OGC 66-2615

M December 1966

The Honorable J. Walter Yeagley Assistant Attorney General Internal Security Division Department of Justice Washington, D. C. 20530

Dear Walt:

After you informed me on 29 November 1966 of the possible indictment by the U. 5. Atterney in Florida of Relando Masferrer and others concerned in the plan to launch an expedition from Florida against Precident Duvalier of Flaiti, I asked for a report on our knowledge of, or involvement in this activity.

As you know, we have installations in the Miami area which utilize a variety of sensitive covers. The Chief of Station coordinates his activities closely with the Federal Bureau of Investigation, the immigration and Naturalization Service, and the Bureau of Customs of the Department of the Treasury and discominates to those offices in the area partinent intelligence information.

Our Station was well informed on the plans of Managerer and his exherts and disseminated this information in the normal manner. Part of this reporting included information that Manferrer and some of his associates repeatedly asserted that their pictting had been approved by the U. S. Government. On some occasions they plated this approval came from this Agency, and the other times they intimated that the Federal Bureau of investigation had approved their actions. These claims were apparently used to persuade various persons, primarily Cultan exiles, some of whom formerly had contact with the Agency, to join the plot. It appears logical to assume that Manferrer would continue to claim, that he had received what he interpreted to be U. S. Government approval of the scheme to overthrow President Devalier, and if he has

nothing more positive he can take the approach that he considered the U. S. Government tacitly approved his plot since it obviously knew about it and did not take any action against him.

For the record, it can be flatly stated that neither by statement ser by implication has the Central Intelligence Agency indicated to anyone that it approved or was supporting the plot. On the contrary, those who queried people they knew were consected with our Agency concerning nossible participation in the plot were told that it had no U. S. Government backing whatsoever. Some of the plotters attempted to contact this Agency through various intermediaries, and the intermediaries were told that the Agency wished to have nothing to do with the undertaking and that any infermation concerning violations of U. S. laws should be passed to law-enforcement agencies, particularly the Bureau of Customs and the Federal Bureau of investigation. Technically, therefore, the Agency has stayed clear of the plotters, and we would be in a position to state that we had no connection with the plot and had given it no encouragement or backing of any sort.

As a practical matter, however, if presecution were pursued, Masserrer, and perhaps other desendants, would probably claim that they had CIA backing and some might even believe it to be true. This might well lead one or more desendants to seek a subpound duces tocum for an Agency witness and the Agency documentation on the subject. As noted above, the witness can testify to the fact that the Agency had in no way participated or encouraged the activity. If it proved impossible to quash the requirement for production of documents, however, we would be faced with a situation where we would almost certainly home to claim the documents were privileged on the grounds of security. Aside from the sensitivity of the reports and their possible compression of sources, we would have the problem of identification of our personnel under cover and of protecting the sensitive cover arrangements.

The same is true to a losser extent of action against Masserrer in connection with violations of his parale. In view of the flagrest and numerous violations which were actually known to and reported by Government agencies without any punitive action resulting, it would appear that he could make a plausible claim that the Government had at least winked at, if

not condened, his activities. It would seem preferable to have him immodistely put under a more stringent parole, perhaps with an accompanying requirement of bend. In the event he violated this new status, prompt action could be taken on those circumstances alone.

Stacerely,

\*/

- During the night of 22 Nov 66 a decision was reached to call off the proposed invasion of Haiti by the group sponsored by Rolando Masferrer. The invasion is off indefinitely.
- Father Jean Laptiste Georges and Colonel Rone Leon have been arguing with Masferrer which has caused confusion and disorganization in the movement. Many Othens scheduled to participate have pulled out and military chief Mapoleon Villaboise (sie), a Cuban national and alleged military expert, has resigned because of dissension in the group.
- It is believed that US Government agencies have infiltrated the movement and the leaders fear that all vespons and equipment sould be confiscated if plans for the invasion proceeded.

### MEMORANDUM OF CONVERSATION between

Andrew St. George -- CBS photographer. William G. Bowdler.

SUBJECT: Invasion of Haiti

Andrew St. George called me from Mami.

He said that he and the CBS film erew, headed by a Mr. McMullin (phenotic), were back in Miami to cover the departure this weekend of the expedition which Rolando Masferrer was organizing to invade Haitl. St. George claimed that Masferrer had recruited 300 men and arranged for the use of one B-35, two C-46s and a large boat. He said that all the preparations were so much in the open that it was evident that Masferrer and his Maitian colleagues had received the "green light". Recent events in Haitian plus Masferrer's activities. were attracting a let of newsmen to Miami.

I teld St. George that he was mistaken about the "green light". We will not telerate violation of our neutrality laws. Our enforcement agencies, whose duty it is to enforce these laws, will not permit what he described taking piece. I wanted him and those with whom he was dealing to be clear on this point. He said he would inform Mr. McMullin.

- 1. On 28 Oct 66 I spoke with Rolando Masferrer Rojas, a Cuben exile, and he told me that he has organized a military force of approximately 250 men to invade Eaiti. The invasion force consists of Cuben and Eaitian exiles residing in the U3, the Bahamas, and the Dominican Republic. The invasion will probably be launched from the Dominican Republic sometime between 5 and 13 Hovember and the target is Port-su-Prince. The invasion force will strike in the early hours of the morning selected. It is well armed, and will have any covers the presidential palace will be booked.
- 2. Masferrer stated that Eugene L. Maximilien, Haitian Consul in Mismi, Floride, is aware of the invasion, but he has no knowledge of the invasion date.

  Maximilien is presently in Haiti informing President Duvalier that the invasion can be prevented by paying off \$200,000 to Masferrer. Maximilian will return to the US on 3 Hovember and he has agreed with Masferrer that if Duvalier agrees to the pay-off, Maximilian will receive \$50,000 and Masferrer \$150,000.
- 3. Masferrer told me that the invasion will take place in any event and the \$150,000, if received, would be used to further support the invasion.
- Masferrer stated that he met within the past 10 days with several dissident Haitian army officers and he had received their support. The Haitian army officers told Masferrer that they would revolt as soon as informed that the invasion had commenced. They do not know that the target will be Port-aug.

  Prince: they believe that it will be in the cap Haitian area.
- 5. Masferrer stated that he was confident that the invasion will succeed, and if succeeds, Fether John Baytiste Georges would be appointed provisional president. Masferrer stated that Colonal Rene Leon, Edition exile, will Though participate in the invasion.

- On 21 September 1967 in Miami, Florida, Aurea Esther Poggio, Cuban emigre who is a secretary to Rolando Masferrer Rojas. said that plans had been made to assassinate persons linked with revolutionary movements in Miami opposing President Francois Duvalier of Haiti. Poggio said that the first such attempt was against Julio Aton Constanzo Palau on 17 September 1967
- 2. Poggio said that Masferrer's group was investigating the matter in an effort to find out who was carrying out the "assassination plans for Duvelier.2
  - 1. Field Comment: Constanzo, Cuban emigre, was among those indicted with Masferrer, former Cuben senator, and Pather Jean Beptiste Georges, Haitian emigre, by a federal grand jury in Misse! in February 1967 as charges of conspiring to launch an invasion of Maiti from the Florida Keys. No coverage of an attempt to kill Constanzo has been noted in the local press.
  - 2. Headquarters Comment: According to TDCS-314/08728-67, about mid-1907 Duvalier instructed Andre Elie, Haitian Consul in New York, to keep close surveillance on Haitian exiles and to report all plans for invasions of Haiti.

### MEMORANDUM FOR THE RECORD

SUBJECT: Liaison Meeting with FBI New York Agent Frank O'Brien

- 1. At 1500 hours on 13 September, Ken Millian and I met with FBI Cuban specialist Frank O'Brien at a cafe/coffee shop at 72nd St. and 3rd Ave., two blocks away from the Bureau's New York headquarters. I had arranged the meeting by telephone from Washington and advised C'Brien that I wanted to review and coordinate a number of items with him. I also informed him that I would be accompanied by Millian, a colleague interested in the Cuban UN Mission.
- 2. The meeting opened at an easy pace with an uninhibited review of happenings of mutual interest: O'Brien noted that in his view the Cubans at the Mission had been relatively inactive and had not recently been involved in subversive activities of any magnitude. He reviewed FBI coverage of as yet not fully explained purchasing activity by Mission personnel which included procurement from various New York area military surplus cutlets of punchos, leggings, and other similar equipment. He implied that in the process of covering the activities, the Bureau had acquired a substantial amount of surplus equipment itself but he didn't provide details and we didn't pursue the matter.
- 3. He noted that blanket Bureau coverage of the activities of Rolando Masferrer was continuing and that he occasionally talked with Masferrer by telephone or in person. He indicated that the Bureau was intimately aware of efforts on the part of Masferrer and other Cubans both in New York and Florida to procure arms in the U.S. and position them in the Dominican Republic. He reported that an attempt to move a shipment of such arms from the Florida Keys to the D.R. currently was underway and that the U.S. Customs Service was alerted to move in at the appropriate time to confiscate the material. (Although acknowledging Masferrer's gangater background, O'Brien complemented him on his intelligence and efficiency and indicated that Masferrer was one of the ablest Cuban refugees he had met.)
- 4. O'Brien also surfaced his current contact with former Rebel Army Captain Raimando F. Antonio de la Torre v

De la Torre apparently is involved with Cuban refugees in the U.S. who are attempting to re-establish the 26th of July Movement here in the United States minus the Communist implications contributed by Fidel. O'Brien apparently is impressed with De la Torre's sincerity and ability and believes that De la Torre should be of interest to us. De la Torre has until recently stayed away from exile accivities and according to O'Brien is pushing the revitalized 26th of July idea by personal contact rather than make any splash. According to O'Brien De la Torre is now operating a successful painting business and at one time held a good position with Union Carbide International. In conversations with O'Brien indicated that De la Torre's only real gripe was the Bay of Pigs. (C/O note: We should look into De la Torre to see if he could be used in any revitalized effort abroad to establish lines of access to non-Communist 26th of Julyers still in Cuba - Carlos Franqui etc.) We indicated that we would evaluate information available to us and discuss De la Torre with him again in the future.

- S. Note: O'Brien has been working the Cuban target in New York for over ten years and is impressively conversant with the subject. It is, therefore, sometimes difficult to stay with him when he covers various complicated subjects with abbreviated statements, e. g., during subject meeting, he alluded to one Miguel Morales, the former husband of Nellie Barletta, daughter of Batista's ambassador to Argentina Amleto Barletta. He apparently feels there may be mileage in Morales. We will, therefore, review Morales, Barletta, et al, and resurface the subject with him when time permits.
- 6. The two principal action items on my agenda were the coordination of my planned luncheon meeting with photo-journalist Lee J. Lockwood (201-78771), and discussion of NEKNIFE, who allegedly was interviewed by the Bureau in New York several years ago. O'Brien advised me that he had reviewed their Lockwood file and talked with the Bureau agent responsible for the Lockwood "case". He stated that he had not uncovered any derogatory information on Lockwood and saw no reason to prevent my meeting with him. I told him I would advise him of my meeting arrangements with Lockwood when they were firm and that I would brief him after the meeting was over. (It is of interest to note that during my briefing of O'Brien on the morning of the 16th, the day following my luncheon with Lockwood, O'Brien noted that some of his superiors in Washington thought Lockwood was an opposition (sic) "spy". When I asked if there was anything to support this

theory, O'Brien said absolutely not, it was pure speculation.)

- 7. O'Brien checked the Bureau's New York indices on NEKNIFE Lut without success. It he was in fact interviewed by the FBI in Mew York there apparently was no record of it. I told him that NEKNIFE was expected in New York City in late September to visit his daughter and son-in-law and that we probably would attempt a meeting with him at the time. He had no objection.
- 8. Specific items of business concluded, we moved into a general and historical discussion of the Cuban Mission to the UN, which was the main purpose of Millian's attendance at the meeting. Resent changes in Mission personnel, including the assignment of Ricardo Alarcon Quesada (201-347550) as Ambassador, were discussed and itineraries of Cubans arriving for the General Assembly were noted. Early in the conversation, G'Brien surfaced his long term contact with Cuban UN Advisor and Alternate Representative Antonio de Souza Carvajal (201-354048), a friend of Cuban Foreign Minister Radl Roa, who has served the Cubans in New York for the past ten years or more and has been with the Cuban Foreign Service for 40 years. The Souza subject was not new to me, since O'Brien had brought it up in conversations I had with him earlier this year. I did not choose to pursue the subject with him at that time, however, without first reviewing all implications of the case with Agency officials in Washington. O'Brien indicated no interest in Miguel Juan Alfonso Martinez (201-354041), Counselor at the Mission, whom we suspected they might be in contact with.
- 9. O'Brien's eagerness to discuss the Souza matter seems to imply that he is deeply interested in it and may suggest that he is not satisfied with results thus far obtained. At one point he indicated that his headquarters was not at all happy with the take from Souza. He reviewed the history of the contact with complete candor beginning with his initial contacts with Souza in the mid/late 1950's when O'Brien had open access to the Cuban Mission in New York and was a frequent visitor there. From his description, Souza would appear to be a thoroughly experienced and skilled diplomat who has survived the numerous changes in the Cuban government because of his friendship with Roa and other influential Cubans, and because of his ability to implement effectively for the Cubans the more subtle diplomatic maneuvers required by membership in the UN community. In fact, O'Brien feels that the Cubans utilize Souza exclusively on these latter duties and tend to exclude him from high level matters involving political, military, or economic policy.

This, according to O'Brien, accounts for Souza's inability to provide information of real value. O'Brien did indicate, however, that the usual P.I. requirements had no punch. He cited, for example, the requirements after Souza's return from Hawaii, which in effect amounted to: What's new?

- 10. Despite the long history of the Souza contact. O'Brien is not now meeting with Souza in person. Souza feels that O'Brien is too well known in the Cuban community in New York and even the most elaborate contact arrangements would not be free of danger. Souza also shys away from talking on his home phone for fear that it may be tapped. O'Brien can, however, telephone Souza and lay on alternate telephone or even meeting arrangements. We did not establish the frequency of O'Brien's current contacts with Souza nor did we establish at what point in the history of the contact the decision was made to dispense with personal meetings; the nature of our meeting with O'Brien did not permit elaborate and detailed questioning. He did recount, however, an interesting aspect of the case which followed from the fact that a State Department security officer assigned to New York, (fnu) Swazey, occupied the apartment directly above Souza during his tour in New York and became quite friendly with Souza. O'Brien apparently used Swazey as an informal gobetween on the case. (Should we choose to pursue the Souza lead, an attempt perhaps should be made to locate and debrief Swazey with O'Brien's concurrence. Note: This could be Anthony Clinton Swezey, DOB 9 August 1913, who was Special Assistant to Secretary General of U.S. Mission to UN 1946 to 1947. In 1963 he was First Secretary, FSO-2, in Paris.)
- 11. It is difficult at this point to identify with accuracy the true nature of O'Brien's tie with Souza. Based upon O'Brien's comments, it does not appear that Souza should be classified as an "agent" of the Bureau in the classical sense, particularly at this point when there apparently are so formal arrangements for contact, no remuneration or even instructions given, and apparently no reports received from Souza. It is probable that a critical point in this operation was reached about three years ago when, according to O'Brien, Souza talked about his advancing age (now 65), his retirement equities with the Cuban government, and his fimancial needs in general. O'Brien thought that Souza was looking for guarantees which would provide for his future should he choose to cooperate fully and ultimately be surfaced and forced to forego his retirement and remain in the U.S. O'Brien apparently presented Souza's case to his superiors but was unable to generate any substantial enthusiasm. He stated they were not willing to give Souza a stipend. The

SECRET

Bureau's position, both then and now, apparently is that Souza has little potential as an asset for internal security matters and therefore would not justify any substantial financial obligation. In very low key, it was made clear to O'Brien that the Agency was interested in Souza's Positive Intelligence potential (his access in Havana should be good, given his long friendship with Roa and his closeness to María Celia Girona Fernández (201-327421), cousin of Celia Sánchez Manduley) and well might find justification for providing modest security for Souza's old age.

- O'Brien was of the opinion that there may be a role for the Agency in the Souza operation. We asked him, therefore, whether or not he felt Souza may still be interested in feathering his nest and, if so, if it would be bureaucratically possible to get word to Souza that such a possibility existed. O'Brien felt that Souza would still be interested and he was of the opinion that he could get the point across to Souza via double talk in a telephone conversation. This approach was accepted and it was agreed that O'Brien would advise us of the results after the call was made. If prospects appeared encouraging, it was agreed that we would then get together again to discuss the next step which might entail arranging direct contact with Souza. O'Brien noted that Souza lives in Jackson Heights and usually drives to work. Possibly a contact could be arranged somewhere along the route. The foregoing generally covers the extent of our discussion regarding Souza. When I met with O'Brien again on 16 September just prior to my departure for Mashington, I requested that he not take any action on the Souza case in our behalf until he heard something further from me.
- 13. During our meeting we reviewed other members of the Cuban Mission with particular reference to BGI types. O'Brien moted that Chafik Homero Saker Zenni (201-335014) undoubtedly is the senior member of the BGI group but even so he was mot thought to be particularly active. He apported that Saker had been in contact with Lee Lockwood (see above) on several recent occasions but nothing was known of the nature of the meetings. He also noted that the Bureau was in contact with Saker's Cuban girl friend in New York City whom they had just traced without surfacing any derogatory information. She is cooperating and the Bureau is optimistic about her potential. He did not provide the girl's name but indicated that we should hear about her shortly through channels. O'Brien also acknowledged that the Bureau has a penetration of Prensa Latina in New York. He did not provide the mame or any details but on the basis of his comments we pre-

sumed it to be Francisco V. Portella (201-281963). It would be helpful if we could obtain additional details on both these latter cases.

- 14. Without prompting, O'Brien surfaced the AMBIG-3 double agent case. He noted that he had been involved to a degree and actually was present at the hotel bar in downtown New York when the agent made his meet with the Cuban case officer. O'Brien, accompanied by at least one other Bureau man, reported that AMBIG-3 winked at them while passing close by them at the bar on one occasion. O'Brien took this to mean that AMBIG-3 presumed that O'Brien and his friend were Bureau men assigned to surveil the meeting. O'Brien also stated that after his meeting with his Cuban DGI contact, AMBIG-3 called for an emergency meeting with the Bureau and they gave him \$200.
- 15. It was close to 2000 hours before our meeting terminated. We parted on a cordial note with agreement reached that we would talk soon again when some of the material discussed had been further sifted.

MEMORANDUM OF CONVERSATION

September 6, 1966

SUBJECT: Andrew St. George -- free lance photographer now working with CES

Mr. St. George came to see me at his request. I have known him from the time that he went to Guba in the late futles to film the Castro movement.

He said he wanted to see me as an old friend to tell me that CBS is filming a story of gun-running from the U.S. to the D.R. for use against Haiti. He is working with the CBS crew.

Mr. St. George said that the GBS team had/completed its filming in Miami and in the near lature would be travelling to Santo Domingo to film the operation at that end. He claimed that in Miami inlando Masferrer and Mitchell Warbel (phonetic) had permitted him to film what he described as a large arsenal in Masferrer's house.)

In response to my question about the identity of Warbel, he said that he is a soldier-of-fortune - arms merchant type from Atlanta who is working with Masferrer in the acquisition of arms. St. George claimed that Warbel had been responsible for the setzure of Manuel May's vessel "Venus" in the Dominican Republic and the acquisition of the arms (mostly sub-machine gums) which were on board.

Ex. George stated that the base in the Dominican Republic was on Benta Inland. Mirrangements in the DR are being handled through Santings Rey with Martines Arana and others) whom he did not name. St. George said that Enlaguer had given his nod to the operation. I told him that I did not believe there was any truth to this latter point as President Basaquer has recently normalized diplomatic relations with Haiti and is not interested in foreign adventures of this type.

In closing. It. George said he had come to see me because he believed that semeone in the United States Covernment should know about the gunguanting and the CES film. I told him that our law enforcement agencies

LEMITED OFFICIAL ISS

were aware of Masferrer's past activities and would take whatever action is necessary to prevent violation of our laws. On the film, I told him that I seriously doubted whether an objective treatment of the facts of Haitian and Cuban exile efforts would not up to the type of story he described. Therefore, I questioned the wisdom of making such a film. He responded that the facts were quite different from what I thought.

#### MEMORANDUM

SUBJECT: The Activities of Rolando MASPERRER Rojas

- l. Reference is made to a memorandum from this office, Subject: Plot to Overthrow Haitian Government, dated July 6, 1966, concerning a visit to a farm in the Atlanta, Georgia area by an informant who witnessed the loading of arms at the farm for shipment to temporary cache sites in homes in Miami and Coral Gables, Florida; the pickup of arms from these homes; their transfer to small boats already on trailers; and the offloading of latter at Miami River docking sites for shipment to Banto Domingo and ultimate sites on the Haitian Coast. While the information below may not be related to the incident reported in reference, the similarity of the two reports merits attention.
  - 2. A friend of Rolando MASFERRER Rojas told a usually reliable source of this office that on 27 June 1966 MASFERRER went to a house in Miami where 200 firearms were stored. He was accompanied by two American newsmen, one of whom was a photographer. The arms were removed from the premises by agents of MASFERRER whose faces were covered. The American photographer took photographs during the removal of the arms.
  - 3. The same usually reliable source of paragraph two reported in conjunction with the above that as of early July 1966, action groups such as the Second National Front of the Escambray, ALPHA-66, Comandos-L, and Los Pinos Nuevos, possessed only small quantities of arms. The only substantial amount of arms in the area was in the hands of KASFZEREER.
  - 4. This information is being disseminated to the Federal Bureau of Investigation and the Department of State.

A member of a group of Cuban emigres trained in the techniques of information collection. The group has provided useful reports since 1961.

- 1. On 27 or 28 April 1966, in New York, Rolando Masferrer Rojas, former Cuban senator who has been involved in plans for action against President François Duvalier of Haiti, received a letter from the Haitian who is heading the operation against Haiti. The Haitian instructed Masferrer to send a trusted person to the office of Bill Harris, 7150 N.W. 27th Avenue, himi, Florida, to talk with Verson Johnson, a Megro. The Haitian described Johnson as a trustworthy person who would be in charge of getting arms. Under no circumstances was Masferrer's emisarry to talk with anyone else.
  - 2. Anterio Roias Masferrer Rolando Masferrer's cousin in Miami, gatriaxtered followson, who said that he had in the Miami area all the equipment and arms needed for the operation introduce aritims was only avaiting the orders of release them.

- After writing the letter, the Haitian visited Rolando Masferrer in New York, brought to him equipment worth \$2,000, and told him to be patient, for the operation against Haiti would be accomplished.
- On 6 May Antonio Rojas Masferrer received a Bong-distance telephone call from the Haitian, who was in Camada. According to Rojas, the Haitian had told him that when Davalier goes to Argentina he will not return to Haiti. Bojas added that the United States Government knows this; that some of the Ton Ton Macoutes (Duvalier's personal police) were already giving up their jobs and others had been killed in the streets. The United States Government therefore fears that the Communists may take over in Haiti.

Rojas said that Rolando Masferrer was worried about the Lapse of time in initiating the Haitian operation and feares that the plan might mover materialize. ikwever, Mojes felt that if the Emitian Flan did not work out, the arms, which would have supplied about 150 men, could be used in attacks sagainst Ouba. against Cuba.

#### Field Comments

- Rolando Masferrer has been discussing plans for an invasion of Haiti for many months. TDCSDB-315/00658-66 reported the difficulties he was encountering. See, also, USB-325. USB-312/01431-66.
- 2. Among earlier claims by Hasferrer was one that he had already purchased the two aircraft. See TDCSDB-315/ 09289-66 and UFS-6936-15 DE-512/014-21-(C)
- The Haitian referred to is probably Henri Vixamar, described earlier as a former Haitian and an official of the Republic of Chad. Vixamar left Kingston for Toronto on 12 April by air. There was a previous report on a telephone conversation between Folando Hasferrer, then in Hismi, and "the Haitian in Canada" regarding "Operation Eaiti."

the night to the enigre, Holando Masferrer said that the has all the equipment that is needed, including two planes and several boats, to carry out his plans. Rolando Masferrer added that he had been persecuted by authorities of the United States Government. He said that after Fidel Castro Ruz has been overthrown he, Masferrer, will leave for Cuba immediately, with or without permission from U. S. authorities. He plans to follow the example of Francisco Camano Deno, who, with a small group, stood firm, and became a recognized power in the Deminican Republic.

#### Field Comments.

- 1. TDCSDB-313/00714-66 gives information on the Masferrer's plans to invade Haiti.
- 2. The Haitian may be Henri Vixamar, who has previously been reported to be involved in the plans to invade Haiti. He left Kingston, Jamaica, on 12 April for Toronto, Canada.
- 3. Source Comment. Masferrer's involvement in a plan to invade Haiti may be a subterfuge for obtaining a military force and equipment which will be prepared for action in the event an internal upheaval occursus in Cuba.

Field Comment. Masserrer has a tendency to exaggerate, and he is disliked and distrusted by many Cuban émigrés. TDCSDB-315/00658-66 reported on the difficulties he was encountering in trying to complete his plan for an invasion of Haiti.
