General Information

Agency or Establishment	Administration for Strategic Preparedness and Response
Record/Scheduling Group	0611 - Records of the Administration for Strategic Preparedness and Response
Records Schedule Applies To	Agency-wide
Schedule Subject	Recovery Operations Records
Additional Schedule Information	The National Disaster Recovery Framework (NDRF) established six Recovery Support Functions (RSF) and identified the Department of Health and Human Services (HHS) as the Coordinating Agency for the Health and Social Services (H&SS) RSF. The mission of the H&SS RSF is for the federal government to support locally-led recovery efforts to restore public health, healthcare and social services networks and to promote the resilience, health, and well-being of disaster-affected individuals and communities.
	The Administration for Strategic Preparedness and Response (ASPR) Recovery Program serves as the Department's coordinating office in support of the NDRF. ASPR Recovery Program deploys H&SS Field Coordinators tasked with conducting mission scoping assessments of post-disaster impacts to health and social services systems in the affected states and territories to determine and quantify the type and level of enhanced recovery support through the RSF. The nine core mission areas of the H&SS RSF are: public health, healthcare services, environmental health, behavioral health, food and safety and regulated medical products, social services, referral to social services/disaster case management, long-term recovery impacts to first responders, and children in disasters (schools, children, and youth).
	If the mission is conducted pursuant to a mission assignment issued under the Stafford Act, closure is on the last date of performance period of the mission assignment. In the event the mission is a Non-Stafford Act event, closure is on the date the Secretary's Operations' Center closes the incident for reporting.
