

NOTICE - SOME ITEMS SUPERSEDED OR OBSOLETE

Schedule Number: N1-434-89-012

Some items in this schedule are either obsolete or have been superseded by new NARA approved records schedules. This information is accurate as of: 7/29/2024

ACTIVE ITEMS

These items, unless subsequently superseded, may be used by the agency to disposition records. It is the responsibility of the user to verify the items are still active.

All items not listed below remain active.

SUPERSEDED AND OBSOLETE ITEMS

The remaining items on this schedule may no longer be used to disposition records. They are superseded, obsolete, filing instructions, non-records, or were lined off and not approved at the time of scheduling. References to more recent schedules are provided below as a courtesy. Some items listed here may have been previously annotated on the schedule itself.

N1-434-89-012 / 9/A superseded by DAA-0434-2020-0014-0002

N1-434-89-012 / 9/B superseded by DAA-0434-2020-0014-0002

10 ACTION
TAKEN
(NARS USE
ONLY)

Records of the Uranium Mill Tailings Remedial Action (UMTRA) Project. Carried out under the Albuquerque Operations Office, a field office of the Department of Energy. These records are more fully described on the attachment.

Note: an electronic system that will serve as an index to the records described on this schedule is currently under development. When completed, this system will be described on an SF 115 and submitted to NARA. If the system is deemed appropriate for permanent retention, it will be transferred to the National Archives along with the microfiche.

RECORDS OF THE URANIUM MILL TAILINGS REMEDIAL ACTION
(UMTRA) PROJECT

ALBUQUERQUE OPERATIONS OFFICE OF THE DEPARTMENT OF ENERGY

This project was established by Public Law 95-604, The Uranium Mill Tailings Radiation Control Act of 1978. These records document the actions of the contractor (Jacobs Engineering Group) in carrying out a contract to stabilize, dispose of, and control uranium mill tailings located at designated inactive uranium mill sites in a safe and environmentally sound manner and to remove tailings from the vicinity of properties at many locations.

This certifies that the records described on this request have been micro-filmed in accordance with the standards set forth in 36 CFR Part 1230.

ITEM 1. Quality Assurance Audit Records. Internal and external audit reports of compliance with standards, regulations, procedures, and codes that prevent or mitigate the consequences of events that could cause unreasonable risk to the health and safety of the public or that could compromise project success.

- a. Paper records: Destroy after verification of microform copies. Do not send to Federal Records Center (FRC).
- b. Microform records: Permanent. Transfer silver master, plus one duplicate copy, to the National Archives after completion of UMTRA project (1993). Volume: 1 cu. ft.

Item 2. Quality Assurance Records. Records documenting that the design, construction, installation, test, and operation of Uranium Mill Tailing Remedial Action sites meet the quality standards, codes, and regulations established by Federal, state, and local governments.

- a. Paper records: Destroy after verification of microform copies. Do not send to FRC.
- b. Microform records: Permanent. Transfer silver master, plus one duplicate copy, to the National Archives after completion of UMTRA project (1993). Volume: 5 cu. ft.

ITEM 3. Certification Documents. Documents generated to meet licensing requirements of the Federal Government for uranium and thorium mills and their tailings and wastes. They include certification statements, remedial actions, technical specifications, field test results, pre-remedial action site conditions, remedial action contractor internal audits, site completion reports, certification bases, design calculations, permits titles, post-remedial action site conditions, surveillance report summaries, QA audit reports, design assessments, design criteria, as-built drawings, compliance documents, verification measurements, final audit reports, and radiological and in-process surveillance reports.

- a. Paper records: Destroy after verification of Microform copies. Do not send to FRC.
- b. Microform records: Permanent. Transfer silver master, plus one duplicate copy, to the National Archives after completion of UMTRA project (1993). Volume: 50 cu. ft.

- ITEM 4. Environmental Records. Reports and correspondence concerning ecology, biology, archeology, and meteorology in areas surrounding UMTRA mill tailings sites.
- a. Paper records: Destroy after verification of microform copies. Do not send to FRC.
 - b. Microform records: Permanent. Transfer silver master, plus one duplicate copy, to the National Archives after completion of UMTRA project (1993). Volume: 10 cu. ft.
- ITEM 5. Socioeconomic and Historical Data. Social, economic, and historic records about regions where remedial action may be effected.
- a. Paper records: Destroy after verification of microform copies. Do not send to FRC.
 - b. Microform records: Permanent. Transfer silver master, plus one duplicate copy, to the National Archives after completion of UMTRA project (1993). Volume: 1 cu. ft.
- ITEM 6. Geological and Hydrological Data. Records substantiating engineering studies and design calculations produced for project sites. They include survey data, boring logs, geomorphic data, flood routing, pump tests, maps, field activity records, groundwater sampling records, surface Hydrology data, drilling/well information, borehole/well construction logs, soils analyses, laboratory test data, seismology studies, test pit logs, and geochemical records.
- a. Paper records: Destroy after verification of microform copies. Do not send to FRC.
 - b. Microform records: Permanent. Transfer silver master, plus one duplicate copy, to the National Archives after completion of UMTRA project (1993). Volume: 30 cu. ft.
- ITEM 7. National Environmental Policy Act (NEPA) Documents. Environmental assessments, Environmental Impact Statements, Federal Register Notices, Records of Decisions, Findings of No Significant Impact, Action Description Memorandums, Status Reports, and Site Environmental Reports.
- a. Paper records: Destroy after verification of microform copies. Do not send to FRC.
 - b. Microform records: Permanent. Transfer silver master, plus one duplicate copy, to the National Archives after completion of UMTRA project (1993). Volume: 25 cu. ft.
- ITEM 8. Vicinity Property Case Files. Case files containing records documenting the remedial actions effected on habitable structures in the vicinity of uranium processing sites. Each property has a special identifying number. They include historical data, owner's consent for clean-up, radiological and engineering assessments, supplemental standards, maps, radiological surveys, remedial action, agreements, certification memos, aerial surveys, correspondence, completion reports, and, state property record annotation.
- a. Paper records: Destroy after verification of microform copies. Do not send to FRC.

- b. Microform records: Permanent. Transfer silver master, plus one duplicate copy, to the National Archives after completion of UMTRA project (1993). Volume: 30 cu. ft.

ITEM 9. Radiological, Health, and Safety Training Records. Records concerning the training of personnel who visit or work at UMTRA project sites.

- a. Paper records: Destroy after verification of microform copies. Do not send to FRC.
- b. Microform records: Destroy 75 years after completion of UMTRA project (2068).
