Effective 1 July 1968 LIFEUD-2, LIFEUD-3, LIFEUD-24, LIFEUD-25 and LIFEUD-26 were granted small salary increases. Also, W. A. PARENSKI was placed on a monthly salary, which replaced the previous hourly pay rate. Amended Memorandums of Oral Commitments were forwarded to Headquarters.

As is normal in this Project, daily operational meetings were held with David M. WILSTED and LIFEUD-24 in order to pick-up LIFEAT production and to discuss various operational aspects related to the continual maintenance of activities.

#### BASEHOUSES

7. On 19 April 1968 LIRISK employees started extensive renovation work in the area around LIFEAT Annex 6. Because of this, the basehouse was shut down and all of the LIFEAT lines were repaired. This renovation work was completed on 21 June and the basehouse was back in operation in early July.

8. LIRISK work in the area around LIFEAT Annex 8 caused the closure of this basehouse from 19 April until early May.

9. In June 1968 the Station made the decision to close down LIFEAT Annex 5 and move the basehousekeepers, LIFEUD-35 and 36, to another area. The reasons for this decision were two-fold: A) LIFEUD 35 and 36 have four children and Annex 5 was too small for them, and B) the annex needed extensive repairs which the Landrie refused to have done because he was planning to sell the building. A new basehouse, Annex 9, was located and Annex 6 was closed on 20 June. The basehousekeepers are now in Annex 9 and target coverage commenced in early July.

10. Paragraphs 7, 8 and 9 explain the reduced coverage provided by LIFEAT during the three month period under review.

#### SECURITY

11. No known security incidents occurred during this period.

#### PLANS

12. It presently appears that LIFEUD-5, basehousekeeper, will be transferred by his company to the Guadalajara area. If this occurs, we will accept the resignation of LIFEUD-5 and -15 and close down Annex 3. In view of this, Project Officers presently are looking for replacements and Operational Approvals will be requested as soon as suitable candidates are located.

MEMORANDUM FOR: CI/OA

ATTENTION : Mr. Lally

SUBJECT : Amendment of OA for Antonio DOUBLETTE  
(201-312729)

REFERENCE : Form 124 dated 22 November 1966

1. In accordance with Reference, Subject was granted an OA on 22 November 1966 to permit the WH/7/Haiti Desk to utilize Subject as a [redacted] translator [redacted]. Subject was recruited in December 1966 and has been performing this function satisfactorily since that time.

2. It is now requested that Subject's OA be amended to permit WH/7/Haiti Desk to utilize his services to translate sensitive [redacted] (LIFEAT) from the [redacted] languages into English. To date the Mexico City Station has been providing Headquarters with a translation of the [redacted] intelligence take, with Port-au-Prince Station assisting with translation of the [redacted] portions. Recently, however, the Port-au-Prince asset departed Haiti and, at present, neither Station has the capability to translate the [redacted] portions. Since it is believed that the [redacted] portion may contain important operational information from a CI standpoint, the Haiti Desk proposes to utilize Subject to fulfill this gap. Subject will be polygraphed before he is given this added task. Your expeditious attention to the above request would be appreciated.

3. If you desire further information, please call [redacted] WH/7/Haiti, x5595.

ACTION REQUIRED REFERENCES

The salaries listed for LIFEUD in the project renewal request do not jibe in most cases with the memoranda of oral commitment which we have on file, and in some instances (LIFEUDs 7, 8 and 9) the salaries are almost doubled. Would you please verify for us that the salaries as submitted in the renewal are those being paid, and if this is the case, would you also prepare revised MOCs and send us copies.

1. It is considered that the relationship between KUBARK and LIFELOG-2,-5,-7,-8,-24 does not fall in the category of contract personnel and, therefore, the provisions of FR 23-5 (b) (1) do not apply.

2. With respect to Carol A. ZIMMISTER, it is BYYOUR practice where an approved project provides funds for transportation, including use of LOV's that a TVA is not necessary unless a TV vehicle is required.

ACTION REQUIRED REFERENCES

ACTION REQUIRED: Furnish new TVA for LIFEAT Project if necessary.

REFERENCES : A. LIFEAT Project TVA, dated 5 October 1965  
B. WTW-13913, dated 23 August 1965  
C. WTA-26216, dated 27 May 1965

1. Please furnish this Station with a revised LIFEAT Project TVA with a total of 7 (seven) vehicle authorizations, more than now listed on the TVA, if this increase is deemed necessary for the continuing transportation allowances, all leave reimbursement paid to 6 of the project agents as approved by reference B.

2. Paragraph I. 2) d. of the project renewal request forwarded by reference C included an annual amount of \$500.00 each for the use of LIFEAT-6, LIFEAT-8, and LIFEAT-24 RV's; \$400.00 each for the use of LIFEAT-5 and LIFEAT-7 RV's; and \$300.00 per year for mileage reimbursement to Carol K. HENNINGER. These agents have been paid these amounts over the years in accordance with project approvals. However, in view of the W-45-35 and W-23-5 regulation revision in August 1964, which established the requirement for a TVA slot for RV's used on a continuing basis, the question of the need for a TVA is raised to preclude a possible audit exception.

3. The RV's are used by the agents in transporting tapes and other material between various operational points. Daily use averages from 20 to 50 miles per day and from 1 to 4 hours per day depending upon the assignment. Use of pooled vehicles is not possible because of the widely separated points of contact, the need for simultaneous use and the impracticability of coordinating the use of pooled vehicles from a cover standpoint. Public transportation is not practical again because of the widely separated points of contact and government transportation cannot be used because of cover.

Chief of Station, Mexico City

Chief, Division

AM/Logistics - Transportation Allowance for David WILSTED.

Reference: A. HHSF-3605, 27 September 1965  
B. HHSF-15913

1. Headquarters records indicate that Project LENOX was terminated 30 June 1965 as reported by reference B. WILSTED and MV-2539 were both transferred to Project LIFEAT. An amended TVA was forwarded to the Station by TM #0561324, dated 9 July 1965.

2. The establishment of a transportation allowance is predicated on a reduction in the number of Organization vehicles and a savings to ODYONE. Considering vehicle depreciation over a period of several years and charges for gas, oil and maintenance, it is deemed economical for ODYONE to pay the transportation allowance of \$50.00 per month. The availability of a POV, which is intended primarily for personal transportation and used only incidentally for official use, makes it advantageous for the employee to receive a transportation allowance.

3. In the case at hand it is noted that 90% usage of a vehicle by WILSTED, representing 1500 miles per month and a proposed \$80.00 per month transportation allowance, is for official business. Since the vehicle is used almost exclusively and very extensively for official use, it seems more appropriate, as well as to the advantage of ODYONE and WILSTED, that it should be an official vehicle.

4. Headquarters appreciates Station desire to reduce the number of QP vehicles. However, each case must be decided on the basis of the circumstances involved and, particularly, ODYONE interest. We request that the Station reconsider this case before we submit it to higher authority for approval.

1. Authority is requested to pay David E. WILSTED a transportation allowance of \$70.00 per month for the use of a POV for official business. It is planned to dispose of MV-2539, a 1962 Chevrolet Escalade 4 door sedan that has been driven for approximately 50,000 miles in favor of a transportation allowance for WILSTED. The vehicle has been used for a total of 30 months with mileage averaging 1,665 miles per month, 90% of which was official business travel.

3. A prorated allowance is not based solely on extraordinarily high costs, although insurance costs are relatively high in Mexico City, but rather the great number of miles traveled by WINTER every month in connection with WINTER and cover domestic business. If WINTER were to be reimbursed on a mileage basis at 24¢ per mile at a rate of 1.10¢ per mile for a cylindrical vehicle, he could be paid approximately \$144.00 per month based on past mileage. WINTER will agree to an \$26.00 a month allowance in lieu of the mileage rate with the understanding that a periodic review of use and costs will be made, with resultant adjustments of the allowance if necessary.

4. Since WINTER will have to purchase his car in Mexico because of his cover status, he will have to pay an estimated \$25 some time this year for a car. The factory recommended retail price, approximately \$3,300 for the 1965 Ford Falcon, 4 door sedan, he plans to purchase. It is requested that Headquarters advise in regard to the factory recommended retail price as of August or September in ZENITH on the above described vehicle, equipped with white side wall tires and radio, to facilitate the computation of the Station contribution to offset the higher cost of the vehicle in Mexico. This amount less the prorated depreciation will be recoverable at the time the vehicle is disposed of.

5. Considering the amount recoverable upon the disposal of the vehicle, the cost to WINTER will be the same or less than the cost of shipping a RV to an overseas post, and will therefore be comparable to the costs of many staff employees overseas who use their RV's for official business.

MEMORANDUM FOR: Chief of Station, Mexico City

FROM : Andrew S. PARMERS

SUBJECT : Completion of Training Report on  
David M. WILSTED

1. In a Mexico City Station Safesite, Subject received training on a part time basis from 17 through 27 May 1967. The instructor was Andrew S. PARMERS (known to trainee as Pablo ZELAYA) from KUROAS, Headquarters. Subjects covered were clandestine communications, operational security, Soviet Bloc intelligence activities, and operational reporting.

2. As a student, Subject was cooperative, participated with enthusiasm, and performed all requirements well. Although he has had very little previous formal training, he has had much practical experience and assimilates theory rapidly.

3. As a person, Subject is mature, calm, friendly, has a sense of humor, practical, a doer rather than a thinker, aggressive, and confident. He has broad area knowledge, is satisfied with his cover employment and with his KUBARK employment. He had no complaints and showed good emotional stability. He likes Mexico and Mexicans, and speaks excellent Spanish.

4. He has a very limited knowledge of KUBARK functions and organization, but he considers himself to be a careerist in this organization.

| <p>1. Enclosed is a clipping advertising a UNIBATH developer, one step photo developing solution, that replaces the three separate solutions now used by the operational darkroom technician who processes the take from the LIMERICK basehouses.</p> <p>2. We now have a time lag of one to two weeks in receiving the take from these basehouses. Most of this time lag is caused by the lengthy developing process in use. If there is anything to the UNIBATH developer, its use in our outside darkroom would be a decidedly worthwhile investment. Inquiries at the local photographic stores revealed that they had never heard of this product. It is requested that a sample of this developer be sent to the Mexico Station, marked For Quinon GUSLER so that it will reach the proper basehouse processor. If it proves successful, arrangements will be made through a local firm to place an order for the quantity necessary to meet the operational requirements.</p> <p style="text-align: right;">Willard C. DATE: 9 July 1958

SUBJECT: GENERAL - LIFEAT

SPECIFIC - Daniel K. ~~ROGERS~~ (P) ~~10586~~

ACTION REQUESTED: None, information only

1. Subject's application for [ ] status in Mexico is being processed by [ ] and LIKAYAK/2 has been requested [ ] to check with ODYCKE as to whether Subject has any derogatory background. [ ] is particularly interested in preventing any American with Communist connection from settling in Mexico.

2. Subject is described as a North American of Russian origin; the origin is probably what brought about the request for traces, and the Station for the time being attaches no other significance to the query.

3. LIKAYAK/2 is being told that there is no derogatory information on Subject and that if any are developed through a query to Headquarters, he will be notified. No further action is contemplated.

REF: HACA-9069, 31 December 1957

ACTION REQUESTED: None, for information only.

1. The Station's request for the assignment of either a P-5 or T-1 clerk-typist experienced in SENSAP reporting has been discussed with the SR Division. Both the SR and WH Divisions recognize the Station's need for such an individual; however, it is at this time impossible to acquire an additional slot for the P-5 assignment of an employee and it is not believed feasible to assign individuals on an extended T-1 basis.

2. Although the rotational field training program suggested by the Station would appear initially to be an excellent way to solve the referenced problem, Headquarters believes that the long-run effect would not achieve the desired results. This opinion is based primarily on the lack of qualified Headquarters employees suitable for such a 50% assignment. Also significant is the fact that a rotation of this type would provide a slot for the P-5 employee, thereby reducing by one the total slots normally available to that office - a troublesome problem under the present personnel ceiling.

3. The SR Division has suggested that they would be glad to provide SENSAP training to the next competent lady employee scheduled for P-5 assignment to the Station. This, of course, would not increase the Station's T/O; it would only transfer an employee from one station job to another. Should you have any desires along this line, please advise Headquarters.

ACTION REQUEST: None, for information only.

1. The Station's request for the assignment of either a P/S or I/T clerk-typist experienced in WFOAF reporting has been discussed with the CI Division. Both the CI and RI Divisions recognize the Station's need for such an individual; however, it is at this time impossible to acquire an additional slot for the WFO assignment of an employee and it is not believed feasible to assign individuals on an extended I/T basis.

2. Although the rotational field training program suggested by the Station would appear initially to be an excellent way to solve the referenced problem, Headquarters believes that the long-run effect would not achieve the desired results. Its principal is based primarily on the lack of a qualified Headquarters employee available to fill the vacant slot. Also of concern is the fact that the Headquarters office will have to provide a slot in the CI Division, thereby reducing by one the total slots normally available to that office - a troublesome problem under the present personnel ceiling.

3. The CI Division has suggested that they would be glad to provide WFOAF training to the most competent lady employee scheduled for WFO assignment to the Station. This, of course, would not increase the Station's I/T; it would only transfer an employee from one Station job to another. Should you have any desires along this line, please advise Headquarters.

SPECIFIC - Concealment Device for Use by Daniel E. BRAMUND  
(201-216541)

1. In answer to a special request by Daniel E. BRAMUND and approved by the WH Division, KEMLOT has constructed a bookcase containing a concealment area for his use in connection with the LINEAT Project. This bookcase is now being packed for shipment. The Station will be advised later of the method of shipment and the ETA. Instructions for its use are u/s/c. If the Station has no objection to its use by BRAMUND it is requested that it be delivered to him.

2. If the Station believes that additional similar concealment devices would be of use under LINEAT Project, it is requested that you forward to Headquarters your suggestions and comments, furnishing details as to quantity, size and prospective use. Your request will then be referred to KEMLOT.

MEMORANDUM FOR: WH/Logistics

SUBJECT : Purchase of Metal Storage Cans and Deluxe Carrying Cases

1. The Mexican desk has received an oral request from the field for metal cases to replace the cardboard boxes which are now used for [redacted] the LIFEAT Project. The cardboard boxes used [redacted] cut in a very short time because of the frequent handling which they receive at the Station.

2. It is requested that you purchase and ship to the Mexican Station, the following items which can be purchased from LAFAYETTE BANC, 165-08 Liberty Avenue, Jamaica 33, New York (seen in catalog 305):

|   |                            |
|---|----------------------------|
| 100 Metal Storage Cans for 7" 1200 foot reels   | \$ .39 each (in lots of 6) |
| 3 Deluxe Carrying Cases - hold 35 reels in case | \$5.40 each                |

3. The costs of the above items should be charged to Project LIFEAT.

- LIT. AT

- Serialize Mexico City Telephone Directory

Reference: WNA-7337, 3 July 1957 (50-1-12/3)

1. Reference requested serialization of the Mexico City telephone directory by street address. The matter was discussed with the Headquarters units concerned with this type of work. Due to the time required to complete this job and because of the existing heavy work load, they are unable to undertake this requirement. The requirement could be filled by another government agency after the directory was reduced to abstracts based on a numerical coding system. The outside agency would then punch the coded addresses and indices onto cards at a cost of \$75 per thousand or \$6,250 for 110,000 addresses. A full time person with a knowledge of Spanish would have to be assigned by WHD for this work.
2. The major part of the job would be the first step—the coding—which it is estimated would require a person's full time for eight to ten months. The second step—the key punching—would take about two months. The third step—a machine listing—would be a fairly rapid process.
3. Because of the cost and the shortage of personnel, Headquarters regrets that it is unable to undertake the serialization job at this time.

SPECIFIC— Request for Vacuum Tubes

ACTION REQUESTED: Pouching of Vacuum Tubes

1. It is requested that the following vacuum tubes be pouching to this Station:

50 AU 6  
50 6K6  
50 6X5  
50 6J5

2. Whereas at times these tubes, or some of them, can be purchased locally, the local market often deals in "seconds" which are unsatisfactory for our work.
