizurieta in San Jose.

6. AMBIDDY-1 also reconfirmed that his access to information on the PLM was through Arrizurieta (reference D) which with Arrizurieta's departure from Costa Rica will no longer be available. AMBIDDY-1 professes to be a personal friend of Roberto Madriz, Secretary to the former president of Costa Rica and of Guillermo Vargas who is connected with the Instituto Nacional de Vivienda Urbana (INVU), Costa Rican Housing Agency. He said that the former will continue to afford him access to activities of the so-called ORLICH-GOUBER group and the latter is his contact in the Figueres-~~Madriz~~ group.

7. AMBIDDY-1 was told during these two meetings that KUBARK had no interest in his maintaining any "intelligence coverage" in Central or South America and could not make any funds available to him to support such activities. For the information of addressees AMBIDDY/1 has been receiving a monthly payment of \$5,000 from KUBARK since October 1965. This money was allegedly being used as support for dependents and members of ANWORLD. This sum is being cut back to \$3,000 monthly effective 1 June 1966 and will gradually be cut back further in the future until eliminated. With this loss of funds AMBIDDY/1 will obviously have to reduce his travels and other activities in Latin America.

MEMORANDUM FOR THE RECORD

SUBJECT: AMBIDDY-1 Financial Agreement

1. During the course of the meeting with AMBIDDY-1 in Miami on 3-4 May, we went over in considerable detail the disposition that he is making of the \$5,000 monthly payment which he has been receiving from the Agency since late 1965. As AMBIDDY-1 has indicated in his accounting statements, he claimed that \$2,000 of this money was being sent to Spain where it was forwarded by diplomatic pouch to Jaime Caldevilla, the Spanish officer stationed in the Spanish Embassy in Havana. He said Caldevilla, in turn, turned this money over to Emilio Luzarraja, who distributes it to various people inside Cuba who either had relatives imprisoned for anti-Castro activities or had been executed. The final recipients of the money who allegedly received it from Emilio Luzarraja were not identified by AMBIDDY-1.

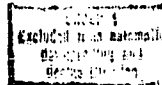

2. In relation to the balance of the \$5,000 which amounts to \$3,000, AMBIDDY-1 furnished a breakdown of individuals who he claims receive the money in Florida, and in turn forward it to specific individuals or families inside Cuba. A copy of this breakdown is attached.

3. AMBIDDY-1 was told on 4 May that effective 1 June the "stipends" to persons inside Cuba who were allegedly receiving it via the Spanish Embassy and Luzarraja would be terminated, and that effective with his June payment the amount would be cut from \$5,000 to \$3,000.

Jose FORTE Dias is now a Major, and has been reported as holding this rank since 1964. He is about thirty five years old and a combat veteran of Moncada Barracks and the Granma. He was Chief of the Department of Public Order in Las Villas Province in 1961. The sole assessment on him describes FORTE as "well known for his Communist activities". In 1966 he reportedly was a member of the C.P. Provincial Committee in Pinar del Rio.

Comandante Rene ("Mocho") GARCIA Collazo is not believed to have an active command. He also is in his mid-thirties and lost both legs and one arm in an accidental bomb explosion in 1957. He is a veteran of the Revolution and fought at Playa Girón. He was reportedly put under house arrest in November of last year, but has been seen in public as recently as last month. One report states that the reason for his arrest is implication in a plot to kill Fidel.

Capitan Fernando VECINO (also known as BESINOS) Alegret is assessed as a serious and well educated young man (also in his mid-thirties) from a wealthy family in Santiago de Cuba. He was a treasurer in I.N.R.A. in 1962. In 1962/3 he was President of the Students' Association in the Department of Industrial Engineering at the U of Havana. He has been reported as one of the leaders of the Union of Communist Youth (1966), and in 1963 was a member of the Executive Bureau of the University Committee of the U.J.C. He was described as a member of the international F.E.U. in 1964. In 1964 and 1966 it was reported that VECINO as Chief of Strategic Weapons for the Cuban Army. In 1965 he tried to organize a course on this subject for students of the University of Havana. Also in 1965, he was described as a member of the Department of Technical Investigation. He is married to Gloria Esther Guerra Manohero, who is the sister of the current Third Secretary in Pakistan.

Because next Saturday the 18th I will be traveling via Avianca from Mexico to Panama, where I will stay one week at the Panama Hilton. Then I am returning to Mexico, but will spend two days in Costa Rica and two in El Salvador.

I may possibly be in Nicaragua 2 days, but that is still not final.

Reports from an employee of the Swiss Embassy in Mexico had it yesterday that the Swiss Ambassador, who has kept a "close" relationship with Fidel, will be transferred from Havana. According to the employee the reason is the feeling of an imminent event in Cuba and the wish to replace that person in order to relieve Switzerland of possible commitments with Castro.

On the news of R. [Schik?], of Nicaragua, we would like if applicable to clarify ^{his} ~~whom~~ recruitment can be started.

Dear brother,

About the transfer of merchandise to ~~Venezuela~~ Venezuela, I have found out what it was by air, in several trips. We know that the person who piloted at least two of the flights is named GARGIOLA and is a young Mexican who until a few weeks ago worked for Reichol Chemical of Mexico, in the Vallejo Industrial Development [Col. Industrial Vallejo], Mexico, D.F. He is the son of an officer or a chief of the port of Veracruz. This gentleman is also the one who had to do with the affair of my ship which entered Veracruz loaded with armaments and in a damaged condition and left the port again the following day to transfer the armaments to another ship that was waiting outside the port. This coincided with the news of naval gunfire off Veracruz last month.

This Mexican named Gargiola has been in agreement with the husband of ^{first} Mary Enquivel, the singer. He is a Cuban, whose name they do not recall; he is in the Monterrey area, and his first name can be determined in a few days.

It seems that Mike Gutierrez, the TV producer of CMQ Havana who works here with Televisi6n Mexicana at Ave, Chapultepec, is in on the affair.

According to Gargiola, he saw men of the MRR (armbands) on his two trips to Venezuela. He left the firm where he was employed for these repeated absences due to ~~his~~ activities. If any more information is needed, please write to the postoffice box.

Estimado hermano:

Sobre el asunto del traslado de mercancías para Venezuela he sabido que se efectúa en avión constante de varias veces. La persona que parece haberse al menos dos veces se llama GARCIA, un joven mexicano que trabaja hasta hace varias semanas en Reichel Chemist de México, en la Col. Tridental Vallejo, México DF. Es hijo de un oficial o jefe del Cuartel de Veracruz. Este señor fue también quien intervino en los puntos de mi barco que entró a Veracruz cargado de armas mías y averiadas y salió otro día después al día siguiente debiendo trasladar el armamento a otro lugar que le esperaba a fuera del puerto. Es conocido en la fecha del anuncio de un canónico traslado a la altura de Veracruz y pasado mes

El señor mexicano Carguda ha estado de

ATTACHMENT TO: CSCI-316/02850-68

San Pedro Sula, Honduras Central America

March 18, 1968

Sr: Manuel Artimo
Director of the Cuban Revolutionary Front in Exile
Miami, Florida U.S.A.

These few lines are to wish you all kinds of personal happiness and at the same time success in the honorable position which you hold in your hands, to destroy definitely the Cuba of the bloodthirsty Communist Government of Fidel Castro.

To continue I want to make note of the following: In this city of San Pedro Sula there lives a family of Marxist ideology, in addition they sent their son to serve in the Communist Government of Havana in March 1961. This dangerous international Communist is named Eliceo Mejia Cabrera o Revele and according to our data he is being trained in different branches of sabotage and terrorism. He is a man of utmost confidence of the bloodthirsty chief of the G-2, Ramiro Valden.

He is liaison man between international Communists and various countries in South and Central America, which include Guatemala, Honduras, Panama, Venezuela, Colombia, Peru and Bolivia, giving assignments to bring about the fall of democratic countries of America and to bring them under the orders of Moscow, Peking and Havana; he has a passport with a different name, last name and nationality. He has also traveled to Communist countries such as Prague, Moscow and Peking.

His trips to America are made through Mexico, a country which makes its services available for the infiltration of Communism into our America. You, Mr. Artimo understand the way it is.

Here is some more important information for you. By orders of Eliceo Mejia Revele o Cabrera, who is located in Havana, three of his first cousins, Nora, Oneyda and Marina Amaya Cabrera have transferred their residences to Los Angeles, California, all three obeying the orders of Eliceo from Havana to make this trip. The money for their trip and other expenses for this consulate (sic) was sent by their famous first cousin Eliceo from Havana. We also have information

SECRET

SECRET

that correspondence is sent from Havana to the three of them, but with different names and addresses, which will make it difficult to control these letters. These three Communists who are located in Los Angeles are very smart and astute.

They have orders from their first cousin Eliceo to watch all the activities of the Central Intelligence Agency (CIA) and the FBI. They also have orders from their cousin to conceal under all circumstances that they are first cousins of Eliceo so that all will remain under mystery and once more make fools of U.S. authorities, because if the Central Intelligence Agency discovers that they are related to Eliceo they would be deported from the U.S., and he would lose the control which he enjoys at the moment with them. The letters that they send go directly to Major Raul Castro, for his information.

Mora, Cayda and Marina Amaya Cabrera made a complete fool of the honorable American Consul in this city. I also want to tell you that when Marina Amaya Cabrera received orders from Eliceo to transfer to Los Angeles she refused to get her visa at this consulate of San Pedro Sula, where she was supposed to get it since she is a resident here. According to the information I have, she went to Tegucigalpa to get her visa, which surprised the American Embassy again, since she already had the data that her visa was being processed. You know very well Mr. Artimo that the Communists use all their resources to gain victory for the plans which they have and in accordance with the orders they receive.

I also want to tell you that another cousin of Eliceo is planning to transfer her residency to Los Angeles. She is the sister of the other three and her name is Lila Amaya Cabrera V de Lopez. This makes four first cousins of the dangerous international Communist who will be stationed in the USA, subverting the work of the CIA, all of them serving as intermediaries of international Communism.

Mrs. Lila Amaya Cabrera V de Lopez is only waiting for the money which will be sent by her cousin Eliceo from Havana, in order to present herself at the American Consulate in this city, again making a fool of the American Consul.

It would be correct Mr. Artimo, that the American Consulate in this City be ordered to cancel the visa of Mrs. Lila Amaya Cabrera V de Lopez, because she is an enemy of the U.S.A., because she professes an Extra-Continental Ideology, and because she has a cousin who is serving in a Government who

is seeking the destruction of the Great American Democracy. These three international Communists called Mora, Oneyda and Marina Amaya Cabrera should be deported from Los Angeles, State of California, because of their family ties and correspondence with their cousin Eliceo Mejia Robelo O Cabrera who is serving the Communist Government of Havana, so that they can be returned to their Country of Origin, San Pedro Sula, Honduras.

I am confident that you will know how to take care of this letter, because it is based on the truth and nothing but the truth. I am sure that once these three international Communists are captured they will deny all family ties with Eliceo Mejia Robelo O Cabrera. This is true because they have orders from the Communist Mejia Robelo to deny any family relationship. I also want to tell you a nephew of Eliceo Mejia Robelo O Cabrera is traveling to Cuba. His name is Heicel Mejia Morales, and he studies in the Institute of this City. Eliceo called him to Havana, Heicel will travel to Cuba in September of this year, according to the information I have. Heicel is the nephew of these Communist women which I have mentioned in this letter. Three of them already reside in the U.S.A., the other one is about to leave this city to Los Angeles.

Get in contact with the CIA to deport from Los Angeles these three Communist, and to order the American Consul in this city to cancel the visa of Mrs. Lila Amaya V de Lopez. I do not want my name revealed due to fear of reprisals from this Communist family.

Tambien tenemos noticias que existe correspondencia desde la Habana con ellas tres, pero con nombre y direccion distinta, cosa que les va ser difil controlar estas cartas, estas tres Comunistas que se encuentran alli en los Angeles ~~XXXXXXXXXXXXXXXXXXXX~~ son muy vivas y astutas.

Tienen ordenes de su primo hermano Eliceo de la ~~XXXXXX~~ Habana que vijilen todas las Actividades de la Agencia Central de Inteligencia (Cia) y del F-B-I.- Tambien tienen Ordenes de su primo hermano Eliceo de negar bajo todo punto de vista que son primas Hermanas de él y que todo eso quede en el misterio mas grande, para burlar una vez mas a las Autoridades de los E:U:A.- Debido que si la Agencia Central de Inteligencia (CIA) llega a saber ese parentesco existente con el serian extrañadas de los E:U:A.- y el perderia el control que tiene por el momento con ellas tres, las que ellas mandan van a dar directamente a manos del Comandante Raul Castro, para mejor Informacion suya.-

~~Una~~ Onyda y Marina Amaya Cabrera, burlaron al Honorable Consul Americano de esta Ciudad en toda forma, tambien se manifestarle que cuando Marina Amaya Cabrera recibio ordenes de Eliceo de la Habana para que se trasladara a los Angeles, no quiso sacar su visa en este Consulado de San Pedro Sula, donde tenia que sacarla por recidir ella aqui en esta Ciudad, ~~XXXXXXXXXX~~ tengo Informasion fue a sacar su Visa a Tegucigalpa sorprendiendo una vez mas a dicha Embajada Americana, pues ella ya tenia datos que se le estaba siguiendo la pista, UD: sabe muy bien SR: Artine que los Comunistas agotan todos los recursos que poseen para triunfar con sus planes que tienen y según las ordenes que reciben.-

La Señora. Lidia Amaya Cabrera V de Lopez solamente espera el dinero que le enviara su primo Hermano Eliceo desde la Habana, para presentarse al Consulado Americano ~~XXXXXXXXXX~~ para su correspondiente Visa burlando una vez mas al Consul Americano de esta Ciudad.-

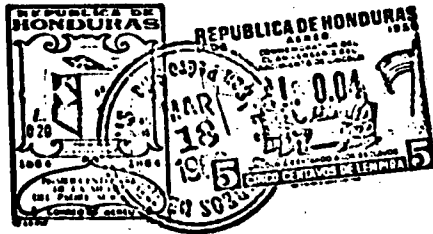

Seria correcto SR: Artine que se le ordene al Consulado Americano de esta Ciudad que cancele la Visa de la Señora Lila Amaya Cabrera V de Lopez por ser enemiga de los E:U:A. y profesar Idiologia Extra-Continental y por tener un primo Hermano prestando sus servicios a un Gobierno que busca la destruccion de la Gran Democracia Americana, ~~como son de la Habana, Hooeny y Poquia~~ Desterrar de los Angeles Estado de California a estas tres Comunistas Internacionales llamadas Nora- Onyda y Marina Amaya Cabrera, por las vinculaciones familiares y Correspondencia, con su primo Hermano Eliceo Mejia Robelo O Cabrera quien se encuentra prestando sus servicios al Gobierno Comunista de la ~~XXXXXXXX~~ Habana, para que sean remitidas a su Paiz de Origen San Pedro Sula, Honduras Centro America.-

Tengo la plena seguridad que UD: sabra atender esta mi carta debido que esta basada a la verdad y nada mas que a la verdad, tengo la seguridad que al ser capturadas estas tres Comunistas alli en los Angeles negaran a pie junto toda clase de vinculaciones familiares con Eliceo Mejia Robelo O Cabrera, todo eso se debe que tienen ordenes del Comunista Mejia Robelo de negar ese parentesco Familiar.- Se manifestarle tambien que tiene Viaje para Cuba Comunista un sobrino del Peligroso Comunista Internacional Eliceo Mejia Robelo O Cabrera llamado Heicel Mejia Morales, quien Estudia en un Instituto de esta Ciudad, el propio ~~ME~~ Eliceo lo llama de la Habana, Heicel tiene viaje para Cuba en Septiembre de este Año segun tengo noticias, Heicel es sobrino de estas cuatro Comunistas Mujeres que le menciono en esta mi carta, tres de ellas ya tienen fijada su Residencia alli en los E:U:A, otra mas esta por irse de esta Ciudad hacia los Angeles con el mismo proposito.-
