ITEM NUMBER	DESCRIPTION OF RECORDS	DISPOSAL INSTRUCTIONS
	<p style="text-align: center;">CHAPTER 1. RECORDS COMMON TO MOST OFFICES</p> <p>This chapter is a grouping of two types of file material: nonrecord or extra copy files of convenience or reference material and general correspondence (subject) files.</p> <p style="text-align: center;">SECTION 1. NONRECORD MATERIAL</p> <p>This section defines the types of material which are considered nonrecord and provides standards for disposing of such material in all Heritage Conservation and Recreation Service offices. Nonrecord materials have no documentary or evidential value usually because they are: (1) duplicate copies of an original maintained by a separate office of primary interest which serves as the official record; (2) printed or processed materials of which only the master copy is considered official; or (3) papers of a transitory nature which cease to have any documentary or evidential value after their contents are incorporated or adequately summarized in other documents; e.g., preliminary drafts, shorthand notes, work sheets, etc.</p> <p>This type of material accumulates in offices as a convenience to personnel, but should be kept to a minimum. Nonrecord material is often found interfiled with official papers -- this is a poor files maintenance practice. Retention of nonrecord material is not required. Ideally, much of this material should be destroyed <u>without filing</u>. This reduces the volume of material in the files and makes files more serviceable. If, however, nonrecord material is filed, it should be kept separately from official records.</p>	

ITEM NUMBER	DESCRIPTION OF RECORDS	DISPOSAL INSTRUCTIONS
	<p>The following standards cover nonrecord material normally created or accumulated as a result of responsibilities and activities common to all offices.</p> <p>NOTE: NO MATERIAL IN THIS SECTION SHOULD EVER BE SENT TO THE FEDERAL ARCHIVES AND RECORDS CENTER.</p>	
101-01 (GRS 16/3a- ok)	<p><u>Files Maintenance and Disposition Plans.</u> Documents which reflect file categories, disposal instructions, and other information about the files accumulated at an individual file station.</p>	<p>Destroy upon receipt of a revised plan or discontinuance of the plan.</p>
101-02	<p><u>Reading or Chronological Files.</u> Extra copies of correspondence prepared and maintained by the originating office used solely as a reading or reference file for the convenience of personnel.</p> <p>EXCEPTION: THE HCRS DIRECTOR'S CHRONOLOGICAL FILE OF OUTGOING CORRESPONDENCE IS COVERED BY SCHEDULE NO. 201-03 AND IS DESIGNATED AS PERMANENT.</p>	<p>Cut off at close of fiscal year. Destroy 1 year after cutoff or after reference value has been exhausted, whichever is sooner.</p>
101-03	<p><u>Suspense Files.</u> Papers arranged in chronological order as a reminder that an action is required on a given date; a reply to action is expected and if not received, should be traced on a given date; or a transitory paper being held for reference which may be destroyed on a given date. Examples of papers in suspense files are:</p> <ol style="list-style-type: none"> a. A note or other reminder to submit a report or to take some other action. b. The file copy, or an extra copy of an outgoing communication, filed by the date on which a reply is expected. 	<p>Destroy after action is taken.</p> <p>Withdraw papers when reply is received. If suspense copy is an extra copy, destroy it; if it is the file copy, incorporate it with other papers for file.</p>

ITEM NUMBER	DESCRIPTION OF RECORDS	DISPOSAL INSTRUCTIONS
	<p>c. Papers which may be destroyed in 30 days or less as being without further value.</p>	<p>Destroy on date under which suspended.</p>
101-04	<p><u>Policy and Precedent Reference Files.</u> Copies of documents establishing policy or precedents pertinent to future and continuing actions. Normally, policy and precedent files are maintained at operating levels and consist of extra copies of operating procedures, statements of policy or procedure, examples of typical cases, and other documents duplicated in official files. Original or official record copies will NOT be placed in this file. This file consists of non-record copies maintained only for convenience of reference.</p>	<p>Destroy when organizational unit is discontinued or when documents become obsolete or are no longer needed for operating or reference purposes.</p>
101-05	<p><u>Transitory Files.</u> Papers of short-term interest which have no documentary or evidential value and normally need not be kept more than 90 days. Examples of transitory correspondence are shown below:</p> <p>a. <u>Requests for Information or Publications.</u> Routine requests for information or publications and copies of replies which require no administrative action, no policy decision, and no special compilation or research for reply, such as requests for publications or other printed material.</p> <p>b. <u>Letters of Transmittal.</u> Letters of transmittal that do not add any information to that contained in the transmitted material.</p> <p>c. <u>Quasi-Official Notices.</u> Memoranda and other papers that do not serve as the basis of official actions, such as notices of holidays or charity and welfare fund appeals, bond campaigns, and similar papers.</p>	<p>Cut off monthly. Destroy 3 months after cutoff.</p>

ITEM NUMBER	DESCRIPTION OF RECORDS	DISPOSAL INSTRUCTIONS
	<p>Recordkeepers shall combine the types of temporary material shown above into one transitory file arranged chronologically. If the volume warrants using more than one folder, four folders labeled as follows may be used:</p> <p style="padding-left: 40px;">Transitory (JAN - MAY - SEP) Transitory (FEB - JUN - OCT) Transitory (MAR - JUL - NOV) Transitory (APR - AUG - DEC)</p> <p>A folder is used for each month. National Register Determination of Eligibility Property Investigation Files.

Files created when HCRS, in response to inquiry, information, or complaint from States, individuals, or organizations, initiates inquiries into the eligibility (for inclusion in the National Register) of a site that may be affected by a Federally funded, licensed, or assisted project. HCRS in this case may gather information on the project and how it will affect the site, inform the involved Federal agency of its responsibilities under the Preservation Act, or ask the agency to request a determination from HCRS on the eligibility of the site. Records may include project and site description; architectural, historical, or archeological survey reports; comments by the State Historic Preservation Officer. Inquiries may result in a formal request for determination of eligibility (Item 1501-07) or an informal determination of ineligibility (in the latter case, the HCRS file only documents the fact that HCRS followed up on the initial inquiry or complaint).
