General Information

Agency or Establishment	Administration for Strategic Preparedness and Response
Record/Scheduling Group	0611 - Records of the Administration for Strategic Preparedness and Response
Records Schedule Applies To	Agency-wide
Schedule Subject	ASPR Technical Resources, Assistance Center, and Information Exchange System (ASPR TRACIE)
Additional Schedule Information	Background Information The Administration for Strategic Preparedness and Response (ASPR) sponsors the ASPR Technical Resources, Assistance Center, and Information Exchange (ASPR TRACIE). ASPR TRACIE was created to meet the information and technical assistance needs of regional ASPR staff, state and local healthcare preparedness grantees, healthcare coalitions, healthcare entities, healthcare providers, and others working in disaster medicine and healthcare system preparedness. ASPR TRACIE is a special project that supports technical assistance needs for all of ASPR, other Staffing and Operating Divisions of HHS, the interagency, and external stakeholders.

Formally launched in September 2015, the vision of ASPR TRACIE is to serve as a national knowledge center for healthcare preparedness. ASPR TRACIE aims to ensure that all stakeholders – at the federal, state, local, tribal, territory, non-profit and for-profit levels – have access to information and resources to improve medical and health system preparedness, response, recovery, and mitigation efforts.

The goal of ASPR TRACIE is to better support flexible, coordinated, and consolidated responses to medical, healthcare, and public health incidents, thereby improving community resilience to all hazard disasters. ASPR TRACIE achieves this goal by supporting knowledge transfer and collaborations between state and local medical and public health authorities, Presidential initiatives, federal agencies, healthcare coalitions, non-governmental organizations, colleges/universities, and experts in the field to facilitate the sharing of information regarding best/promising practices and emerging issues.

The ASPR TRACIE Team maintains a public-facing web-based library of materials on various public health, healthcare, disaster medicine, and medical emergency preparedness topics. The Resource Library includes links to various materials such as evidence-based articles, fact sheets, reports, technical briefs, white papers, toolkits, webinars, plans, guidelines, best and promising practices, lessons learned, and templates.

The Resource Library is populated from two primary inputs: 1) materials located, reviewed, received, and vetted by the ASPR TRACIE Team, and 2) materials housed in the (now-retired) National Library of Medicine (NLM) Disaster Lit® database. NLM was retired by the National Institutes of Health in June 2021, and ASPR TRACIE absorbed the resources housed in that database.

The ASPR TRACIE Library also includes these three types of materials:

- 1) materials identified by the ASPR TRACIE Team or created by ASPR TRACIE
- 2) materials solicited through outreach and rollout campaigns; and
- 3) unsolicited materials submitted by ASPR TRACIE users through email or via the IE

For each resource determined appropriate for inclusion in the ASPR TRACIE Resource Library, the ASPR TRACIE Team creates a unique database record. If the resource is not already available online, the ASPR TRACIE Team requests permission from the author to make it accessible and compliant with Section 508 of the Rehabilitation Act before creating a record, housing the resource within the ASPR TRACIE database, and making it publicly available on the ASPR TRACIE webpage.

Records created before June 29, 2022 are scheduled under DAA-0468-2019-0003.

Is There a Classified Version of This Schedule?

No

Is consultation and coordination with Tribal Governments required?

No - the records covered by this schedule do not implicate Tribal interests
