NOTICE - SOME ITEMS SUPERSEDED OR OBSOLETE

Schedule Number: N1-047-87-004

Some items in this schedule are either obsolete or have been superseded by new NARA approved records schedules. This information is accurate as of: <u>12/28/2021</u>

ACTIVE ITEMS

These items, unless subsequently superseded, may be used by the agency to disposition records. It is the responsibility of the user to verify the items are still active.

All items not listed below remain active.

SUPERSEDED AND OBSOLETE ITEMS

The remaining items on this schedule may no longer be used to disposition records. They are superseded, obsolete, filing instructions, non-records, or were lined off and not approved at the time of scheduling. References to more recent schedules are provided below as a courtesy. Some items listed here may have been previously annotated on the schedule itself.

Item 1 was superseded by N1-047-89-002, item 1, which was not appraised because it was a GRS item. Records are covered by GRS 1.1, item 010 (DAA-GRS-2013-0003-0001). Item 3 was superseded by N1-047-89-002, item 2.

2. Management Information Reports

These reports are published quarterly by the Agency and are cumulative; thus, the fourth quarter report serves as an annual report. They contain statistical and fiscal data on the number of VR cases. The information published in these reports is more detailed than other VR published data.

Proposed Retention

- a. Fourth Quarter Summary (Annual) Report: Permanent. Offer one copy of each report to the National Archives in 18-year blocks.
- b. Other quarterly reports and other office copies of fourth quarter report:

Dispose of when no longer needed.

3. Vocational Rehabilitation Claim Reimbursement Master System

This electronic master system is created from the claims received from the VRAs and supplemented by data from other SSA systems such as the MBR and SSR. Each file on the system contains records about the individual receiving VR services and his or her SSA claim.

Proposed Retention

Drop individual files from system 48 years after final action. (Forty-eight years is the period of time (from age 18 through 65) in which an individual may be eligible for VR services. This retention period will ensure that records of individuals will be preserved through recurring periods of pay status for SSA claims and potential VR services.)

4. Management Information Database

This database is derived from the Master System (above) and has been purged of all personal data. It is used to generate the quarterly management information reports.

Proposed Retention

Archive each database used to create Fourth Quarter Summary Reports and destroy when 15 years old.

5. Master Control Record

This is an electronic index of all claims and inquiries received. It documents folder and/or disc/record movement and location and serves as an internal control established on all claims and inquiries received. It is used primarily to prevent duplicate payments and is accessed each time a new claim or inquiry is received.

Proposed Retention

Drop individual records when no longer needed for control purposes.
