1	<p align="center">TECHNICAL SUPPORT OPERATIONS (Table 124-5) (Applicable for HQ AFOSI only)</p> <p>Technical Surveillance Countermeasures (TSCM) surveys are visual, electronic, and physical examinations to locate and neutralize technical surveillance devices; and identify and correct exploitable technical and physical security vulnerabilities. These surveys are also conducted to provide commanders and agency chiefs a comprehensive evaluation of their facilities' technical security.</p> <p>Rule 3. Disposition is changed to destroy record copies of technical security survey report files at HQ AFOSI after 15 years, versus current 5 years. HQ, Air Force Office of Special Investigations (HQ AFOSI) needs the ability to monitor on-going investigations and to retrieve data from previous investigations. The ability to recover data on the results of specific investigations several years after their conclusion is frequently essential to the proper conduct of subsequent investigations in the same location. A 15 year disposition for these technical security survey report files would be in line with the 15 year disposition of related AFOSI investigative reports.</p>	NCI-AFU-76-21	<i>1 item</i>
